CHARTERED INSTITUTE OF STATISTICIANS OF NIGERIA

(Publishers of the Journal of the Chartered Institute of Statisticians of Nigeria)

3rd International Conference

3rd Pre-conference Workshop

Celebrating 50 YEARS OF STATISTICAL PROFESSION
(1976–2026)

Theme

FROM LEGACY TO LEADERSHIP: 50 YEARS OF PROMOTING STATISTICAL DEVELOPMENT IN NIGERIA

Date: 12th - 16th October, 2026

Venue: Chida International Hotel Event Center Utako, Abuja Nigeria

Email: admin@cison.org.ng, info@cison.org.ng | Website: www.cison.org.ng

Conference Theme

FROM LEGACY TO LEADERSHIP: 50 YEARS OF PROMOTING STATISTICAL DEVELOPMENT IN NIGERIA

SUB-THEME

- Evolution of Statistical system in Nigeria over the last 50 years
- Political electioneering in the era of Big Data & Analytics-Statistical insights for credible election
- Big Data, Artificial intelligence and Real Time Indications for good governance
- Citizen engagement and statistical Literacy.
- The Next 50 years: vision for the National Statistical System

Aims:

- Celebrate five decades of statistical development; and
- Define a strategic pathway for the future of statistics in Nigeria.

Objectives

1. Review the milestones, achievements and lessons of 50 years of statistical development in Nigeria.
2. Assess the capacity, effectiveness and sustainability of Nigeria's National Statistical System.
3. Promote the modernisation of statistical production through digital technologies, big data analytics, artificial intelligence and innovative data sources.
4. Strengthen the role of statistics in evidence-based policymaking, economic management and sustainable national development.
5. Foster collaboration among government institutions, professional bodies, academia, international organisations and private-sector stakeholders.
6. Advance professional excellence, ethical practice, statistical literacy and leadership in the statistical profession.
7. Explore innovative statistical applications in emerging sectors and priority areas of national development.
8. Position Nigeria and its statistical professionals for greater regional and global leadership in statistical standards, research and innovation.
9. Formulate actionable recommendations for the next phase of statistical development in Nigeria through a conference communiqué.

#CISON50thAnniversary #CISON2026 #CISONABUJA2026

National Anthem

Nigeria We Hail Thee
Our own dear native land
Though tribe and tongue may differ
In brotherhood we stand
Nigerians all, and proud to serve
Our sovereign Motherland.

Our flag shall be a symbol
That truth and justice reign,
In peace or battle honour'd
And this we count as gain,
To hand on to our children
A banner without stain.

O God of all creation,
Grant this our one request,
Help us to build a nation
Where no man is oppressed,
And so with peace and plenty
Nigeria may be blessed.

National Pledge

I pledge to Nigeria my Country
To be faithful, loyal and honest
To serve Nigeria with all my strength
To defend Her unity
And uphold Her honour and glory
So help me God.

CISON
Statistical Science, Knowledge and Professionalism

CISON ANTHEM (REVISED)

Stanza 1

Hail, Chartered Institute of Statisticians of Nigeria,
Pride of our nation, beacon shining bright;
With truth and knowledge, skill and wisdom,
We guide our land to progress and light.
Integrity, excellence, and service,
Our guiding stars, our noble flame;
For Nigeria's growth and transformation,
We proudly honour our Institute's name.

Chorus

Chartered Institute of Statisticians of Nigeria!
Chartered Institute of Statisticians of Nigeria!
Forward we rise, with hearts so strong,
Guardians of knowledge, righting wrong;
Statistical science shall lead the way,
Building our nation day by day.
United in purpose, we proudly proclaim:
Excellence and service in our Institute's name!

Stanza 2

From data to wisdom, from figures to light,
We shape sound pathways, clear and right;
Through research, learning, and innovation,
We build the future of our nation.
Professionalism, honour, and vision,
Our standards upheld with steadfast care;
Chartered Institute of Statisticians of Nigeria,
Leading Nigeria everywhere!

Chorus

Chartered Institute of Statisticians of Nigeria!
Chartered Institute of Statisticians of Nigeria!
Forward we rise, with hearts so strong,
Guardians of knowledge, righting wrong;
Statistical science shall lead the way,
Building our nation day by day.
United in purpose, we proudly proclaim:
Excellence and service in our Institute's name!

Final Chorus

Nigeria, arise! Let the numbers speak,
With knowledge and truth, the future we seek;
With integrity strong and service sincere,
We build a great nation, united and dear.
Chartered Institute of Statisticians of Nigeria!
Our pride, our calling, our guiding flame!
For Nigeria's glory, we proudly stand-
Excellence and service in our Institute's name!

3rd International Conference of the Chartered Institute of Statisticians of Nigeria (CISON)

PROGRAMME OF ACTIVITIES

Day One: Wednesday October 14, 2026 Event Moderator: Derek Ibeagha		
Activity	**Responsibility**	**Duration**
Attendance Registration	All	8.00am – 9.00am
Welcome Address	**Mrs. Ngozi T. Agboegbulem** *(Registrar, CISON)*	9.00am – 9.15am
Opening Remarks	**Dr. Godday U. Ebuh** *(President, CISON)*	9.15am – 9.30am
Hall Identification for Technical Sessions	**Dr. OlaOluwa Yaya** *(Associate Editor, JCISON)*	9.30am – 9.40am
Tea Break	**All Participants**	**9.40am – 10.00am**
Presentations at Theory Room	**Prof. Polycarp E. Chigbu** (Editor-in-Chief, JCISON) Assisted by the Editorial Committee and Session Chairs	10.00am – 1.30.pm
Presentations at Applied Room A		10.00am – 1.30.pm
Presentations at Applied Room B		10.00am – 1.30.pm
Presentations at Applied Room C		10.00am – 1.30.pm
Lunch Break	**All Participants**	**1.30pm - 2.30pm**
Presentations at Theory Room	**Prof. Polycarp E. Chigbu** (Editor-in-Chief, JCISON) Assisted by the Editorial Committee and Session Chairs	2.30pm – 5.30.pm
Presentations at Applied Room A		2.30pm – 5.30.pm
Presentations at Applied Room B		2.30pm – 5.30.pm
Presentations at Applied Room C		2.30pm – 5.30.pm
Announcement/Closing Remarks	**Dr Michael K. Mba** *(Chairman, NOC)*	5.30pm – 6.00pm

Day Two: Thursday October 15, 2026

Event Moderators: Nuhu Waney/Derek Ibeagha

Activity	Responsibility	Duration
Attendance Registration	All Participants	9.00am – 10.00am
Opening Ceremony/Plenary Session		**10:00am – 1.00pm**
National and CISON Anthems	All Participants	10.00am – 10.10am
CISON President's Address	**Dr. Godday U. Ebuh** (President, CISON)	10.10am – 10.20am
Goodwill Messages	Dignitaries and Institutional Members of CISON	10.20am – 10.40am
Special Speech	**Prince Adeyemi Adeniran** Statistician General/CEO, NBS	10.40am – 10.55am
Opening Address	**Senator Kashim Shettima (GCON)** Vice President, Federal Republic of Nigeria	10.55am – 11.10am
Group Photographs	President/Governing Council/Special Guests & Dignitaries	11.10am – 11.20am
Cultural Dance	Cultural Troupe	11.20am – 11.30am
Keynote Speech	**Professor Steve MacFeely** *(Chief Statistician/Director, OECD Statistics & Data Directorate, Paris)*	11.30am – 11.50am
Panel Session: **The Future of Statistics in Nigeria after 50 Years of Statistical Development**	**Moderator:** Dr. Godstime Eigbiremolen (World Bank, Abuja) **Panellists:** - Dr. Kingsley Anosike – Abia State Commissioner for Budget & Economic Planning - Mr. Biyi Fafunmi – Former Director (ICT), NBS Nigeria. - Mr. Dotun Adekunle – Chief Operating Officer, Opay Nigeria - Prof. Ekaete Enang – DVC (Academic), University of Calabar - Mr. John Wesey – Data & Analytics Consultant - Dr. Moses Okpanachi - Director, CBN Statistics Department - Dr. Yemi Kale – Group Chief Economist/MD, RTI Afreximbank - Dr. Chigozie Utazi - Associate Professor, University of Southampton, UK.	11.50am – 12.55pm
Vote of Thanks	**Dr. Umaru Baba** (Member, NOC)	12.55pm – 1.00pm
Tea Break/Networking	All Participants	1.00pm – 3.00pm
Anniversary Celebrations! Fellowship Awards! Induction Ceremony!		**3:00pm – 6:00pm**
Procession of the Governing Council/Past Presidents	Governing Council Past Presidents	3.00pm – 3.10pm
Fellowship & Awards	**Dr. Godday U. Ebuh** (President, CISON) Governing Council	3.10pm – 3.40pm
Group Photographs	President/Governing Council/CISON Fellows	3.10pm – 3.40pm
Cultural Dance	Cultural Troupe	3.40pm – 3.50pm
Induction of New Members	**Mrs. Ngozi T. Agboegbulem** (*Registrar, CISON)*	3.50pm – 4.10pm
50th Anniversary Celebration	Saxophonist Performance Cutting of 50th Anniversary Cake	4.10pm – 4.30pm
Anniversary Celebrations	Live Band Performance	4.30pm – 5.30pm
Announcement/Closing Remarks	**Dr. Michael K. Mba** *(Chairman, NOC)*	5.30pm – 5.45pm

Day Three: Friday October 16, 2025 Event Moderator: Derek Ibeagha		
Activity	**Responsibility**	**Duration**
Attendance Registration	All Participants	8.00am – 9.00am
Virtual Theory/Applied Paper Presentations	**Prof. Polycarp E. Chigbu** (Editor-in-Chief, JCISON) Assisted by the Editorial Committee and Session Chairs	9.00am – 11.00am
Chat with the Statistician General of the Federation	Moderator: **Derek Ibeagha** (CBN Research Department) Guest speaker: **Prince Adeyemi Adeniran** Statistician General/CEO, NBS	11.00am – 11.30am
Presentation of Communique	**Mr. Jaafar Bello** *(Secretary, NOC)* Communique Committee Members	11.30am – 11.45am
Annual General Meeting (AGM) & Election Proceedings	**Mrs. Ngozi T. Agboegbulem** *(Registrar, CISON)* All Members	11.45am – 1.55pm
Announcement/Closing Remarks	**Dr. Michael K. Mba** *(Chairman, NOC)*	1.55pm –2.00pm
Lunch Break	**All Participants**	**2.00pm - 3.30pm**
Election! Election!! Election!!!	**Electoral Committee** **CISON Secretariat**	3.30 pm – 6.00pm
DEPARTURE		

His Excellency

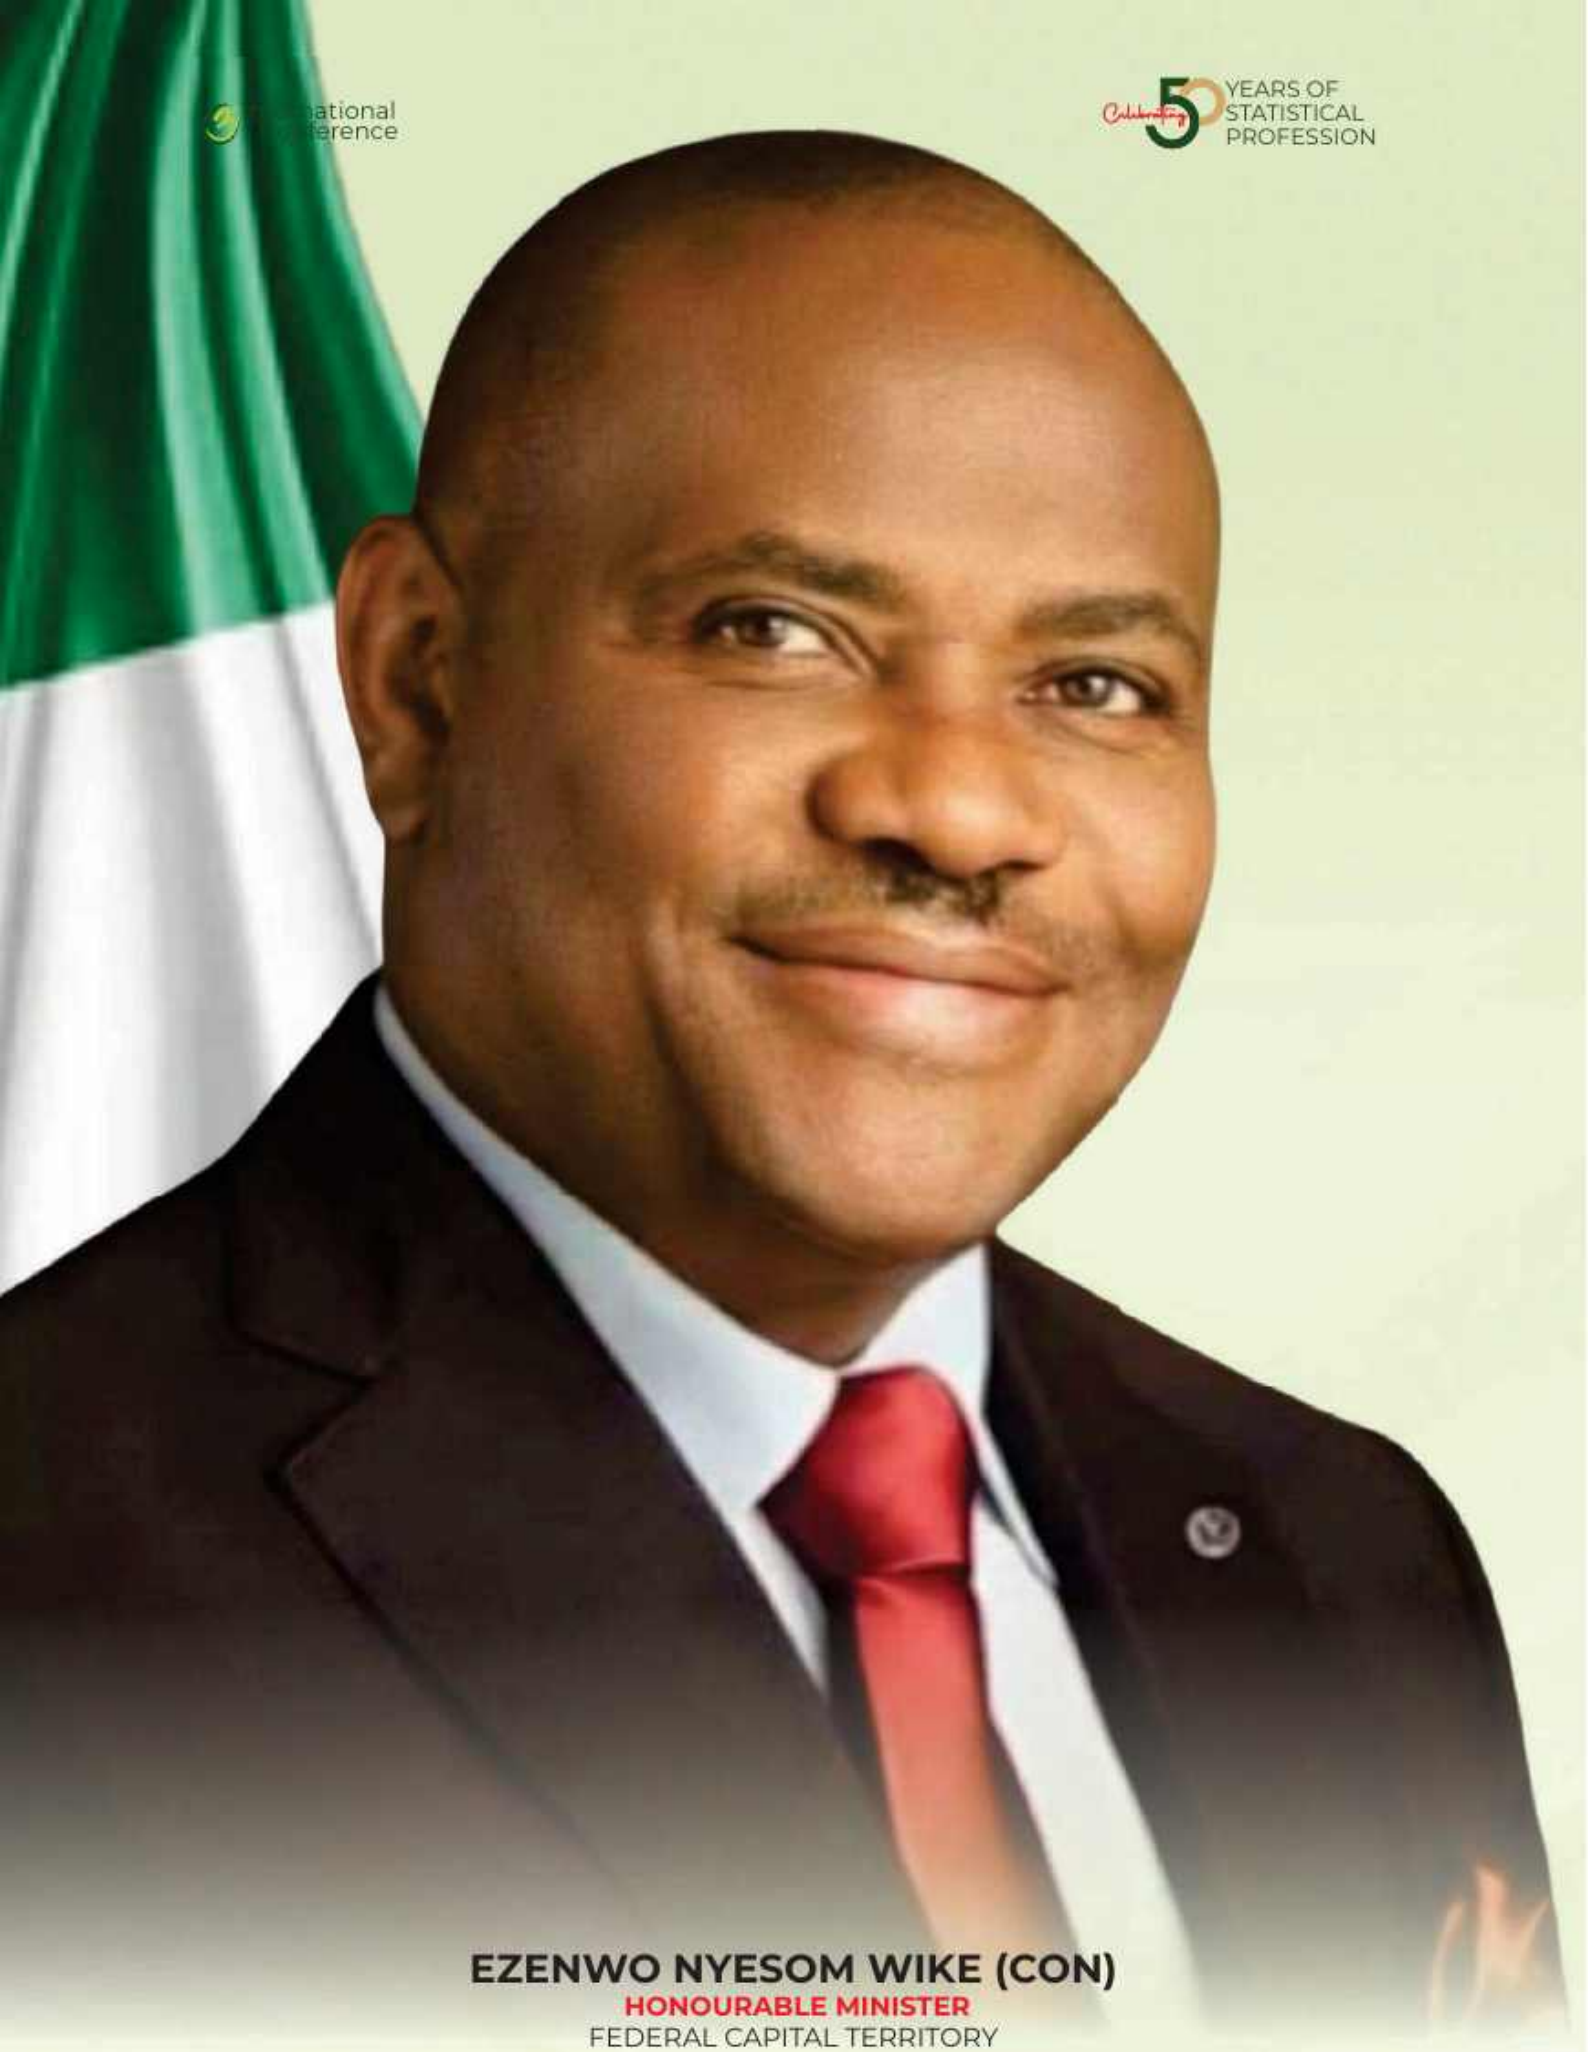

BOLA AHMED TINUBU GCFR

PRESIDENT AND COMMANDER-IN-CHIEF OF THE ARMED FORCES
FEDERAL REPUBLIC OF NIGERIA

SENATOR KASHIM SHETTIMA MUSTAPHA, (G.C.O.N)

VICE PRESIDENT FEDERAL REPUBLIC OF NIGERIA

EZENWO NYESOM WIKE (CON)
HONOURABLE MINISTER
FEDERAL CAPITAL TERRITORY

SEN. ABUBAKAR ATIKU BAGUDU (CON)

HONOURABLE MINISTER

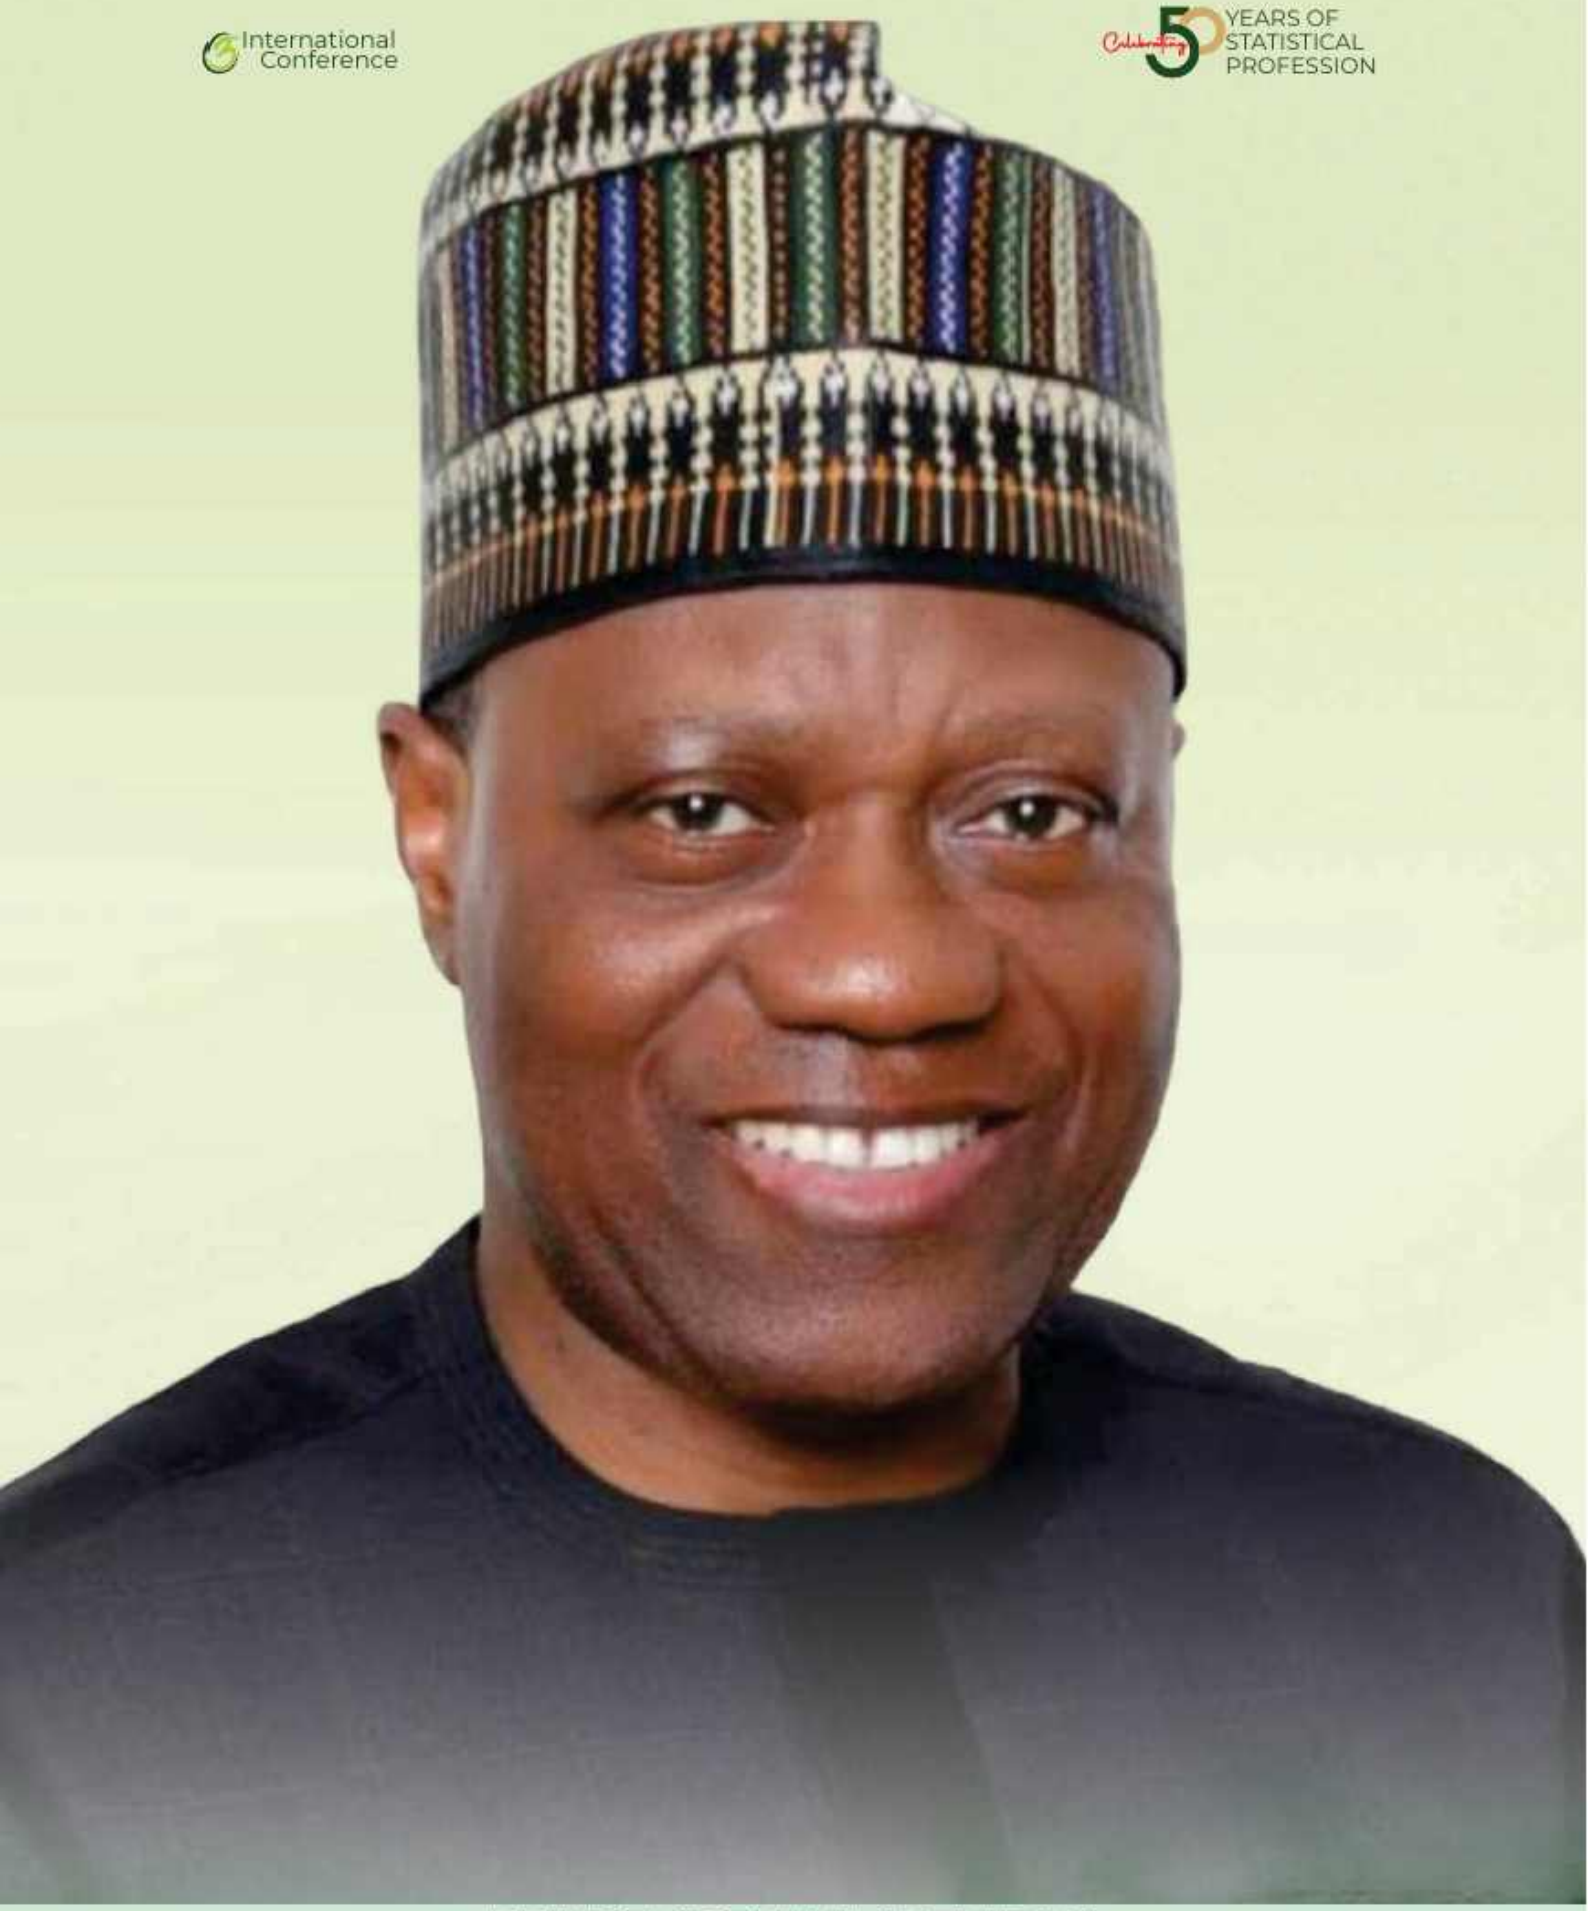

FEDERAL MINISTRY OF BUDGET & ECONOMIC PLANNING
FEDERAL REPUBLIC OF NIGERIA

Abel Olumuyiwa Enitan
Head of Civil Service of the Federation (HoCSF)

Mr. Olayemi Michael Cardoso
CBN Governor
Special Guest of Honour

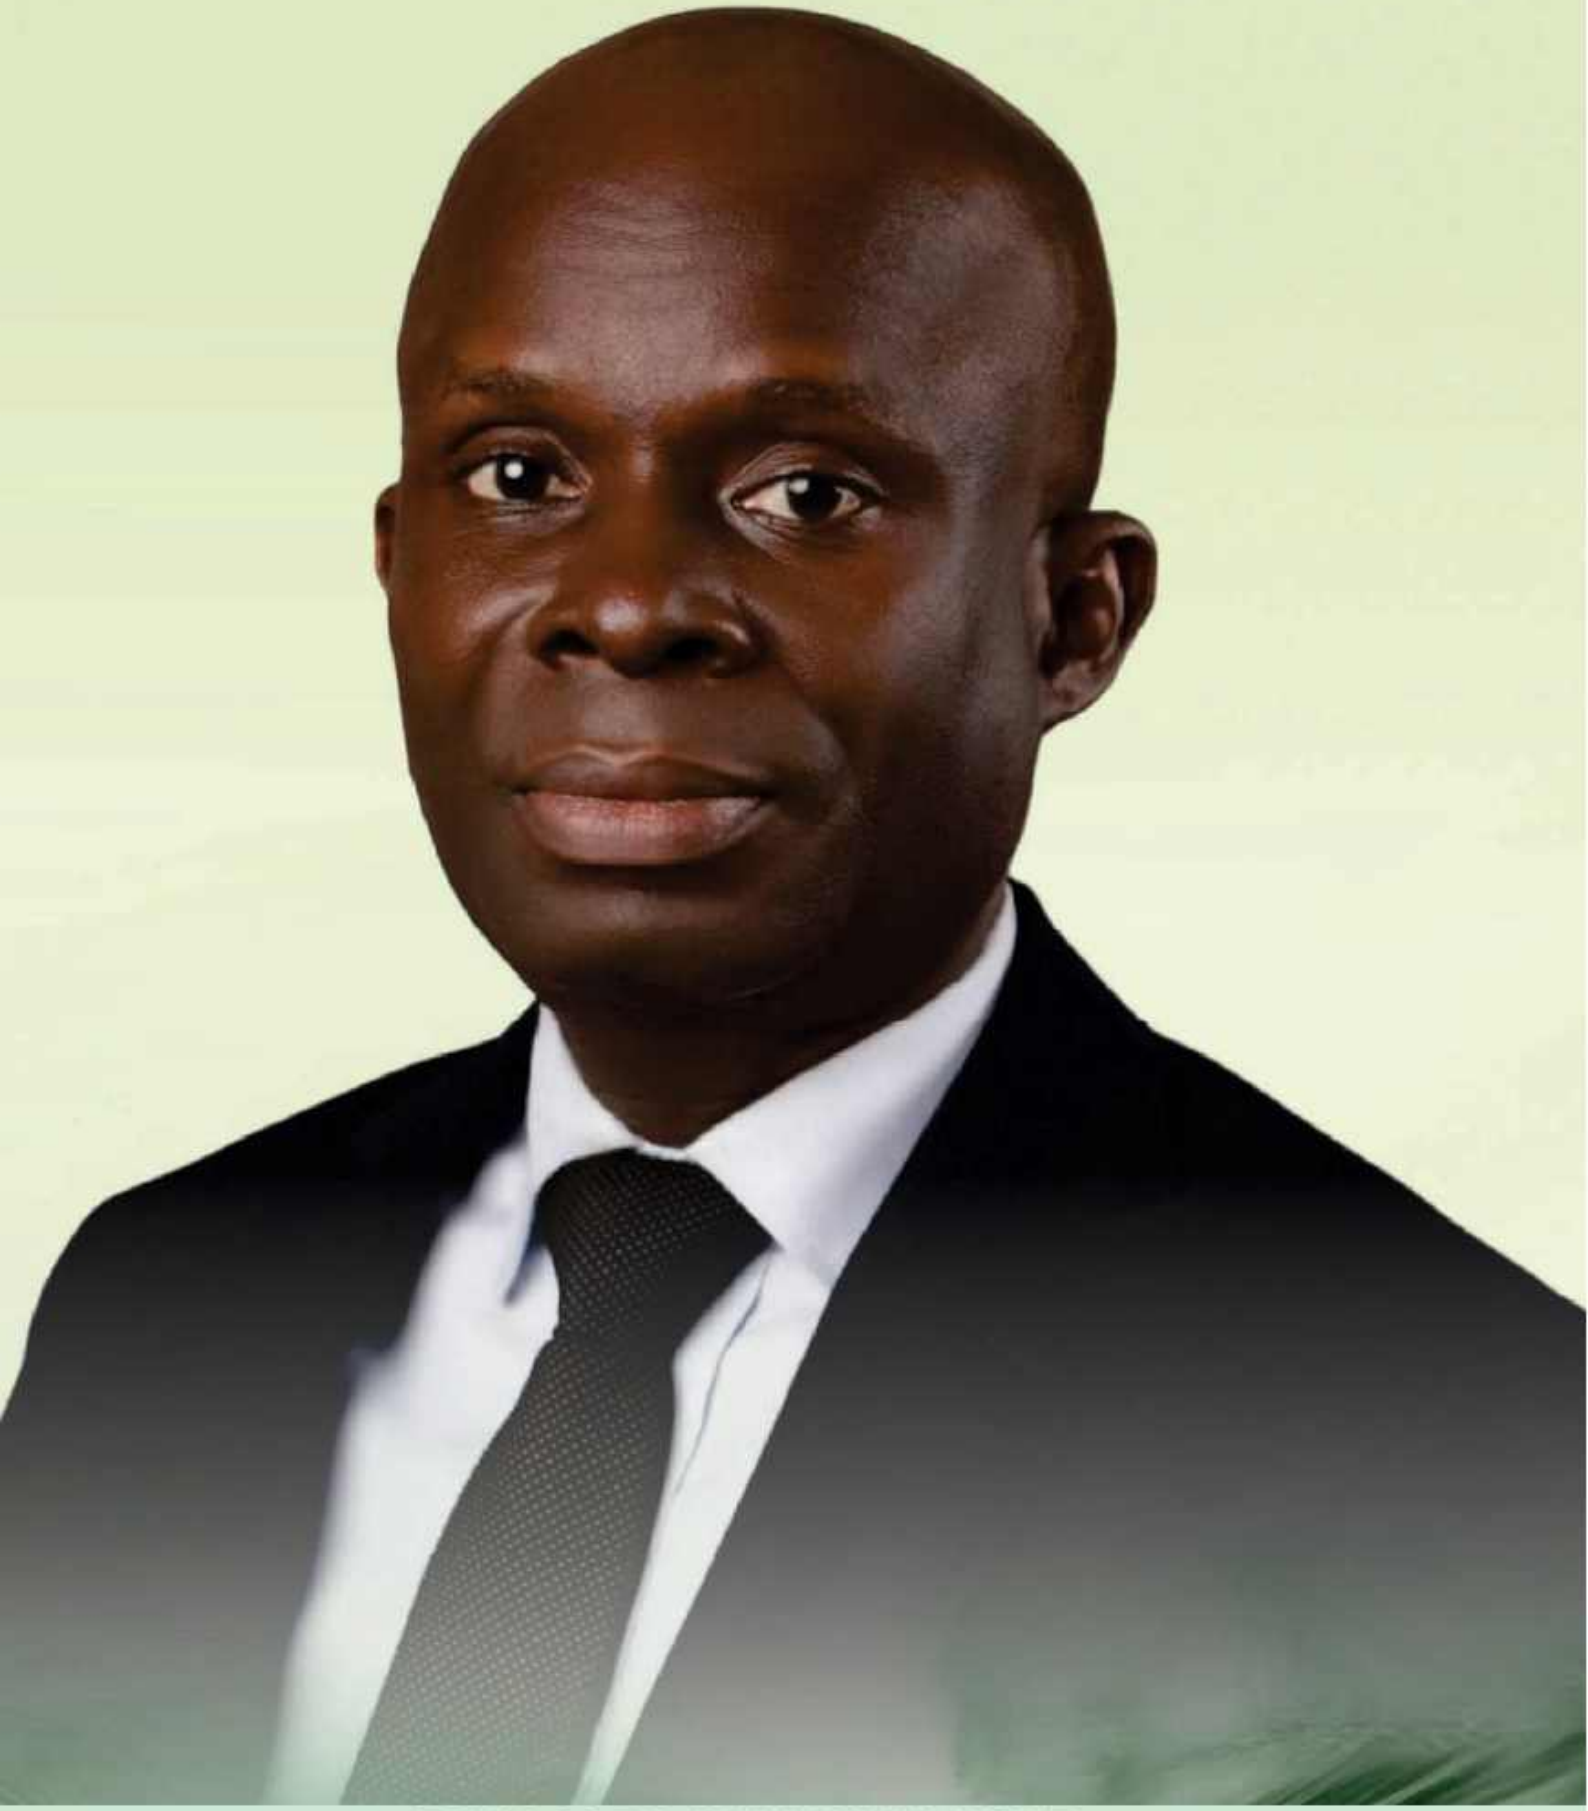

PRINCE ADEYEMI ADENIRAN

STATISTICIAN GENERAL OF THE FEDERATION

MR PHILIP CHUKWUEMEKA IKEAZOR
DEPUTY GOVERNOR, ECONOMIC POLICY, C.B.N.

EBUH GODDAY UWAWUNKOYE, PhD

PRESIDENT/CHAIRMAN OF COUNCIL, CISON

MRS. NGOZI T. AGBOEGBULEM
Registrar/Chief Executive, CISON

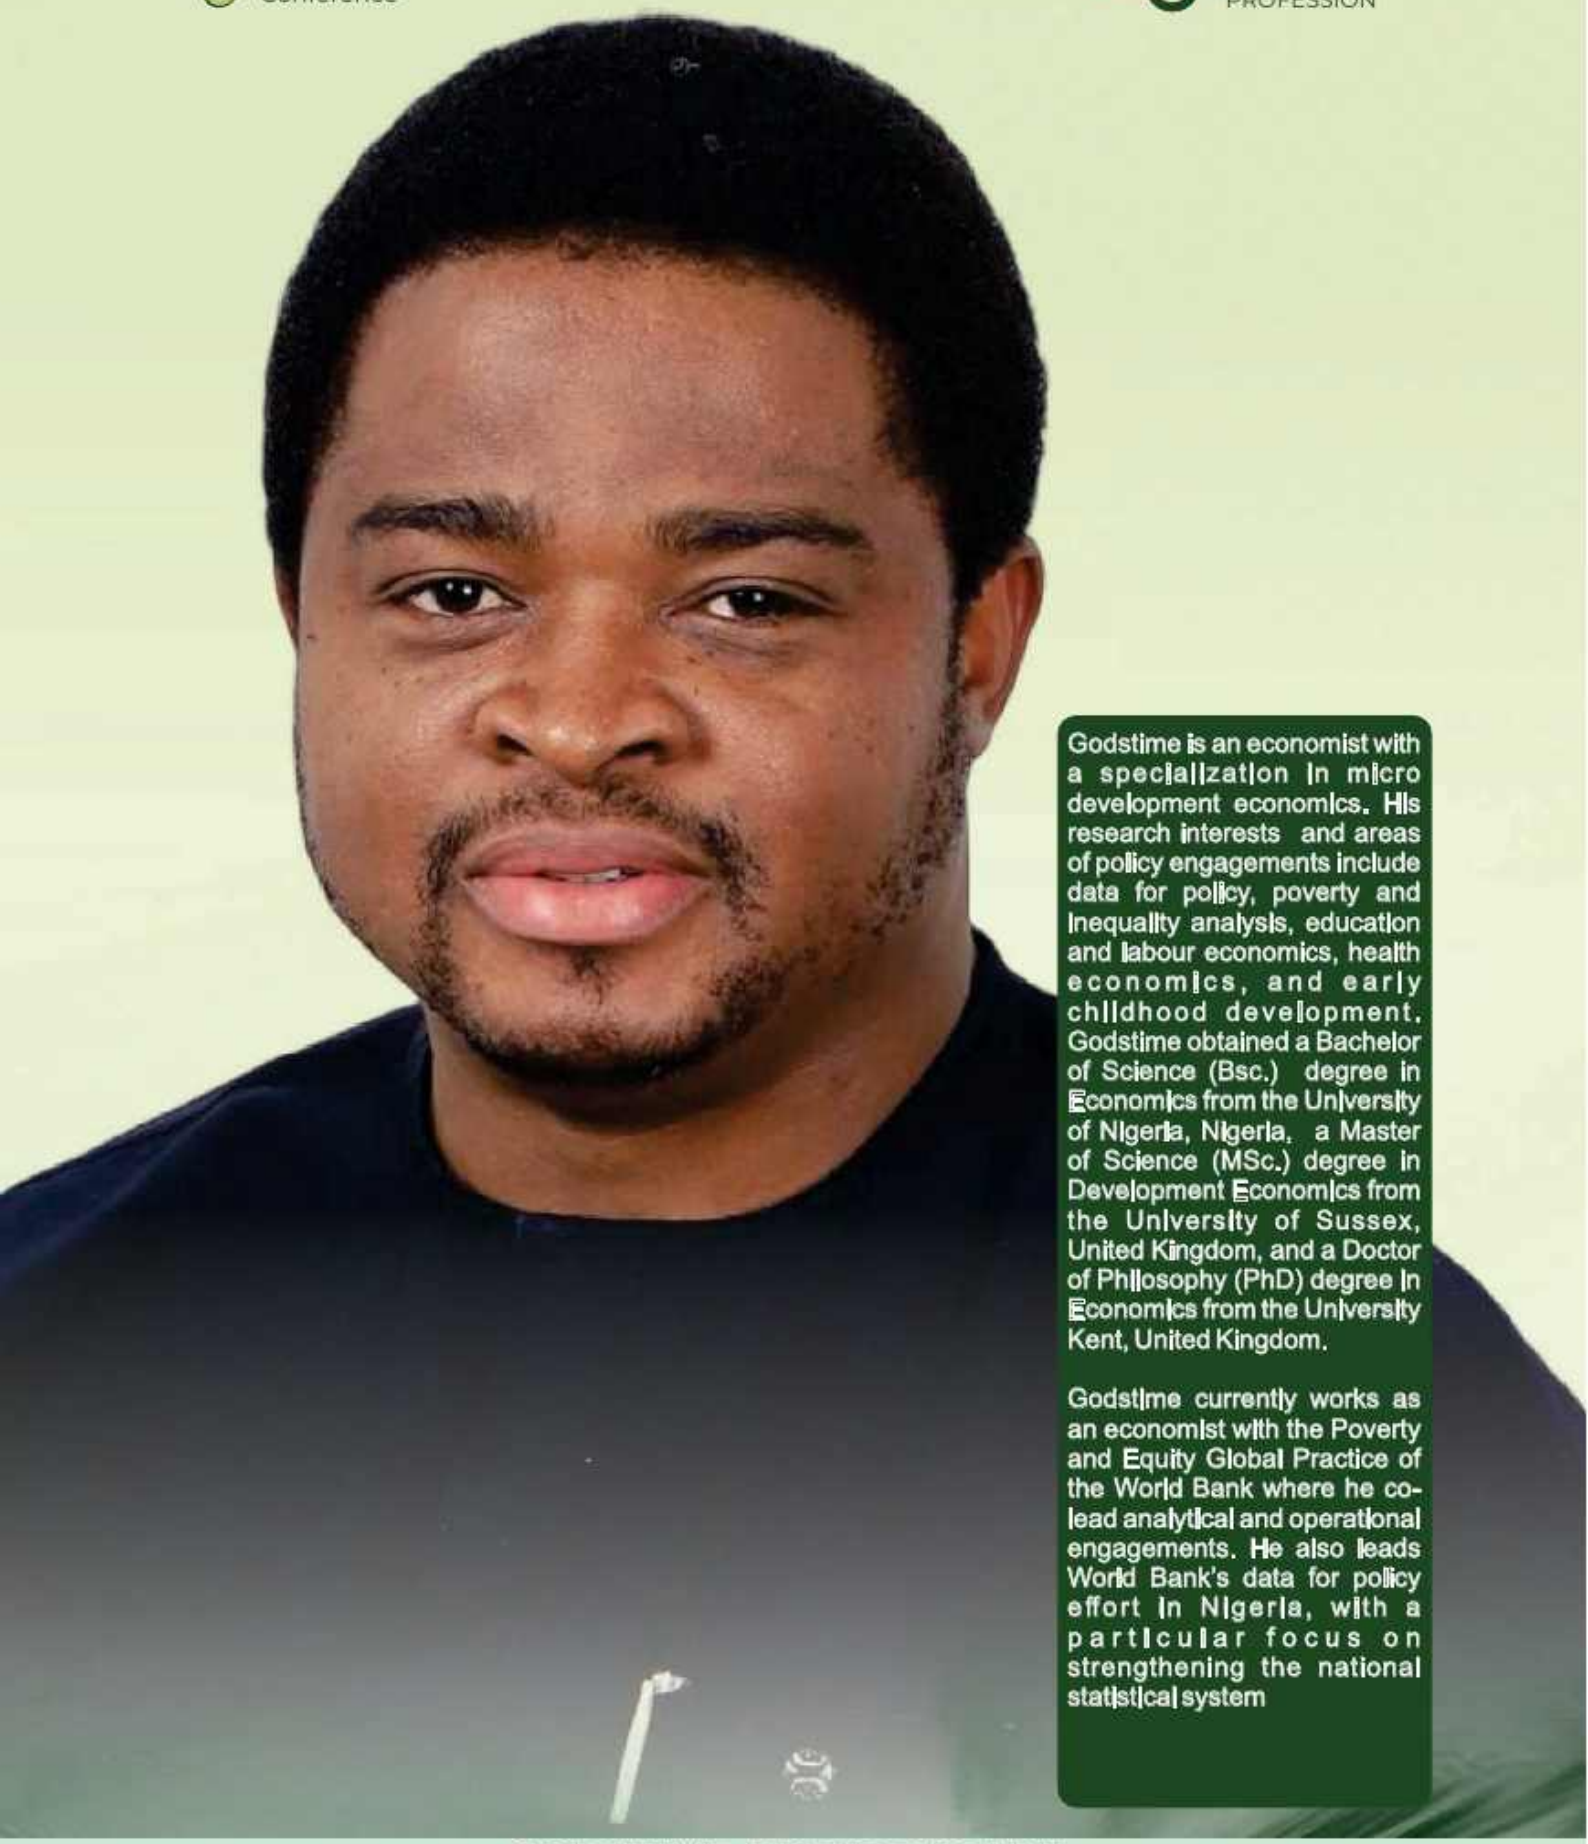

Bio: Dr. Steve MacFeely is the Chief Statistician of the OECD and Director of the Statistics and Data Directorate. He is also Adjunct Professor at the Department of Economics at University College Cork in Ireland.

He chairs the Advisory Board of the Statistical Journal of the IAOS, the UNs Productive Capacity Index Statistical and Technical Expert Group, and the Advisory Board of the International Statistics Literacy Project. Steve is an elected member of the International Statistics Institute.

Prior to joining the OECD, Steve served as the Director of Data and Analytics at the World Health Organization and as Director of Statistics and Information at UN Trade and Development. Before joining the UN, he was the Deputy Director-General at the Central Statistics Office (CSO) in Ireland.

Dr. Steve MacFeely
Keynote Speaker

Godstime is an economist with a specialization in micro development economics. His research interests and areas of policy engagements include data for policy, poverty and inequality analysis, education and labour economics, health economics, and early childhood development. Godstime obtained a Bachelor of Science (Bsc.) degree in Economics from the University of Nigeria, Nigeria, a Master of Science (MSc.) degree in Development Economics from the University of Sussex, United Kingdom, and a Doctor of Philosophy (PhD) degree in Economics from the University Kent, United Kingdom.

Godstime currently works as an economist with the Poverty and Equity Global Practice of the World Bank where he co-lead analytical and operational engagements. He also leads World Bank's data for policy effort in Nigeria, with a particular focus on strengthening the national statistical system

GODSTIME EIGBIREMOLEN

MODERATOR OF PANEL SESSION

Celebrating 50 YEARS OF STATISTICAL PROFESSION

PANELISTS

John Wesey LDM

John Wesey LDM
Managing Consultant/CEO at Psyntech

John is a hybrid professional and entrepreneur between technology, business, and people management. He has more than 30 years of working and consulting experience in leadership development, strategy, project and change management, human capital management, and innovation. He has worked for over 100 organizations in the West African markets and beyond, across various sectors covering finance and insurance, aviation and hospitality, oil & gas (upstream and downstream), health, energy, FMCG, NGOs, and multilateral institutions.

Before co-founding Psyntech, he was also at Datamatics Nigeria Limited and at PWC (PricewaterhouseCoopers) where he was a team member and provided leadership in several IT and project management assignments helping to improve processes, products, and services for various clients. He has certification in several psychometric and personality assessment tools and a PROSCI certification in change management. He is on the board of some companies, both for-profit and not-for-profit entities. He has a B.Eng. in electronic engineering and a degree in leading innovation and change. He is a thought leader in the area where he provides consulting advice.

Biyi Fafunmi

Fafunmi Elisha Ajabiyi (Biyi Fafunmi)
Visionary Statistical Leader | Data Science & GIS Expert | Former Director, NBS Nigeria

A distinguished statistician and data strategist with over 30 years of transformative leadership at the National Bureau of Statistics (NBS), Nigeria, dedicated to shaping the nation's data landscape.
Core Impact:
•Strategic Leadership: Former Director of Information and Communication Technology (ICT) and Agriculture and Business Enterprises Statistics departments. Proven track record of coordinating major complex, donor-funded national surveys with the World Bank, UNICEF, and FAO.
•Innovation & Digital Transformation: Pioneered the digitalization of Nigeria's national data production infrastructure. Backed by MIT IDSS and advanced certifications in Data Science & Machine Learning, specializing in GenAI, GeoAI, and predictive modeling.
•Geospatial & Statistical Integration: Deep expertise in GIS applications for statistical production, spatial analysis, and advanced visualization. Actively contributed to the United Nations Committee of Experts on Global Geospatial Information Management (UN-GGIM) global initiatives, championing the framework for integrating statistical and geospatial information.
•Global Representation: Represented Nigeria at premier international fora (UN, World Bank, UNIDO, UNDP) focusing on data digitalization, open data infrastructure, and advanced microdata management.

Professional Affiliations:
•Fellow, Geo-Information Society of Nigeria (GEOSON)
•Member, International Statistical Institute (ISI) & International Association for Statistical Computing (IASC)
•Member, Chartered Institute of Statisticians of Nigeria (CISON), Nigeria Institute of Management (NIM), and Nigeria Computer Society (NCS).
•Alumni of Great Learning MIT-IDSS

Prof Ekaette Enang

A Brief Profile of Professor Ekaette Enang
Professor Ekaette Inyang Enang is a distinguished Nigerian Statistician, academic, researcher, and university administrator. She is currently the Deputy Vice-Chancellor (Academic) at the University of Calabar, where she has built a career spanning over two decades in teaching, research, postgraduate supervision, and academic leadership.
She holds a Ph.D. in Statistics from the University of Ibadan, an M.Sc. in Statistics, and a B.Sc. in Mathematics/Statistics from the University of Calabar. Her research interests include survey sampling, estimation theory, and statistical modeling, and she has published in reputable local and international journals.
Professor Enang has supervised numerous undergraduate and postgraduate students, including 10 doctoral graduates, and has served as an External Examiner and Professorial Assessor to universities across Nigeria. She has also held several leadership positions, including Acting Head, Department of Mathematics/Statistics and Computer Science, Dean of the Faculty of Physical Sciences, and Chairman of the Committee of Deans at the University of Calabar.
A Fellow of the Chartered Institute of Statisticians of Nigeria, she is also a member of the International Biometric Society. She was the first elected Chairman of the Cross River State Branch of the Nigerian Statistical Association and served as a Council Member before the Association transitioned to the Chartered Institute.
Professor Enang's career reflects a strong commitment to statistical scholarship, professional development, academic leadership, and human capital development, making her a valuable voice in conversations on the future and evolving role of Statistics in Nigeria.

Dotun Adekunle

DOTUN ADEKUNLE
Chief Operating Officer/Chief Technology Officer Opay Nigeria

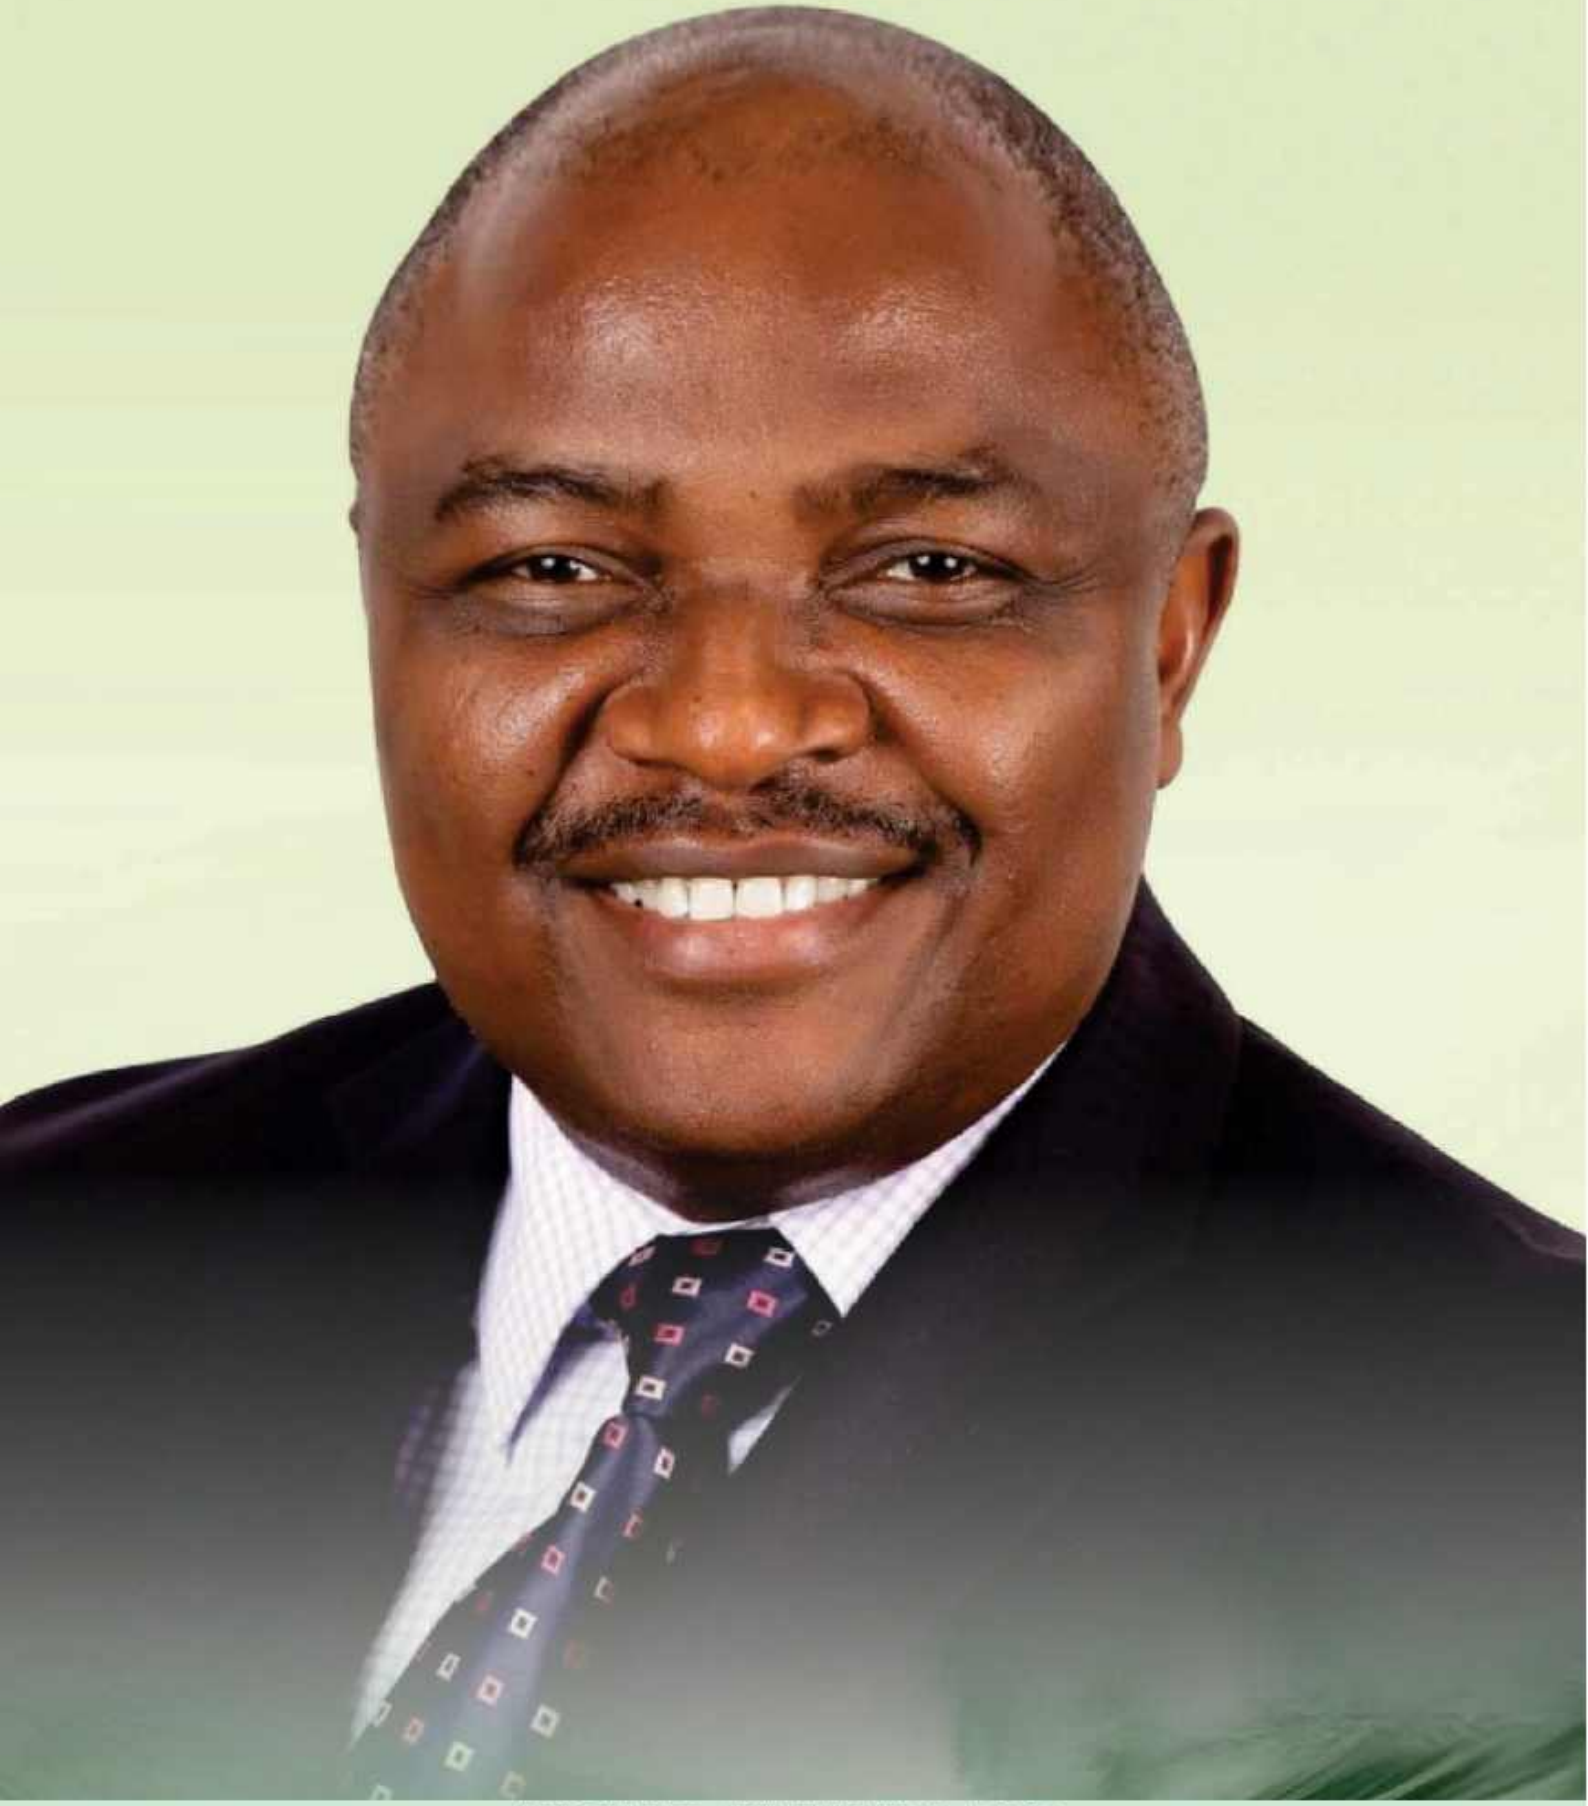

Dr Chigozie Edson Utazi is an Associate Professor of Spatial Data Science at the University of Southampton. He holds a BSc and MSc in Statistics from Nnamdi Azikiwe University and a PhD in Statistics from Lancaster University. His research focuses on spatial and spatiotemporal modelling, with particular interests in developing innovative methodology for understanding spatial and temporal patterns in complex real-world phenomena.

Dr Utazi applies these methods to mapping health and development indicators, generating spatially detailed evidence to support decision-making and accelerate progress towards the Sustainable Development Goals (SDGs). His research spans spatial epidemiology, machine learning, Bayesian inference and computation, and vaccination coverage estimation, with a particular focus on low- and middle-income countries.

His work has been supported by leading global health organisations, including the Gates Foundation, the Carter Center, WHO, UNICEF, and Gavi, reflecting the policy relevance and global health impact of his research.

CISON
Statistical Science, Knowledge and Professionalism

Opening Remark

DELIVERED BY THE PRESIDENT
CHARTERED INSTITUTE OF STATISTICIANS OF NIGERIA (CISON)

DR. GODDAY U. EBUH

AT THE THIRD INTERNATIONAL CONFERENCE OF THE INSTITUTE AND ITS 50TH ANNIVERSARY CELEBRATION WITH THE THEME FROM LEGACY TO LEADERSHIP: 50 YEARS OF STATISTICAL DEVELOPMENT IN NIGERIA
HELD AT THE CHIDA EVENT CENTRE, UTAKO ABUJA
14-16 OCTOBER 2026

Protocol

1. Dear esteemed council members, our founding fathers and mothers that have served the profession in different categories, galaxy of our revered chartered institute of Statisticians of Nigeria professional colleagues from the length and breathe of our nation and the diaspora, colleagues from sister professional bodies within the subregion, invited guest speakers and members of the panel for the conference here present, our cherished Preconference resource person, Erudite Scholars here present, State Statisticians-General, representatives of Ministries, Departments and Agencies (MDAs), development partners, Gentlemen of the Press, Distinguished Ladies and Gentlemen

WELCOME AND OPENING REMARKS

2. It is with immense pride and profound gratitude that I welcome you all to this centre of Unity, Federal Capital Territory, Abuja. Your presence here today—whether you have travelled from the bustling commercial centre of Lagos, the academic hubs of Ibadan and Zaria, the food basket of Benue, the Big Heart of Delta State, or from institutions across Africa and beyond—demonstrates our collective commitment to advancing the statistical profession in Nigeria and positioning our nation as a leader in the global data revolution.

3. Before we proceed, let me provide a brief context about our Institute. The Chartered Institute of Statisticians of Nigeria (CISON) is the successor statistical body to the Nigerian Statistical Association (NSA), which was established in 1976 as a non-profit professional body comprising statisticians, economists, planners, demographers,

analysts, and related disciplines, as well as corporate organizations with interest in statistics. While the NSA was committed to developing statistical theory and practice in Nigeria, successive governing councils advocated for an Institute that would be responsible for the accreditation of statisticians in the country.

4. Distinguished guests, eminent scholars, incoming Fellows and new members of the Institute, representatives of government and the private sector, development partners, leaders of the statistical community, conference participants, ladies and gentlemen: it is my singular honour and privilege to welcome you to the 3rd International Conference of CISON and its 50th anniversary. I warmly appreciate your presence and the shared commitment that has brought us together to advance the role of statistics in Nigeria's development.

5. Our theme, "Legacy to Leadership: 50 Years of Statistical Development in Nigeria," invites us to celebrate five decades of sacrifice, innovation and professional service while confronting the responsibilities of the future. This gathering is therefore more than a commemoration; it is a platform for reflection, renewal and decisive action. As data, spatial data analysis, technology and artificial intelligence continue to reshape governance, enterprise and society, our profession must provide leadership founded on accuracy, integrity, transparency and public trust.

6. Over the course of this conference, I encourage us to exchange knowledge openly, build purposeful partnerships and develop practical solutions that will strengthen Nigeria's statistical system. Let our deliberations produce clear commitments—not merely statements of intent—and let the insights from the pre-conference workshop and the main conference translate into stronger institutions, better policies and measurable improvements in the lives of our people.

7. On behalf of the Council and entire membership of CISON, I thank you all and wish everyone enriching engagements and productive outcomes. Once again, welcome to this historic conference, and may it mark a bold transition from a proud statistical legacy to purposeful leadership for Nigeria and beyond.

8. Thank you, and God bless the Federal Republic of Nigeria.

Godday Uwawunkonye, Ebuh, Ph.D
President, Chartered Institute of Statisticians of Nigeria,
October 14, 2026

Welcome Address

BY MRS. NGOZI T. AGBOEGBULEM,

REGISTRAR, CHARTERED INSTITUTE OF STATISTICIANS OF NIGERIA (CISON)

The President of the Chartered Institute of Statisticians of Nigeria (CISON), Dr. G. U. Ebuh;
Distinguished members of the Governing Council;
Past Presidents of the Institute;
Our keynote speaker, Professor Steve MacFeely, Chief Statistician and Director of the OECD Statistics and Data Directorate, Paris;
Invited dignitaries;
Representatives of government institutions, universities, professional bodies and the private sector;
Our distinguished presenters and participants;
Members of the media;
Ladies and gentlemen.

Good morning, and a very warm welcome to you all!

It is my great honour and privilege, on behalf of the Governing Council, the Secretariat and the entire membership of the Chartered Institute of Statisticians of Nigeria, to welcome you to the 3rd International Conference of CISON and the historic celebration of our Golden Jubilee. Today marks a significant milestone in the history of our Institute. We gather not merely to commemorate fifty years of existence, but also to celebrate five decades of commitment to the advancement of statistical knowledge, professional excellence and the development of statistics in Nigeria.

Fifty years is a remarkable journey. It represents years of dedication, sacrifice, learning, institutional growth and service to our nation. As we celebrate this milestone, we honour the visionaries, founding members, past leaders, dedicated professionals and partners whose contributions have helped to sustain and advance the cause of statistics in Nigeria. To our distinguished guests who have travelled from within and outside Nigeria, we are particularly delighted to receive you. Your presence adds immense value to this celebration and demonstrates the importance of collaboration.

Our conference theme, **"From Legacy to**

Leadership: 50 Years of Promoting Statistical Development in Nigeria," is both a celebration of our achievements and a call to action. It reminds us that while we must take pride in our history, we must also prepare ourselves to lead the next phase of statistical transformation in Nigeria and beyond. We live in an era in which data and statistics have become indispensable to governance, economic planning, business development, scientific discovery and social progress. Governments depend on reliable statistics to formulate policies and allocate resources. Businesses rely on data analytics to understand markets, manage risks and make strategic decisions. Researchers and development institutions require sound statistical evidence to measure progress and evaluate outcomes. Consequently, the responsibility of the statistical profession has never been greater. We must ensure that statistical information is accurate, timely, credible, accessible and responsibly used. We must also embrace emerging technologies, including artificial intelligence, machine learning, big data analytics and other innovations that are transforming the way data are collected, analysed, interpreted and applied.

As the professional body committed to advancing statistical practice in Nigeria, CISON recognises the need to strengthen professional standards, promote continuous professional development, encourage research and innovation, and foster collaboration among statisticians, data scientists, policymakers, academics and industry practitioners. This conference provides an important platform for achieving these objectives. Over the course of our deliberations, we shall engage with research findings, exchange professional experiences, explore innovative methodologies and examine practical solutions to the challenges confronting statistical development in Nigeria.

I am particularly pleased that our programme includes technical presentations, a keynote address by our distinguished international guest, and a high-level panel session on **"The Future of Statistics in Nigeria after 50 Years of Statistical Development."** These sessions will enable us to reflect on our progress, assess existing gaps and identify opportunities for strengthening the statistical ecosystem in our country. I encourage all participants to contribute actively to the discussions, ask pertinent questions, share their experiences and build relationships that will endure beyond this conference. Let our conversations be constructive, our recommendations practical and our collective vision ambitious.

Distinguished ladies and gentlemen, this Golden Jubilee also offers us an opportunity to reflect on the institutional future of CISON. We must continue to build an Institute that commands professional respect, promotes ethical practice, provides meaningful value to its members and contributes significantly to national development. Our aspiration should be to position CISON as a leading voice in the regulation, advancement and professional application of statistics in Nigeria, while strengthening our engagement with international statistical organisations and the global data community.

As Registrar, I wish to acknowledge the commitment of our President, Dr. G. U. Ebuh, the Governing Council, the various standing committees, the State Chapters, the National Organising Committee of this conference, our members, partners and all those who have worked tirelessly to make this conference and anniversary celebration a reality. I sincerely appreciate everyone who has contributed in one way or another. I also extend our gratitude to the institutions, especially our corporate members, the Central Bank of Nigeria (CBN) and the National Bureau of Statistics (NBS), sponsors, exhibitors, presenters, invited guests and well-wishers whose support has helped bring this gathering to fruition. Your partnership is invaluable to the continued growth and sustainability of our Institute.

To our members and the first set of CISON Fellows who will be emerging during the course of the golden jubilee celebration, may the celebration renew our collective commitment to professional excellence, unity, integrity and service. To our prospective members and inductees, may CISON provide you with a platform to grow professionally, contribute meaningfully and uphold the highest standards of our noble profession. As we begin this historic gathering, I invite us all to celebrate our achievements, learn from our experiences and look confidently towards the future. Let us leave this conference with renewed determination to ensure that the next fifty years of statistical development in Nigeria are characterised by greater innovation, stronger institutions, wider professional recognition and more impactful contributions to national and global development.

Once again, on behalf of the Chartered Institute of Statisticians of Nigeria, I warmly welcome you to our 3rd International Conference and Golden Jubilee Celebration.

I wish you fruitful deliberations, productive networking, memorable experiences and a successful conference.

Welcome to CISON at 50!
Welcome to the Golden Jubilee Celebration!
Welcome to a new chapter of statistical excellence, innovation and leadership!

Thank you, and God bless you all.

KEYNOTE ADDRESS

DELIVERED BY THE PRESIDENT
CHARTERED INSTITUTE OF STATISTICIANS OF NIGERIA (CISON)

DR. GODDAY U. EBUH

AT THE THIRD INTERNATIONAL CONFERENCE OF THE INSTITUTE AND ITS 50TH ANNIVERSARY CELEBRATION, WITH THE THEME FROM LEGACY TO LEADERSHIP: 50 YEARS OF STATISTICAL DEVELOPMENT IN NIGERIA"
HELD AT THE CHIDA EVENT CENTRE, UTAKO ABUJA
14-16 OCTOBER 2026

Protocol
-His Excellency, the President and Commander in Chief of the Armed Forces, Alhaji Bola Ahmed Tinubu GCFR,
- His Excellency, the Vice-President, Alhaji Kashim Shettima GCON,
- The Honourable Minister of Finance and the Coordinating Minister of the Economy, Mr. Taiwo Oyedele,
- The Honourable Minister of Budget and Economic Planning, Senator Atiku Bagudu CON,
- The Honourable Minister of the Federal capital Territory and Chief Host, Barrister Ezenwo Nyesom Wike CON,
- The Governor Central Bank of Nigeria Mr. Olayemi Cardoso,
- The Head of Civil Service of the Federation, Abel Olumuyiwa Enitan
- The Statistician General of the Federation and Chief Executive Officer of the National Bureau of Statistics, Prince Adeyemi Samiu Adeniran,
- The Chairman National Population Commission-
- The Chief Statistician/Director OECD Statistics and Data Directorate, Paris Prof Steve MacFeely,
- The Preconference Resource Person -Associate Prof Chigozie Utazi of the University of Southampton UK,
- Data and Analyst Consultant- John Wesley,
- Our Panel Moderator Dr Godstime Eigbiremolen-World Bank Abuja
- The Chief Operating Officer of Opay Mr. Dotun Adekunle
- Honourable Commissioners for Budget and Economic Planning Abia State Dr- Kingsley Anosike and other Commissioners here present,
- The Director of Statistics, Central Bank of Nigeria Dr Moses Okpanachi,
- The Former Director of ICT NBS Mr. Biyi Fafunmi,
- The President of the Ghana Statistical Association- Prof Imoro Saeed Bashiru,
- The National Secretary of the Ghana Statistical Association- Dr. Carine Lesley Malor,
- The Deputy Vice-Chancellor of the University of Calabar, Prof. Ekaette Enang and all the distinguished members of the panel for the conference here present,
- Founding Fathers of the Profession that have served in various capacities and Erudite Scholars here present,
- State Statisticians-General,
- Rectors of polytechnics,
- Representatives of Ministries, Departments and Agencies (MDAs),
- Members of the chartered Institute of Statisticians of Nigeria,
- Development Partners,
- Gentlemen of the Press,
- Distinguished Ladies and Gentlemen

1. Distinguished ladies and gentlemen, every generation faces a defining choice: to preserve the gains of the past or to transform them into a greater future. As we gather for CISON's Third International Conference and commemorate fifty years of the statistical profession in Nigeria, that choice now belongs to us. Will we merely celebrate how far we have come, or will we confront, with honesty and courage, how far our nation still has to go? It is my singular honour to welcome you to this historic meeting of minds, united by the conviction that credible data can illuminate choices, strengthen institutions and change the course of a nation.

2. For five decades, statistics has helped Nigeria see itself more clearly. Population and household data, national accounts, price indices, and statistics on agriculture, health, education, labour, trade and public finance have enabled us to measure progress, expose disparities and allocate scarce resources more wisely. Yet data does more than describe reality; it challenges us to change it. Behind every credible indicator are professionals whose discipline, objectivity and public service help Nigeria answer two essential questions: where are we now, and what must we do next?

3. We therefore salute the pioneers who laid the foundations of Nigeria's statistical system; the institutions that advanced standards and professional practice; the teachers who prepared generations of statisticians; and the practitioners whose evidence has strengthened policy, research, enterprise and public accountability. The finest tribute we can pay them is not simply to remember their achievements, but to extend them. Legacy has value only when it equips the next generation to solve problems the previous generation could not.

4. Our theme, "From Legacy to Leadership: 50 Years of Statistical Development in Nigeria," is therefore both a celebration and a summons. We honour five decades of sacrifice, innovation and professional service, but history must be a springboard, not a resting place. In an age shaped by data, spatial analysis, digital technology and artificial intelligence, statisticians cannot remain at the margins of national decision-making. We must lead—with accuracy that withstands scrutiny, integrity that earns trust, transparency that strengthens accountability and courage that allows evidence to speak even when its message is inconvenient. The crucial question is no longer whether Nigeria has data, but whether we have the will, capacity and discipline to use it wisely and promptly.

5. At this defining moment, CISON makes a clear and urgent demand of governments at the federal, state and local levels: statistical development must be recognised as essential infrastructure for governance, not treated as a peripheral administrative function. No government can credibly plan what it does not measure, manage what it does not understand or improve what it refuses to examine. Governments must therefore provide predictable and adequate funding for the national statistical system; protect the professional and operational independence of statistical institutions; recruit, train and retain qualified statisticians; modernise data infrastructure; strengthen coordination and the secure exchange of administrative data; and guarantee timely public access to credible statistics.

6. To turn this demand into measurable progress, we call on government to establish a high-level, time-bound programme for statistical development, supported by clearly assigned responsibilities, firm financing commitments and transparent performance milestones. Every ministry, department and agency should maintain fit-for-purpose data systems, appoint competent statistical leadership and comply with common standards for quality, interoperability, confidentiality and dissemination. CISON stands ready to help set these standards, build professional capacity and independently assess progress. What is measured should be reported; what is reported should be scrutinised; and what is found wanting should be improved.

7. Our immediate priorities are equally clear. CISON calls on the Government to reintroduce the teaching of statistics in secondary schools; conduct the long-overdue population and housing census; include CISON in the accreditation of statistics programmes in tertiary institutions; and domicile data science programmes in statistics departments, given that more than 80 per cent of their content is statistical. A nation that wants to compete in a data-driven world must begin by teaching its young people not merely to consume numbers, but to question, interpret and use them responsibly.

8. CISON also calls on subnational governments to establish functional state bureaus of statistics across all thirty-six states of the Federation, thereby complementing the work of the national statistical office. Development is experienced locally; therefore, the data required to guide it must be timely, credible and sufficiently detailed at the state and local levels. Without strong subnational statistics, national averages may conceal the very communities most in need of attention.

9. These priorities explain why this conference must be more than an exchange of ideas; it must become a catalyst for national renewal. I challenge each of us to listen beyond familiar positions, question outdated assumptions, share knowledge generously and build partnerships that outlive this gathering. Let our deliberations produce clear commitments, realistic timelines and measurable results—not merely eloquent statements of intent. Let the pre-conference workshop and the main conference inspire stronger statistical institutions, smarter policies, more inclusive development and tangible improvements in people's lives. If statistics only records change after it has happened, we have done too little; our evidence must help anticipate change, shape it and ensure that no one is left invisible.

10. On behalf of the Council and the entire membership of CISON, I thank you for your presence, your service and your belief in the power of statistics to advance society. As we celebrate fifty remarkable years, let us leave this conference resolved to raise professional standards, mentor the next generation, defend the integrity of evidence and place reliable statistics at the heart of every important national decision. The pioneers before us built a legacy; our responsibility is to convert that legacy into leadership. Fifty years from now, may those who follow us say that this was the generation that moved statistics from the margins of public administration to the centre of national transformation. The future will not judge us by the data we possessed, but by the difference we made with it..

Thank you, and God bless the Federal Republic of Nigeria.

Godday Uwawunkonye, Ebuh, Ph.D
President, Chartered Institute of Statisticians of Nigeria,
October 15, 2026

AN ABRIDGED HISTORY
of the Nigerian Statistical Association (NSA)

By Christopher M. Okafor

1, Early Beginnings

The Nigerian Statistical Association (NSA) is a galaxy of Professional Statisticians established in 1976 as a non-profit making professional body comprising of Statisticians, Economists, Planners, Econometricians, Demographers, Analysts and Corporate organizations with interest in Statistics. The Association is committed to the development of statistical theory and practice in Nigeria. It, therefore, engages in generating interest in Statistics, professional development, retraining of users and producers of statistics, as well as providing sound information base to enhance policy formulation and strategic planning in the public and private sectors of the economy.

Alhaji S. O. Adeyinka, the Protem President of the NSA, in his introductory statement during the inaugural conference of the NSA which held during September 17 – 18, 1976, traced the origin of the proposals which led to the formation of the NSA. He observed that "at a meeting of the National Advisory Committee on Statistics held on the 22nd and 23rd October, 1970, a sub-committee was set up to study and recommend a New Statistical System for Nigeria. The Committee met in April, 1971 and recommended, among other things, the formation of a Nigerian Association of Statisticians which would look after the welfare of statistical workers, set standard of qualifications and lay down rules and regulations to govern their professional conduct." However, the names of the committee members were not mentioned.

Following the recommendations of the above-named committee, another committee of six members drawn from recognised statistical institutions in the country was set up during the meeting of Chief Statisticians and Heads of State Governments' Statistical Organisations held at Ibadan, during 21st and 22nd December, 1971. It was that committee that drew the first draft constitution of the NSA. Thereafter, the Chief Statisticians met in Jos during 28th and 29th April, 1973 to examine and effect necessary corrections to the draft constitution. The meeting then appointed a protem committee to plan for the formal launching of the association. In the course of their assignment, the protem committee met in Lagos on the 28th and 29th of April, 1975 and later in Ibadan on the 20th of February, 1976. It was at the Ibadan meeting that they decided on the theme, time and the organisation of the maiden conference, which eventually took place at Ibadan during September 17 – 18, 1976, with the theme "The Role of Statistics in National Development." At that conference, the Introductory Statement was delivered by the then Protem President, Alhaji S. O. Adeyinka, while the welcome address was presented by Prof. S. O. Olayide, Acting Vice-Chancellor, University of Ibadan, Ibadan. The Federal Commissioner for Economic Development, Dr. M. T. O. Akobo, sent in a Goodwill Message, which was read by Mr. M. A. Adeyoju of the Federal Ministry of Economic Development, Lagos. The Inaugural Paper entitled, "An Historical Survey of Official Statistics in Nigeria" was delivered by Alhaji S. O. Adeyinka in his capacity as the Acting Chief Statistician, Federal Office of Statistics, Lagos. It could, therefore, be seen that an idea which was muted in 1970 came to fruition six years later in 1976.

The reasons for the establishment of the NSA could best be captured in the aims and objectives as contained in the maiden constitution of the association. According to that document, the NSA is an autonomous body devoted to the development of statistical theory, methods, and practices throughout Nigeria, in particular,

(a) by encouraging among Statisticians, the exchange of professional knowledge and the growth among them of collective interest in the advancement of such knowledge;
(b) by promoting the training of Statisticians;
(c) by studying statistical theory, appraising statistical methods and practices, encouraging statistical research and furthering the use of statistical methods in diverse subjects-matter fields wherever useful;
(d) by promoting the use in the country of the most appropriate statistical methods;
(e) by fostering public appreciation of a sound statistical practice, the usefulness of statistical methods and the need for co-operation on data collection;
(f) by promoting and improving the role of Statisticians in the public and private sectors of the economy; and
(g) by promoting statistical knowledge through co-operation or affiliation with other reputable national and international statistical associations and other professional bodies.

The initial composition of NSA members could be gleaned from the type of participants that attended the inaugural conference. According to Prof. Biyi Afonja (1985), "the inaugural meeting of NSA was attended by some sixty-nine delegates." He went further to say that "a good number of demographers, computer scientists

and economists attended and registered to become members." However, the demographers and computer scientists later went ahead to form their own associations known as the Population Association of Nigeria (PAN) and the Computer Association of Nigeria (CAN), respectively. He observed that most of the economists were members of the already existing and influential Nigerian Economic Society (NES). However, the institutional base of participants at the inaugural conference of the NSA showed the diverse nature of participants as most of them came from the University system. Of the 25 of such participants, 15 attended from the University of Ibadan, followed by 8 from the University of Ife and 2 from the University of Lagos. The other dominant groups were the Federal and State Ministries of Finance and Economic Development where 15 participants attended and the FOS that accounted for 13 participants. In all, 63 males and 6 females making a total of 69 participants attended the maiden conference. This number compares favourablly with the initial 81 members that joined the International Statistical Institute (ISI) when it was formally founded in 1885.

Participants came from both the public and private sectors of the economy and from different locations. Interestingly, there were participants from both the northern and southern parts of the country. Following the successful conclusion of the inaugural conference and approval of the constitution, the members of the Governing Council of the NSA were elected and an Editor of the Statistical Journal appointed. The Protem President, Alhaji S. O. Adeyinka became elected as the substantive President, while Dr. S. O. Adamu became the Secretary of the association. Dr. J. N. Adichie was appointed the first Editor of the Journl. The Governing Council comprised the President, the 1st and 2nd Vice-Presidents, Secretary, Treasurer, 2 Auditors, Financial Secretary and the Editor. The Constitution charged the Governing Council with the responsibility of directing the affairs of the association and that its functions shall be defined by the rule of procedure according to the needs of the association.

2. Governance

The Governing Council is headed by the President who is also the Chairman of the Council. Since its inception in 1976, NSA has had a total of 13 Presidents. Each president served for a term of two years and for a maximum of two terms, if re-elected. The first President of NSA was Alhaji S.O. Adeyinka, a Chief Statistician and Chief Executive Officer of the Federal Office of Statistics (FOS), now National Bureau of Statistics (NBS). He was elected in 1976. The second was Mr. J. O. Osemeka of Ministry of Economic Planning, Statistics Division, Enugu, who was president from 1981-1985. The third President was Prof. Biyi Afonja, a Professor of Statistics at the University of Ibadan, and was president from 1985 to 1987. He was also elected President of the African Statistical Association at that time.

The fourth President was Mr. E.O. Amba who was at that time the coordinating Director of the FOS in Lagos. He was President from 1987 to 1989. The fifth President was Dr. E.O. Akinnifesi who was a Deputy Director at the Research Department of the Central Bank of Nigeria (CBN). He was President from 1989 to 1991. The sixth president was Dr. F.E. Aigbovia, a Director of Statistics at Bendel State Ministry of Economic Development. He was President from 1991 to 1995. The seventh President was Mr. O.O. Ajayi, who at that time was the Director-General of the FOS. He was President from 1995 to 1999. The eighth President was Prof. O.S. Adegboye, who was then the Dean of Faculty of Science University of Ilorin. He was president from 1999 to 2003.

The ninth President was Mr. C.M. Okafor, an Acting Deputy Director of the Research and Statistics Department of the CBN. He was president for two terms and one extra year, that is 2003 to 2005 and 2005 to 2008. The tenth President was Mr. B.O Amobi a Director of Statistics at the Macroeconomic Department of NBS. He was President from 2008 to 2012. The eleventh President was Dr. M. M. Tumala, a Director of Statistics at the CBN. He was president from 2012 to 2016. The twelfth President was Prof. S.I. Onyeagu, a Professor of Statistics at the Nnamdi Azikiwe University, Awka. He was President of the Association from 2016 to 2021, due to COVID-19 pandemic. The thirteenth President of NSA is Dr. Godday Uwawunkonye Ebuh. He is currently the Head, Credit Development and Evaluation Office in the Monetary Policy Department of the CBN. He was elected in 2021 and his tenure as President of NSA ran till 2023.

To achieve its objectives, the Governing Council relied for its operations on the support of such institutions as the FOS, now NBS, the CBN, the Nigerian Ports Authority, the Federal Airports Authority of Nigeria (FAAN), the National Population Commission, among others. In the process the NSA recorded a number of achievements such as engaging in the capacity building of staff of Ministries, Departments and Agencies (MDAs), as well as their members and students of higher institutions of learning. It played a strategic role in the discussions leading to the drafting of the Nigerian Statistical Master Plan and the defence of the 2007 Statistics Act. That Act has provided NSA a permanent membership in the NBS Governing Board. NSA has also been in the front-line of encouraging and promoting the study of Statistics in schools, colleges and Universities, through hosting of Post Graduate (PG) courses, undergraduate courses and students' competitions.

Apart from ensuring the development of statistical theory and practice in Nigeria, various Governing Councils of the NSA worked towards the accreditation of members as professional statisticians. To that effect, such names as the Nigerian Statistical Institute and the Institute of Statisticians of Nigeria were bandied. Some of those efforts did not materialize due to one reason or the other. The envisaged Institute was also meant to

conduct specialized trainings in statistics, conduct professional examinations, certify successful candidates in various areas of statistics and keep a roaster of statistical resource persons/specialists that the nation could call upon if and when the need arises. Such an organization is also expected to provide professional advice and service, make suggestions on national issues that are statistical in nature and above all serve as a regulatory body for statistical practice in Nigeria.

3. Concrete steps towards professionalization

After a long period of inaction, the issue of the professionalization of NSA to become a Chartered Institute was resurrected by Mr. O. O. Ajayi during his presidency before handing over to Prof. O. S. Adegboye in 1999. However, it was not until 2001 that the first concrete steps were taken towards the establishment of a professional body for the accreditation of members of the NSA. This was under the leadership of the then President of NSA, Professor O. S. Adegboye, who launched the Chartered Institute of Statisticians of Nigeria (CISON) on the occasion of the Silver Jubilee of NSA held in Abuja, Nigeria. The then Vice President of the country, Alhaji Atiku Abubakar, *GCON*, was represented on that occasion by Dr. H.O. Isu, Special Adviser to the Vice-President on Economic affairs. Prior to that event, the then Secretary of the NSA, Mr. C. M. Okafor, had obtained a copy of the *Act* of the Institute of Chartered Accountants of Nigeria (ICAN) through the assistance of one Mr. Edward Ozochi. Thereafter, Prof. B. A. Oyejola in 2001 led a team that adapted the ICAN's *Act* to suit that of CISON. The move for the establishment of CISON was regarded then as NSA's humble contribution towards the advancement of the National Statistical System (NSS).

It was hoped that the enactment of the CISON *Act* would naturally key into other developmental initiatives aimed at strengthening statistical capacity and consequently, enthroning standard statistical practice in Nigeria. It would also sharpen professional education in statistics, and therefore, becomes NSA's contribution towards the various reform initiatives, which had helped in deepening the Nigerian economy. By 2004, the NSA under the leadership of the President, Mr. Christopher M. Okafor, acquired a temporary office of CISON at the Department of Statistics, University of Nigeria, Nsukka (UNN). This was because; in her quest to establish CISON, the NSA had been informed that the registration of the association with the Corporate Affairs Commission (CAC) and a permanent secretariat were prerequisites for such a venture. The then Vice-Chancellor (VC) of UNN, Prof. Ginigeme Francis Mbanefoh graciously granted NSA's request for a secretariat. Although he retired in June 2004 the request was still approved by the new VC, Prof. Osita Chinedu Nebo. The entire process was facilitated by the then Head of Department of Statistics, UNN, Dr. W. I. E. Chukwu (Associate Professor). He also saw to it that a young statistician was recruited to man the office. With that settled the NSA finalized the draft of the CISON Act and launched a vigorous campaign for the establishment of CISON. The secretariat of NSA was later moved to NBS, Abuja after they offered NSA a space.

In its efforts at realising the noble objectives of CISON and ensuring a buy-in of the general public and the members of the National Assembly, the Governing Council of NSA, under the leadership of Mr. Christopher M. Okafor as President, organized a one-day sensitization workshop on the proposed *Act* of CISON, on August 20, 2007, at Hill Station Hotel, Jos, Plateau State. Prominent personalities invited to the occasion included the Director-General, National Bureau of Statistics (NBS), Dr. V.O. Akinyosoye, who was the Chairman of the occasion; the Chairman, Senate Committee on National Planning, Economic Affairs & Poverty Alleviation; the Chairman, House Committee on National Planning & Economic Development; members of the Governing Council of NSA; representatives of various Professional Bodies and Learned Societies; representatives of various Ministries Departments and Agencies (MDAs), Non-Governmental Organizations (NGOs); Development Partners; and Gentlemen of the Press. In his welcome address, the President of NSA, Mr. C M. Okafor informed the audience that it had been an age-long desire of the NSA to establish a body like CISON, which would conduct examinations and accredit statisticians in Nigeria.

4. Subsequent Attempts at the Establishment of CISON

Successive Governing Councils of the NSA continued to pursue the passage of the CISON Bill with varying degrees of success. After succeeding Mr. Okafor as President of NSA in 2008, Mr. B. O. Amobi concluded the processes that ensured the registration of NSA at the Corporate Affairs Commission (CAC), as this was a prerequisite for the establishment of CISON. He continued the pursuit of the passage of the CISON Bill and also purchased a piece of land for the permanent site of NSA/CISON. However, in 2014, the Governing Council of the NSA under the leadership of the President, Dr. M. M. Tumala felt that substantial progress had been made towards the passage of the CISON Bill. This was sequel to the fact that as at that time, the Senate had received and read the Bill for the first time, while the House of Representatives had received and read the Bill a second time. A public hearing was also conducted by the House Committee on National Planning and Economic Development on July 10, 2014, implying that the Bill was set to be passed on the floor of the House, thereby drawing the establishment of CISON closer to reality.

Consequently, the Governing Council of the NSA approved in July, 2014 that Mr. C.M. Okafor be engaged as a consultant to draw up the road map for the transition of NSA to CISON. The document spelt out the terms of reference and envisaged an output in the form of a

written document.

In order to achieve those objectives, the consultant had robust consultations with selected Nigerian professional institutions and individuals involved in professional accreditation of their members and that shaped some of the recommendations made to NSA. The consultant also undertook extensive desk research in which he surveyed five entities that have chartered or professional statistical bodies. These associations are the American Statistical Association (ASA), the Hong Kong Statistical Society (HKSS), the Royal Statistical Society (RSS) of London, the Statistical Society of Australia Incorporated (SSAI) and the Statistical Society of Canada (SSC). Following the completion of the assignment and subsequent validation of the report at the stakeholders' meeting held on August 8, 2015 at Lapour Hotel, Abuja, some of the consultant's recommendations were incorporated into the bill.

Following the submission of the above report that outlined the roadmap for the transition of NSA to CISON, the NSA Governing Council, under the leadership of Dr. M. M. Tumala, fought for the passage of the CISON Bill in both houses of the National Assembly. The Bill was eventually passed by the 8th National Assembly, but it became part of the 46 Bills left for the assent of the then in-coming administration of President Muhammadu Buhari in 2015. Unfortunately, it was not assented to by Mr. President and so, the new President of NSA; Prof. S. I. Onyeagu had to start the process all over again. Despite his spirited efforts, the Bill remained with the National Assembly till the expiration of his tenure as President of NSA in 2021.After his election as President of NSA in 2021, Dr. Ebuh, with the support of his team, pursued the passage of the CISON Bill into law with dogged determination. This effort culminated in the passage of the CISON Bill into an Act, the "Chartered Institute of Statisticians of Nigeria (Establishment) Act, 2022" which was signed into law by President Muhamadu Buhari, GCFR, on the 16th day of February, 2023. The CISON Act has since been published in the Federal Republic of Nigeria Official Gazette No. 230, Vol. 110 of 1st March, 2023 in the City of Lagos. Under Government Notice No. 83 it is published as Act No. 38 with the Short Title of Chartered Institute of Statisticians of Nigeria (Establishment) Act, 2022 at pages A761-788. With this, NSA ceased to exist but transited to CISON.

5. Conclusion

The Nigerian Statistical Association amidst lean resources and setbacks has recorded significant achievements over the years. A few of them are stated as follows:

1. There has been a sustained increase in the number of persons and corporate institutions that joined the NSA since inception. This is due to the awareness and prominence created by successive councils. Membership rose astronomically from sixty-nine (69) in 1976 to three thousand Six Hundred and Thirty-one (3,631) persons in 2023. This is a significant improvement.
2. The association has been able to acquire a piece of land in Abuja for the construction of its own Secretariat.
3. There has been the stabilization of the activities of the association. Conferences, workshops and council elections have been consistently organized without any breach or gaps.
4. NSA has recorded a significant height in the capacity building of staff of MDAs, members and students of higher institutions of learning.
5. The 2007 Statistics Act has provided NSA a permanent membership in the NBS Governing Board.
6. NSA has been in the front-line of encouraging and promoting the study of Statistics in schools, colleges and Universities, through hosting of PG courses, undergraduate courses and students' competitions.
7. Its role in the passage of the Chartered Institute of Statisticians of Nigeria (CISON) bill into an Act was also seen as NSA's humble contribution towards the advancement of the National Statistical System (NSS). This is because, it is believed that the enactment of the CISON *Act* would naturally key into other developmental initiatives aimed at strengthening statistical capacity and consequently, enthroning standard statistical practice in Nigeria. It would also elevate the status of statisticians and empower them within the Nigerian environment and beyond. Furthermore, the focus of training in such an institute will definitely bridge the current education/practice divide. Therefore, we can safely say that NSA has lived up to its expectations.

PRINCE ADEYEMI SEMIU ADENIRAN

Statistician-General of the Federation and Chief Executive Officer, National Bureau of Statistics, Nigeria

Prince Adeyemi Semiu Adeniran is a distinguished professional statistician with over 34 years of experience in official statistics, statistical methodology, survey design, data management and evidence-based policymaking. Appointed Statistician-General of the Federation and Chief Executive Officer of the National Bureau of Statistics (NBS) in May 2022, he has provided strategic leadership for the modernisation of Nigeria's statistical system and the production of reliable, timely and policy-relevant statistics.

CONTRIBUTIONS TO STATISTICAL DEVELOPMENT

Under his leadership and oversight, the NBS has advanced major statistical reforms, including the rebasing of Nigeria's Gross Domestic Product to a 2019 reference year and the adoption of a 2024 base year for the Consumer Price Index. He has championed major national surveys, including the Multiple Indicator Cluster Survey (MICS), the Multidimensional Poverty Index Survey, Nigeria's first nationwide Corruption Experience Survey and the Drug Use Survey, conducted in collaboration with the United Nations Office on Drugs and Crime (UNODC).

He initiated the update of the National Strategy for the Development of Statistics (NSDS III, 2024–2028) and has personally engaged state governors to advocate for the enactment of state statistics laws and the establishment of State Bureaus of Statistics. His strategic direction has also advanced digital and geospatial statistical operations. Through sustained engagement with government institutions, development partners and other stakeholders, he continues to strengthen statistical capacity, institutional coordination and the use of official statistics in national planning and policymaking.

He has served on presidential and federal committees addressing Human Capital Development, Food Security and Agricultural Development, the National Development Plan 2021–2025, the Economic Sustainability Plan, and Micro, Small and Medium Enterprises.

SELECTED PUBLICATIONS

1. *Regularized Bayesian Hierarchical Generalized Linear Model for Multilevel Data.*
2. *Mitigating Measurement Error and Non-Response Challenges in Survey Research.*
3. *Combining Cluster Surveys to Estimate Vaccination Coverage: Experiences from Nigeria's Multiple Indicator Cluster Survey/National Immunization Coverage Survey (MICS/NICS), 2017.*
4. *Acute Malnutrition Among Children, and Humanitarian Interventions in Conflict Affected Regions Nigeria, 2017.*

PROFESSIONAL AFFILIATIONS

- Council Member, Chartered Institute of Statisticians of Nigeria (CISON).
- Fellow, Capital Market Academics of Nigeria (CMAN).
- Fellow, Professional Statisticians Society of Nigeria (PSSN).
- Member, Royal Statistical Society (RSS) — confirm the official designation.
- Member, Nigerian Institute of Management (MNIM).
- Member, International Association for Official Statistics (IAOS).

Prince Adeniran's career demonstrates sustained commitment to statistical development through institutional reform, methodological innovation, national data production, scholarly research and advocacy for a stronger national statistical system. His leadership has contributed to strengthening the evidence base for governance, development planning and public accountability, reflecting a significant contribution to the advancement of the statistical profession in Nigeria.

Prof. Ethelbert C. Nduka
Transiting Fellow

Pst. Prof. Joy Chioma Nwabueze
Transiting Fellow

Yakubu Aminu Bello, PhD, FNSA, FNIMC, is an economist, statistician and financial sector policy expert with 35 years of experience in central banking, macroeconomic management and institutional reform.

As Acting Director of Statistics at the Central Bank of Nigeria, he led data governance and innovation initiatives, modernized financial statistics systems and advanced preparations for big data and artificial intelligence. His previous roles at the National Planning Commission, Federal Ministry of Finance and Federal Mortgage Bank of Nigeria strengthened development assistance coordination, monitoring and evaluation, public financial management and corporate governance.

He has undertaken IMF statistical missions and currently serves on its Monetary and Financial Statistics Advisory Committee. Holding a PhD in Management, an MSc in Economics, an MBA and a BSc in Economics, Dr. Bello combines technical expertise with policy insight and leadership, supporting consultancy assignments in financial sector development, data modernization, development finance and institutional capacity building.

CITATION OF
DR. EMEKA SIXTUS OKAFOR

"Distinguished guests, fellows of the Institute, and members of the Chartered Institute of Statisticians of Nigeria, we gather today to mark our golden jubilee—a half-century of precision, data-driven decision-making, and intellectual advancement. It is fitting that in this year of celebration, we recognize one of our own who embodies the rigorous application of statistical science for the advancement of our nation.

It is our profound privilege to confer the status of "Fellow of the Chartered Institute of Statisticians of Nigeria upon Dr. Emeka Sixtus Okafor,".

Dr. Okafor is a scholar-practitioner of rare distinction. With over a decade of progressive experience in public sector data management, he has stood at the intersection of government strategy and evidence-based policy. As a Principal Statistician with the Anambra State Government, he has been instrumental in the transformation of raw information into actionable intelligence. His work, characterized by technical mastery in data collection, clinical validation, and forecasting, has served as a bedrock for the robustness of critical research outputs.

Beyond his technical brilliance, Dr. Okafor is a servant-leader. His unwavering commitment to the profession was demonstrated through his distinguished service as a Council Member and National Treasurer of the Nigerian Statistical Association. In these capacities, he did not merely manage accounts; he stewarded the resources and the strategic direction of our professional community with integrity, foresight, and dedication.

His academic journey, culminating in his Ph.D. in Statistics (Econometrics), reflects a lifetime of intellectual curiosity and a pursuit of excellence that inspires his peers.

Dr. Emeka Sixtus Okafor, you have brought honor to the science of statistics. Your analytical acumen, your dedication to clinical precision, and your noble service to the Nigerian statistical community have set a benchmark for the next generation.

By the authority vested in this Institute, and in recognition of your distinguished contributions to the field of statistics and your exemplary leadership, we hereby confer upon you the Fellowship of the Chartered Institute of Statisticians of Nigeria.

Congratulations, Fellow.

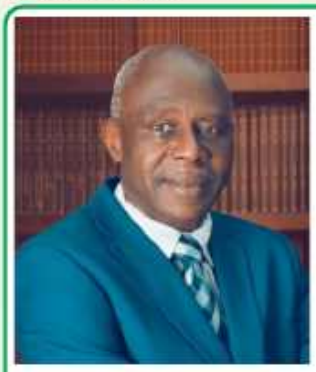

PROFILE OF ELDER EYAEKOP EFIONG UMANAH

Elder Eyaekop Efiong Umanah, Retired Permanent Secretary was born in Afaha Offiong, Nsit Ibom, Akwa Ibom State on 23rd November 1961. He started his formal education at Qua Iboe Church School, Ikot Akpan Abia (1968 – 1973) and Lutheran High school, Obot Idim (1974 – 1979) where he obtained his West African School Certificate (WASC) in 1979.

Elder Umanah cut his career path in statistics very early in life and pursued same with great passion, The passion that saw him rise to the pinnacle of his profession. He started by obtaining a professional Diploma in statistics in 1987 from the University of Ibadan. This was followed with a Bachelor of Science degree (B.Sc.) Statistics from the University of Uyo in 1994 and a Master of Science degree (M.Sc.) Statistics in 2010 from the University of Nigeria, Nsukka. He is a member of several professional bodies, some of these are Chartered Institute of Statistician of Nigeria (CISON), American Statistical Association (ASA) and Nigerian Economic Society (NES).

Before becoming Permanent Secretary, he maintained an enviable and progressive career path. In 1999, he was Secretary, Standing Committee on Revenue Mobilization and Treasury Account Reconciliation of the then Economic Development and Planning Commission; became Principal Statistician in 2000 and Head, Department of Planning, Research and Statistics of the then Akwa Ibom Revenue Mobilization and Fiscal Commission in 2001. He was Chief Statistician in the Ministry of Economic Development in 2004 and Assistant Director and Head, Economic Statistics between 2006 and 2011 of the same Ministry from where he was posted to become Deputy Director of Statistics and Head of Planning, Research and Statistics Department in the Ministry of Finance between 2011 and 2014. In April 2014 he was made Permanent Secretary. He served in the Ministry of Agriculture and Ministry of Economic Development before retirement.

Some of his unpublished works include, Time Series Modelling of Consumer Price Index in Nigeria (2010); Trend Analysis of Recorded Road Accidents in Akwa Ibom State – a case study of Uyo Metropolis (1995) and a Report of Integrated Survey on Smoking Habit of People living in Ogbowo, Ibadan, oyo State (1987).
Elder Eyaekop Umanah is an alumnus of the International Labour Organisation (ILO) Training Centre – Turin, Italy; Galilee International Training Institute, Israel; Administrative Staff College – Topo Badagry, Nigeria and Royal Institute for Public Administration (RIPA) International, London.
He is joyfully married to Ekaette and blessed with children

Chris Uchechi Onyemachi (PhD).

Chris Uchechi started his career in Statistics with the then Federal Office of Statistics now National Bureau of Statistics (NBS) as a field staff in 1980. He studied at the Federal Office of Statistics Training School Kaduna/Ibadan now Federal School of Statistics, where he registered as a student-member of the Nigerian Statistical Association now Chartered Institute of Statisticians of Nigeria (CISON) in 1987and became a full member in 1998. He holds a BSc degree (Hons) in Statistics from the University of Nigeria, MSc and PhD (Statistics) from the Nnamdi Azikiwe University Awka.

The demands of his job moved him in and around Nigeria from Lagos to Kaduna, Oyo, Imo, through Abia, Enugu, Ebonyi where he served as the liaison officer between NBS/SSA, Secretary Abia State Chapter of the NSA, State Officer for Ebonyi State, Rector Federal School of Statistics Enugu and Chairman CISON Abia State Chapter.

He was elected a Council member of NSA Governing Council (2014 -2016). Dr. Onyemachi has consistently followed statistical activities in Nigeria as a published researcher and a lecturer.

CITATION OF PROFESSOR ANTHONY EFFIONG USORO

Prof. Anthony Effiong Usoro is a professor of Statistics, with specialty in Time Series. Prof. Usoro had his Bachelor of Science (B. Sc) Degree in Statistics (Second Class Upper Division) in University of Uyo, Uyo, 1999; Master of Science (M. Sc) and Doctor of Philosophy (Ph.D) Degrees in Statistics at Michael Okpara University of Agriculture, Umudike, Abia State, 2005 and 2009 respectively. Usoro began his academic career in the Department of Statistics, Akwa Ibom State Polytechnic, Ikot Osurua, Akwa Ibom State as an Assistant Lecturer in 2001. He later gained employment as Lecturer II in the Department of Mathematics and Statistics, Michael Okpara University of Agriculture, Umudike, Abia State in 2008. He is presently working at Akwa Ibom State University, Mkpat Enin. Prof. Usoro has contributed tremendously in training and research at undergraduate and postgraduate levels with scholarly publications in reputable journals. Akwa Ibom State University has produced a significant number of M.Sc and Ph.D graduands under his supervision. He has won several Tetfund research grants as a Principal Investigator. Administratively, he has served in the university in different capacities, a few to mention includes, Head of Department of Mathematics and Statistics (2012-2013) and (2018-2019), Head of Department of Statistics (2019-2020) and (2024 -2025), Dean, Faculty of Physical Sciences (2025 till Date). Prof. Anthony E. Usoro is the 7th Inaugural Lecturer of Akwa Ibom State University on the topic: **Innovation in Multivariate Time Series and Application to Some Nigeria's Economic Data**. As part of his community development service, Prof Anthony E. Usoro served as a Commissioner, Akwa Ibom State House of Assembly Service Commission from 2013 to 2015 and Senior Special Assistant to the Governor of Akwa Ibom State on Statistics & Demographic Planning 2015 to 2018. He is a socialist, community builder and devout Christian. He is married and blessed with a lovely family. His sponsors are proud and delighted to present him for fellowship award in the third International Conference of Chartered Institute of Statisticians of Nigeria (CISON).

A Brief Profile of

Professor Ekaette Enang

Professor Ekaette Inyang Enang is a distinguished Nigerian Statistician, academic, researcher, and university administrator. She is currently the Deputy Vice-Chancellor (Academic) at the University of Calabar, where she has built a career spanning over two decades in teaching, research, postgraduate supervision, and academic leadership.
She holds a Ph.D. in Statistics from the University of Ibadan, an M.Sc. in Statistics, and a B.Sc. in Mathematics/Statistics from the University of Calabar. Her research interests include survey sampling, estimation theory, and statistical modeling, and she has published in reputable local and international journals.
Professor Enang has supervised numerous undergraduate and postgraduate students, including 10 doctoral graduates, and has served as an External Examiner and Professorial Assessor to universities across Nigeria. She has also held several leadership positions, including Acting Head, Department of Mathematics/Statistics and Computer Science, Dean of the Faculty of Physical Sciences, and Chairman of the Committee of Deans at the University of Calabar
A Fellow of the Chartered Institute of Statisticians of Nigeria, she is also a member of the International Biometric Society. She was the first elected Chairman of the Cross River State Branch of the Nigerian Statistical Association and served as a Council Member before the Association transitioned to the Chartered Institute.
Professor Enang's career reflects a strong commitment to statistical scholarship, professional development, academic leadership, and human capital development, making her a valuable voice in conversations on the future and evolving role of Statistics in Nigeria.

Chief Fidelis E Adaka (PhD FNSA, FCIA, JP)
Banker, Teacher, Statistician, Community Leader, Philanthropist a Peace Marker , a team player and a Consultant.
Retired from Ministry of Economic planning Delta State as Head of Field Operation.
He was head of Economic Intelligence Committee directly supervised by the Commissioner of Economic planning.
With this committee recommendation, Federal Medical Centre (FMC) Asaba was adequately funded and provided with infrastructures and manpower.
Same was done to Federal Immigration Office at Asaba by Federal Government.
At the State level, we recommended establishment of additional State Universities and Polytechnics to caretaker for Students sicking admission to higher institutions
As a member of NSA, I was Chairman of Planning Research and Statistics (PRS) committee for over five (5) times.
NSA made the first, netsuplus of Firty six thousand Naira only under my closed watch in Delta State tag "Songhai Delta in 2004' with C M Okafor as the President.
I was Chairman of National Organisating Committee (NOC) of NSA annual conference for for six times, Starting from Enugu (2005) , Asaba (2007) when Chief CM Okafor additional one year (2008). I was NOC Chairman Ekiti NSA Conference, where we introduced ' Cashless policy ' and I was the Financial Secretary to the Association with Chief B.O. Amobi as the President.
I was NOC chairman of NSA at Zamfara in 2009 and I was able to declare over one million (#1,000,000) only as our netsuplus and the current Registrar Mrs Ngozi A as the internal Author to the Conference.
I was Chairman of 2012 NSA conference at Makurdi, and I was invested as a Fellow of our great Association and Chairman Uyo conference in 2013.
It is important to note that I was a member of various committees of the association (2004 to 2016) ie constitution review committee, Stakeholders committee to interface with National assembly, Tulfund, among others.
He is a devoted Christian.
He is joyfully married to Chief Mrs Uyoyou Raro Adaka and blessed with children.

Professional Profile

Dr. Yemi Kale

Group Chief Economist & Managing Director, Research and Trade Intelligence – African Export-Import Bank (Afreximbank)

Dr. Yemi Kale is a globally respected economist and executive leader with more than 25 years of experience shaping Africa's economic, trade, and development agenda. He currently serves as Group Chief Economist and Managing Director of Research and Trade Intelligence at Afreximbank, where he provides intellectual leadership for the Bank's research, trade intelligence, and policy innovation across more than 50 African countries.

Before joining Afreximbank, Dr. Kale was Partner and Chief Economist at KPMG West Africa,
Senior Adviser at the World Bank, and Chief Executive Officer /Statistician-General of Nigeria's
National Bureau of Statistics (2011–2021), where he modernized data systems, rebased Nigeria's GDP, and positioned the country as Africa's largest economy. His reforms transformed the NBS into a globally recognized institution, enhancing credibility, timeliness, and public trust in Nigeria's official data.
Dr. Kale's career also spans global finance, having worked as a Quantitative Analyst at Merrill Lynch and an Equity Analyst at Goldman Sachs in London, as well as Group Head of Research and Investment Strategy at Stanbic IBTC Bank, where he pioneered Nigeria's modern investment research industry.
A prolific thought leader, Dr. Kale is Editor-in-Chief of the Journal of Contemporary Issues in African Trade and Trade Finance (CIAT) and has authored numerous books, articles, and policy papers on Africa's economic transformation, trade, and governance.
He is a frequent keynote speaker at global conferences, where he brings a unique perspective that bridges public service, academia, finance, and international development.
Dr. Kale holds a Ph.D. and M.Sc. in Economics (with Distinction) from the London School of Economics, a B.Sc. in Economics (First-Class Honours) from Addis Ababa University, and is an alumnus of the Harvard Kennedy School's Leadership in Government program. He is a Fellow of the Royal Statistical Society (UK), the Nigerian Statistical Association, and a member of the Next Bretton Woods Think Tank.
Recognized for his integrity and professionalism, he has received several prestigious domestic and international awards for excellence , including the National Productivity Order of Merit (2018) by the Nigerian President and African Financial Analyst of the Year (2009). He also serves on multiple boards and advisory councils, including Accountability Lab Nigeria and financial institutions across Africa.

BRIEF CITATION OF PROFESSOR OLORUNSOLA EMMANUEL OLOWOFESO, Ph.D.

Professor Olorunsola Emmanuel Olowofeso is a distinguished scholar, accomplished statistician, economist, seasoned central banker, and renowned expert in econometrics, monetary and financial-sector development.
He obtained his first degree in Mathematics in 1989, graduating as the Best Student. He subsequently earned Master's degrees in Statistics and Economics from the University of Ibadan and a Ph.D. in Statistics from the Federal University of Technology, Akure (FUTA), in 2000.
Professor Olowofeso began his distinguished academic career at FUTA, where he rose to the rank of Associate Professor. He currently serves as a Professor at Nasarawa State University, Keffi, contributing to postgraduate teaching, research, and mentorship.
He enjoyed an illustrious career at the Central Bank of Nigeria, where he held several strategic positions and rose to the position Director in 2021.
From February 2021 to February 2025, he served as the Director-General of the West African Monetary Institute (WAMI), Accra, Ghana. During his tenure, he provided outstanding leadership in promoting regional monetary integration, macroeconomic convergence, financial stability, statistical harmonisation, and financial-sector development across West Africa.

He is a Fellow of the Chartered Institute of Statisticians of Nigeria and the Capital Market Academics of Nigeria, and a member of several prestigious national and international professional associations. He also served as an Executive Member of the Irving Fisher Committee on Central Bank Statistics under the Bank for International Settlements.

His areas of expertise include statistics, econometrics, economic policy, financial inclusion, monetary integration, financial technology, and data-driven development.

Professor Olowofeso is widely respected for his intellectual excellence, visionary leadership, professional integrity, and commitment to advancing knowledge, innovation, and sustainable development.

CITATION IN HONOUR OF
LADY NGOZI ESTHER NWACHUKWU, JP, FNSA, MIS (LONDON)

Lady Ngozi Esther Nwachukwu is an accomplished statistician of distinguished repute, whose illustrious career spans over 35 years of exemplary service in economic statistics, research and financial statistical analysis, culminating in her retirement as Deputy Director in the Statistics Department of the Central Bank of Nigeria (CBN) in 2017.

An alumna of the University of Nigeria, Nsukka, where she obtained a B.Sc. (Hons) in Statistics, she further earned an M.Sc. in Economics from Enugu State University of Technology Business School and a Postgraduate Diploma in Education. At the CBN, she distinguished herself across critical sectors of the economy, including Fiscal, Real, and External Sector Statistics, providing leadership in the compilation and production of general economic statistics, and analysis of vital macroeconomic indicators. As a pioneer contributor to the Bank's Statistical Bulletin, she played an instrumental role in the production of exchange rate, petroleum products and government finance statistics, while supervising professional research and co-authoring scholarly papers that enriched Nigeria's national statistical system.

Her commitment to the advancement of the statistics profession is equally remarkable. A Fellow of the Nigerian Statistical Association since 2012, she served as one of its pioneer auditors and actively promoted membership growth. She is also a member of the Nigerian Economic Society and the Institute of Statisticians, London. Beyond her professional accomplishments, Lady Nwachukwu continues to invest in human development as Proprietress of Praise Solid School, Abuja, extending her legacy of service to education and nation-building.

Lady Ngozi Esther Nwachukwu is a worthy exemplar of intellectual distinction, professional integrity and purposeful service. She is happily married with children and grandchildren.

Chief (Dr.) Boniface Oseloka Amobi (Omekannia) is the Chief Executive Officer of DataLink Consult Nig. Ltd, a consulting firm designated for the training, educating and capacity building of particularly the young ones as a way of contributing to production of quality data necessary for sound economic development, compiling and dissemination /distribution of big and open data as well as IT solutions for sound data production. Particularly as the Director, MESD he lead the team that carried out GDP Rebasing as well as the first ever State / Regional GDP in Nigeria.

B. O. Amobi is a Fellow (NSA), and a Fellow (Inst. Of Corporate Administration) and has served the Nigerian Statistical Association in various capacities as President (NSA) (2008 - 2012), 2nd Vice President, National Secretary, National Financial Secretary, Asst National Secretary. As the President of NSA he strengthened the association in so many ways including

(i.) actualizing its registration with CAC which before then could not be achieved over 30 years of establishment in 1976.

(ii.) moved the secretariat of NSA to a central location- FCT, Abuja (NBS).

(iii.) purchased a land in the FCT in the name of the association thereby fulfilling a crucial requirement for the registration.

(iv.) improved NSA website ad its use in communicating with members. (v.) consolidated the banking processes for the association by which we introduced more channels / account numbers thereby making payment of members' dues easier.

(v.) elaborated the Fellowship award by introducing the use of befitting customized academic gown, first, among all professional associations. (vi.) Undertook several necessary steps in terms of assemblage of the Draft of the CISON bill.

He was also the Pioneer President (NSA) to be a member of National Bureau of Statistics Governing Board as stated by Stat. Act. 2007 and thereby initiated and contributed a lot to NSA collaborative ventures with other organisations locally and internationally. He was the Chairman of Board of Trustee of NSA that pioneered and occasioned the establishment of the chartered institute of Statisticians of Nigeria (CISON).

He was also a member of African Statistical Association (AFSA)), International Statistical Institute (ISI) sections – IAOS and IASS. He is also a Executive Committee Member of The Statistics and Probability African Society (SPAS) among other professional associations.

*My message : The establishment of CISON had a well articulated aims and objectives. Despite the rough road of walking to actualise it which in itself has a well documented history of contributions / contributors, my candid advice is that as we mark this 50 years of professional development of statistics profession we must not loose site of the envisioned purpose of our founding fathers and the international community that CISON 1. should liberalise the statistical practise in Nigeria. 2. Inform sound economic development and practice 3. Give value and substance to our public figures across various economic divides 4. Inform proper accountability and openness across the polity 5. Better Governance and delivery among others including checking the monumental corruption in Nigeria. The work ahead has just started but there will be great joy as we progress because most imbalances will be smoothened out as we progress, I therefore encourage us to be more professional and avoid 'politicking and rash decisions' CONGRATULATIONS TO ALL OF US.

Prof EDITH UZOMA UMEH

A Brief Profile of Prof Edith Uzoma Umeh

Prof Edith Uzoma is a renowned Statistician , an Academia, a Researcher with the Department of Statistics Nnamdi Azikiwe University Awka. She has built a career spanning for two decades in teaching, research, Postgraduate supervision and also an administrator.

She holds a PhD in Statistics from Nnamdi Azikiwe University Awka, MSc in Statistics from Nnamdi Azikiwe University Awka and BSc in Statistics from University of Uyo.

Her research interests are Mathematical Statistics(Multivariate Statistics) and Biostatistics. She has published in reputable journals both local and international and had supervised several undergraduate and Postgraduate students.

She had served as an external assessors for both Professor, Reader and Senior Researcher with several Universities and Polytechnic

The first student that finished the PhD program in the Department of Statistics at Nnamdi Azikiwe University Awka.

She is the first female Professor of Statistics at Department of Statistics,Nnamdi Azikiwe Awka

She has served in different capacities in the University administration. Acting Head of Department of Statistics, the Deputy Director SIWES and immediate past Deputy Director Continuing Education Program(CEP).

A fellow of Chartered Institute of Statistics of Nigeria. She is a member of different organizations, International Statistics Institute, International Biometric Society, International Association of Statistics Education.

As a statistician, her career has depicted a great commitment to the growth of Statistics in Nigeria, human capacity building and academic leadership

PERSONAL INFORMATION AND ACADEMIC QUALIFICATIONS

Mr. Matthews Nganjiozor hails from Awo Idemili in Imo State, Nigeria and was born on 11th September, 1965. He obtained his Bachelor's Honours Degree in Mathematics from Imo State University in 1986. He also obtained the following academic qualifications after the Bachelor Degree:

- Post Graduate Diploma in Education from University of Jos in 1991;
- Post Graduate Diploma in Computer Science and Engineering from Enugu State University of Science and Technology in 1997; and
- Masters in Public Administration from Lagos State University in 2005.

CAREER PROGRESSION:

Mr. Nganjiozor started his career in the prestigious Nigeria Public Service in 1987 where he was posted to Federal Ministry of Education. He served in various Federal Unity Colleges from 1987-1990. As a Mathematics teacher, he excelled himself by improvising teaching aids-charts, shapes etc to make sure his students learn Mathematics with ease.

Mr. Nganjiozor was later redeployed to the Statistics Branch of the Federal Ministry of Education Headquarters in Lagos in 1991 and he worked in this Unit of the Ministry for Fifteen years. He worked with the team that saw to the all-encompassing base line of the Annual School Census in 2000. Between 2001 and 2003, he supported the development of the Nigeria Education Management Information System (NEMIS) Software by the Technical Adviser from the Australia. The former Nigeria Education Data Bank then transformed into Nigeria Education Management Information System.

During the major reform in the Nigeria Public Service which FME was part in 2006, Mr. Nganjiozor was redeployed to the newly established Information and Communication Technologies Unit and headed a section called the Converged Education Database. He proved his skills in data analysis, production and dissemination. He coordinated the biometric capturing of all the Federal Unity Colleges Students and Staff.

ACHIEVEMENTS SINCE 2013

He was later redeployed in 2013 to Head Statistics & NEMIS. Before his redeployment to Statistics and NEMIS, **Nigeria had its last publication in Education Statistics in 2011 which is Nigeria Digest of Education Statistics 2006 – 2010.** He has since 2013 coordinated the production and publication of:

- Manual for Annual School Census Data Collection for Date Collectors and Supervisors 2014 Edition;
- Nigeria Digest of Education Statistics Collection instruments for Data Collectors and Supervisors Revised Edition, 2016;
- Nigeria Digest of Education Statistics 2014 – 2016, Edition 2017;
- Nigeria Education Indicators, 2016, Edition 2017;
- Manual and Workbook for School Records Keeping, Edition 2018;
- Nigeria Digest of Education Statistics 2017, Edition 2019;
- Nigeria Digest of Education Statistics 2018, 2019, 2022
- Supervised the redesigning and upgrading of NEMIS Software and hosted for online data collection; and
- Nigeria promptly now report its education data to International Community, especially to UNESCO Institute for Statistics (UIS).

Mr. Nganjiozor Coordinated:

- in collaboration with National Population Commission the 2015 and 2020 Nigeria Education Data Survey (NEDS);
- in collaboration with UNICEF, ESSPIN and the Association for Development of Education in Africa (ADEA) the conduct first EMIS Capacity Assessment in Nigeria in June 2016;
- the mapping of Schools in six States in Nigeria and produced the Google maps of the schools in 2016;
- the first and second National Conference on Education Management Information System in Nigeria held respectively at Owerri, Imo State in 2017 and Lokoja, Kogi State in 2018;
- the development of NEMIS online data capturing software, pilot tested and hosted from 2020 to 2021;
- the collaboration with UBE for the conduct of National Personnel Audit of Basic Schools in Nigeria in 2018 and 2022;
- the third and fourth National Conference on Education Management Information System in Nigeria held respectively at Markudi, Benue State in 2019 and Gombe, Gombe State in 2022 with introduction of Pre-conference;
- Chairman, Education in Emergency Technical Working Group and worked to produce instrument for data collection and monitoring attacks on our schools to conduct and produce Baseline Data on the Attacks on Education in Nigeria 2021 to present;
- headed the various training and capacity development in the Nigeria EMIS such as training on:
  - Education Indicator;
  - Schools Record Keeping;
  - ASC Instrument;
  - EPSSIM Model;
  - Geo-positing of Institutions and mapping;
  - Family Life Health Education (FLHE); and
  - School Related Gender Based Violence (SRGBV) and its online animation Software;
  - School safety and attack harmonization workshop on the development of instrument;
- Supervised the PASEC data collection exercise in the South South Geopolitical zone of Nigeria in June 2025;
- Coordinated the monitoring of physical projects in the Federal Institutions and Agencies in the South West Geopolitical zone of Nigeria in July, 2025.

INTERNATIONAL ENGAGEMENT

He also led Nigeria to several International engagements in Education such as:

- training in Oracle Database for Converged Education Sector Database in Dubai in April, 2009;
- a multi-Sectorial training organized by Galaxy Backbone on the Integration of Databases and websites for effective delivery in South Africa in November, 2010;
- participation in the Restricted EMIS Technical Meeting for the West African Sub-Region organized by AU in Ghana in April, 2014;
- training by UNESCO Institute for Statistics on the generation of Indicators and completing of New International Standard Classification of Education (ISCED) 2011 in Zimbabwe in 2014;
- participation in the meeting of UNESCO Sub-Sahara African in Dakar in December 2014 on the integration of HIV instrument into the ASC instruments for data collection;
- participation in the UNESCO Institute for Statistics Regional Workshop at Dakar Senegal in May 2016 on the Educational Financing;
- participation in the Sub-Sahara Africa Workshop of UIS for the Anglophone Countries in Namibia in July, 2016;
- participation of Nigeria group in the online selected West African and Central Countries for integration and implementation of FLHE indicators from 2021 – 2022;
- led Nigeria Delegate to the International Conference on Statistics and indicator generation at Paris in February, 2024;
- Attended International meeting in Cote d'ivoire on Education Management Information System (EMIS) data and utilization in 2024;
- participated in the Federal University Oye Eliti Governing Council Exchange Programme in Kigali, Rwanda in 2025.

MEMBERSHIP OF PROFESSIONAL ORGANIZATIONS

Mr. Nganjiozor is a member of the following Professional bodies in Nigeria:

- Teachers' Registration Council of Nigeria TRCN;
- Computer Professional Registration Council of Nigeria, CPN; and
- Chartered Institute of Statisticians of Nigeria (CISON).

BOARDS AGENCY AND GOVERNING COUNCILS SERVED

Mr. Nganjiozor served in the following Board of Agency and Governing Councils of Institutions:

- ✓ Board of National Bureau of Statistics (NBS) from 2022 – 2024;
- ✓ Governing Council, Federal University Oye Ekiti 2024 – date; and
- ✓ Governing Council, Chartered Institute of Statisticians of Nigeria 2025 – date.

Mr. Nganjiozor, Matthews Ofodum is happily married with an amiable and promising wife and blessed with progressive and responsible children.

Mr Bello Jaafaru
Incoming Fellow

Prof. Nwakuya Maureen Tobechukwu

Professor Maureen Tobechukwu Nwakuya is a Professor of Applied Statistics and Econometrics in the Department of Mathematics and Statistics, University of Port Harcourt, Nigeria. She is the Coordinator of the University of Port Harcourt Laboratory for Interdisciplinary Statistical Analysis (UNIPORT-LISA), Coordinator of Entrepreneurial Courses, Faculty of Science, University of Port Harcourt, Chairperson Quality Assurance and Quality Control in the department of Mathematics & Statistics, University of Port Harcourt. She holds a PhD in Statistics with specialization in Econometrics from Michael Okpara University of Agriculture, Umudike, an MSc and a BSc in Statistics from Imo State University, Owerri. With about 19 years of teaching, research and statistical data-analysis experience, she has established herself as a scholar with interests spanning statistical modelling, econometrics, medical statistics, machine learning with explainable AI. She continues to champion **statistical literacy, professional capacity building, collaboration, and accessible statistical consultancy**, creating opportunities for students, researchers, professionals, and organisations to engage meaningfully with statistics. In recognition of her contribution to the statistical profession, Professor Nwakuya was elected a **Member of the International Statistical Institute (ISI) in 2026**, a significant distinction that reflects her outstanding contribution to the statistical community. She has served in various academic and institutional capacities. She is an active member of the Chartered Institute of Statisticians of Nigeria (CISON) as well as International Biometric Society (IBS), International Association of Applied Econometrics (IAAE), Organization of Women in Science for Developing World (OWSD) amongst others. Professor Nwakuya has published over 66 peer-reviewed scholarly works and she is a co-author of academic textbooks, including Descriptive Statistics, Essentials of Econometrics and Statistical Inference. She was awarded the best female lecturer by National Association of Mathematics, Computer Science and Statistics Students (NAMCOSS) in University of Port Harcourt, 2010. Beyond her academic scholarship, She is a devout christian, married and blessed with five children.

BRIEF CITATION ON YAHAYA BABA, USMAN, Ph. D.

Yahaya Baba, USMAN was born on 5th August 1968 to the humble family of Alhaji Usman Adejo. He hails from Olamuboloi Local Government Area of Kogi State.

Dr. Y. B. Usman attended Army Children School, Abakpa, Ogoja in Cross Rivers State and Community Secondary School, Onicha Igo and the prestigious Ochaja Boys Secondary School in Kogi State for his Primary and Secondary education respectively. On successful completion of his secondary education in the year 1983, he joined the Nigerian Navy in 1985 and in 1989 he proceeded to the prestigious premier University of Ibadan where he bagged his B.Sc. (Hons) in Statistics in 1994.

On completion of his first-Degree programme, the young Usman performed his one-year compulsory National Youth Service [NYSC] at Kaduna, Ministry of Finance and Economic Planning.

Having finished his National Service, he returned to the Nigerian Navy and discharged honourably in 1997. In the same year he gained employment with the Federal Polytechnic, Idah, Kogi State, to start his full "teaching" career as an Assistant Lecturer and later transferred his service to Federal Polytechnic, Nasarawa where he grew through the ranks.

Dr. Y. B Usman went back to his Alma-Mata, the famous Premier University of Ibadan, to further his studies, where he obtained his M. Sc. in Statistics in 2005 and Ph. D in Statistics in 2015, having obtained Postgraduate Diploma in Computer Science from the Federal University of Technology, Minna in 1998.

At the Federal Polytechnic, Nasarawa, he grew to the rank of a Chief Lecturer, served as a Head of Department, Mathematics and Statistics department, Dean, School of Applied Sciences, Director of Academic Planning, until his present appointment as the Rector, Federal Polytechnic, Idah on 23rd December, 2022 by the Commander in chief of the Armed forces, President Muhammadu Buhari.

Dr. Y. B Usman has served in different capacities which includes among others, LOC Chairman, NIPOGA 2017, Chairman of several committees, a one-time Chairman of the Academic Staff Union of Polytechnics (ASUP), Federal Polytechnic, Nasarawa Chapter and a one-time National Assistant Secretary General and member, Council of National officers (CNO), ASUP, One-time Treasurer, Zonal Executive Council, ASUP (North East Zone).

Dr. Y. B Usman belongs to several Professional bodies, among which are the Nigerian Statistical Association (NSA), International Biometric Society (IBS) and Professional Statistician of Nigeria (PSSN), just to mention but a few. He is currently the Chairman, Nigerian Statistical Association (NSA), Nasarawa State Chapter. He has equally attended several National and international conferences and workshops and has several published Journal articles and conference papers to his credit.

Since appointed as the Rector, Federal Polytechnic, Idah, Dr. Y. B. USMAN has being recognized by several reputable local and International organizations with awards of excellence. He bags the awards of:

- Pan African Icon of Educational Transformation, Thomas Sankara prize for Excellence by the Youth Partnership for Africa's Development. (YOUPAD)
- Award of Service - NAPS ICON OF HOPE 2023 by National Association of Polytechnic Students (NAPS)
- Leadership Award of Excellence by Democracy Newspaper
- The Polytechnic Rector of the year 2023 and induction into the 16th Stardom Global Hall of Fame by Stardom Global Digital Communication
- Astute Administrator, Observer News Watch Magazine Rector of the Year, 2023. By Observer News Watch Magazine
- Noble Price of Excellence "Vanguard of Educational and Societal Transformation in Nigeria by Youth Coalition for Education in Nigeria
- 2024 Meritorious Service Award (MSA) as Kogi Youth Ambassador of the year by Kogi Youth Development Association (KYDA)
- Outstanding Leadership Award: In recognition of this selfless services and unwavering commitment to advancing the polytechnic and for championing the implementation of student – friendly policies in the polytechnic by the Student Union Government.
- Award of Excellence for his Outstanding Contributions to Human and Social Development by School of Business Studies, the Federal Polytechnic, Idah.
- Platinum Leadership Award: As ICON of Nation Building by Northern Youth for Good Leadership and Governance 2025.
- Advocacy for Youth Leadership in Governance Award of Excellence as the Resourceful, Outstanding, Competent, Quintessential, Experience, Renowned, Digital best performing Rector in the 21st Century.
- Award of Excellence: In recognition of his steady strides towards the development of the Federal Polytechnic, Idah by School of General and Administrative Studies (SOGAS)

He is married and blessed with children, and takes to football, gymnasium and community development as his hobbies.

PROFESSOR MAXWELL A. IJOMAH

Professor Maxwell Azubuike Ijomah is a distinguished Professor of Applied Statistics and Econometrics at the University of Port Harcourt, Nigeria, with over two decades of experience in teaching, research, statistical consulting, academic leadership and professional service. He holds Ph.D. degrees in Applied Statistics and Development Economics, in addition to M.Sc. degrees in Statistics and Economics, reflecting his broad interdisciplinary expertise in quantitative science, economics and statistical modelling. He has served as a visiting lecturer across several institutions and specialised centres with proven track record of peer-reviewed publications, Ph.D. supervision, international collaborations, and statistical capacity development in Sub-Saharan Africa. His expertise encompasses statistical modelling, data analytics, econometrics, and technology-driven research. He is involved in developing statistical methods that provide a consistent formulation between the statistical modelling and biological nature, understand and solve the problem of unreliable estimates in analysing high dimensional structured data and tackle the challenges posed by the high level of stochastic disturbance in modelling generally. He has supervised sevral postgraduate research, served as an external examiner and assessor for different institutions, and provided professional consultancies and statistical trainings. His dedication to innovative teaching, research excellence, and academic development remains exemplary. He is also a member of International Biometric Society, Nigerian Economic Society, African Institute of Applied Economics and Nigerian Mathematical Society, etc. He is focused, career-oriented and has a goal for visionary leadership.

DR. OLUKOGA OLUTUNDE EMMANUEL

Dr. Olukoga Olutunde Emmanuel is a Demographer and Social Statistician with over 20 years of professional experience in public-sector administration, research, manpower planning, strategic planning, logistics and evidence-based decision-making. He holds a PhD in Demography and Social Statistics from Obafemi Awolowo University. His professional career includes senior responsibilities with the Ogun State Government, including the Ogun State Security Trust Fund and Ogun State Liaison Office, Abuja. He has contributed to population, reproductive health, gender and social-development research and has published in academic journals.

CITATION OF AKINBOYO OLORUNYOMI LAWRENCE (PHD)
AT THE AWARD OF FELLOWS BY THE CHARTERED INSTITUTE OF STATISTICIANS OF NIGERIA (CISION), OCTOBER, 2026

1. AKINBOYO Olorunyomi Lawrence (PHD) obtained his Secondary education from Comprehensive High School, Ilutitun-Osooro, in Okitipupa LGA of Ondo state
2. He obtained is Bachelors Degree in Economics from the famous University of Ife (now called O.A.U, Ile-Ife)
3. He obtained his Masters Degree from University of Lagos, Akoka Yaba in 1988
4. After his Master's degree, Dr. Akinboyo lectured with the University of Lagos, (Distant Learning Institute___DLI) before joining Central Bank of Nigeria in 1990
5. Dr Akinboyo worked in several departments of CBN such as Research, Statistics, Monetary Policy
6. He was the Editor of Statistical Bulletin of CBN for 15 years…an assignment he did without error.
7. He represented the CBN at West African Monetary Agency (WAMA) when he was on secondment by the Bank, where he transformed the Agency.
8. Dr Akinboyo received the 'Best Staff Award' in Monetary Policy Department of the Bank and Consequently, CBN sponsored his PHD Degree in an America university for four (4) years.
9. Dr Akinboyo was the Head of Research and Policy Committee of Monetary Policy Department for 10 years during which all the staff that he trained were all promoted (This was why he is known till date in Central Bank of Nigeria as……VICE-CHANCELLOR)
10. Dr Akinboyo has 35 publications in local and International Journals and editor of two International Journal.
11. Currently, Dr Akinboyo is a Lecturer with the College of Postgraduate Studies, CALEB University, Lagos
12. In view of his contributions to the growth of Statistics, his knowledge and usage of statistical numbers for policy and capacity building in Nigeria, the Chartered Institute of Statisticians of Nigeria (CISION) hereby award you as a FELLOW of the Institute.

Congratulations sir
Dated……. Day of October, 2026.

Professor Danjuma Jibasen (PhD) is a distinguished Professor of Biostatistics at Modibbo Adama University (MAU), Yola, Nigeria, with an academic career spanning over two decades. Born on January 13, 1972, in Wukari, Taraba State, he earned his B.Tech. in Statistics from the Federal University of Technology, Yola, and both his M.Sc. and PhD in Statistics from the University of Ilorin. Rising through the academic ranks from a Graduate Assistant in 2000, he attained his professorship in October 2018 and recently delivered his inaugural lecture titled "Count for Me the Little Foxes" in June 2026.

An accomplished scholar and administrator, Professor Jibasen has served as Head of the Department of Statistics and Operations Research, Coordinator of the Intellectual Property and Technology Transfer Office, and as a member of the MAU Governing Council. He is the Dean of the Faculty of Physical Sciences at the Federal University, Wukari, where he is currently on sabbatical leave. His administrative and teaching footprint extends to visiting professorships and external examinerships across multiple universities in Nigeria and Botswana, including Federal University Wukari, Federal University Kashere, Nigerian Army University Biu, and the University of Botswana.

Prof. Jibasen's research focuses on capture-recapture methodologies, stochastic modeling, and public health biostatistics, supported by grants from TETFund and prolific publications in peerreviewed journals. He has presented academic papers at both local and international conferences. He is a chartered statistician who actively leads professional bodies, including serving as the Adamawa State Chapter Chairman of the Chartered Institute of Statisticians of Nigeria, alongside extensive civic contributions as an electoral collation officer for national elections.

ADENOMON, Monday Osagie, PhD, Cstat, FASI, FCE, FIMC
Data Science Expert, Statistical Consultant, Full Professor (waiting for Announcement) & Chartered Statistician (CStat, RSS-UK), ISI Elected Member

Professor Adenomon Monday Osagie is an expert in Statistics, Data Science and Machine learning. He is also a Statistical and M & E Consultants. He is the Consulting
Statistician and Director, ADECLAR Research Consult and General Contracts LTD;
Founder, Laboratory for Econometrics and Applied Statistics of Nigeria (aka FOUNDLEAS-IN-NIGERIA) an NGO that promote and support women and girls in statistics and data science. He is a Full Professor of Statistics (waiting for announcement) with specialization in Econometrics, Financial time series, Data Science and Machine Learning in the Department of Statistics and Data Analytics, Nasarawa State University, Keffi, Nigeria. Ex Director, Centre for Cyberspace Studies, Nasarawa State University, Keffi. He is an Elected member of the International Statistical Institute (ISI); Chair, International Association of Statistical Computing for African member group; Coordinator, International Statistical Literacy Project for Nigeria and also the Geographic Centre Lead for Africa in the RoSE (Researchers of Statistics Education) Network Committee.
Training and education: Prof. Adenomon graduated as the best HND student with a distinction (Statistics) 2004; PGDS with distinction (Statistics) 2008; B.Sc. (Statistics) with First Class 2021; M.Sc. (Statistics) with distinction 2010; PhD (Statistics)2016. ***Collaboration:*** Collaborate with Postgraduate Students and Researchers in Business Administration, Accounting, Economics etc.
Professional services: M & E Consultant to GIZ (2021); Statistician Consultant to eBASE, Cameroon (2020 till date); Chair of the International Association of Statistical Computing (IASC) African Members Group (2021 till date); ISI Short Course and Outreach Officer (2021-2023 & 2023-2025); Regional Coordinator, Northern Nigeria LISA 2020 Network; Coordinator, Nasarawa State R User Group; Lead-Organizer of the Northern Nigeria LISA 2020 Symposium (2020); Lead-Organizer, IASC physical symposium in Nigeria (2019 and 2021);
Member, Committee of Sport Statistics Research Group of International Statistical
Institutes (ISI) (2019 till date); Chartered Statistician of the Royal Statistical Society (2019 till Date); Coordinator, NSUK-LISA Stat Lab (2018 till Date); Mentor, LISA 2020 Networks (2018 till date).
He has traveled far and near: Short Course in Experimental Economics (Berlin, Germany); Academic Visit to Academia Sinica, Taiwan; World Statistics Congress, Malaysia; LISA symposiums (Malaysia and Ghana); AMMCS, Canada; Conference and Workshop (Cameroon).
He has facilitated various training with Nasarawa State Government, Nigerian Statistical Association (NSA), Food and Agriculture Organization (FAO) and others.

Research interests: Data Science; Machine learning; Applied Statistics to Health and Biological Sciences; Econometrics; Time series Analysis; Financial time series analysis; Spatial Econometrics; Statistical Computing and Interdisciplinary Statistical Analysis. His research works are indexed in Scopus and Web of Science (WOS), Researchgate and Google citation (citations: 696; h-index: 12; i10-index: 18).
Hobbies: Collaborating, Mentoring, Travelling and Networking. He is married with lovely children.

VICTOR UGBEM OBOH, PhD
Director, Monetary Policy Department
Central Bank of Nigeria
vuoboh@cbn.gov.ng ; +2348062116918

Dr. Victor Ugbem Oboh is the Director of the Monetary Policy Department and Secretary to the Monetary Policy Committee at the Central Bank of Nigeria. With over 27 years of experience spanning monetary, fiscal, and trade policy, he has served in key national and international roles, including the National Economist at UNDP Nigeria, Policy Advisor with DFID's PrOpCom programme, and Senior Research Assistant at IFPRI. At the CBN, he has led major initiatives in macroeconomic policy analysis, inflation targeting, and monetary policy communication, and previously headed the Macroeconomic Policy Analysis Division. Dr. Oboh holds a PhD in Agricultural Economics, authored 48 scholarly publications with over 900 citations, and maintains active memberships in leading professional associations.

BIO-DATA OF PROF. (MRS.) SARAH OLANREWAJU ANYANWU (NEE AKANBI)

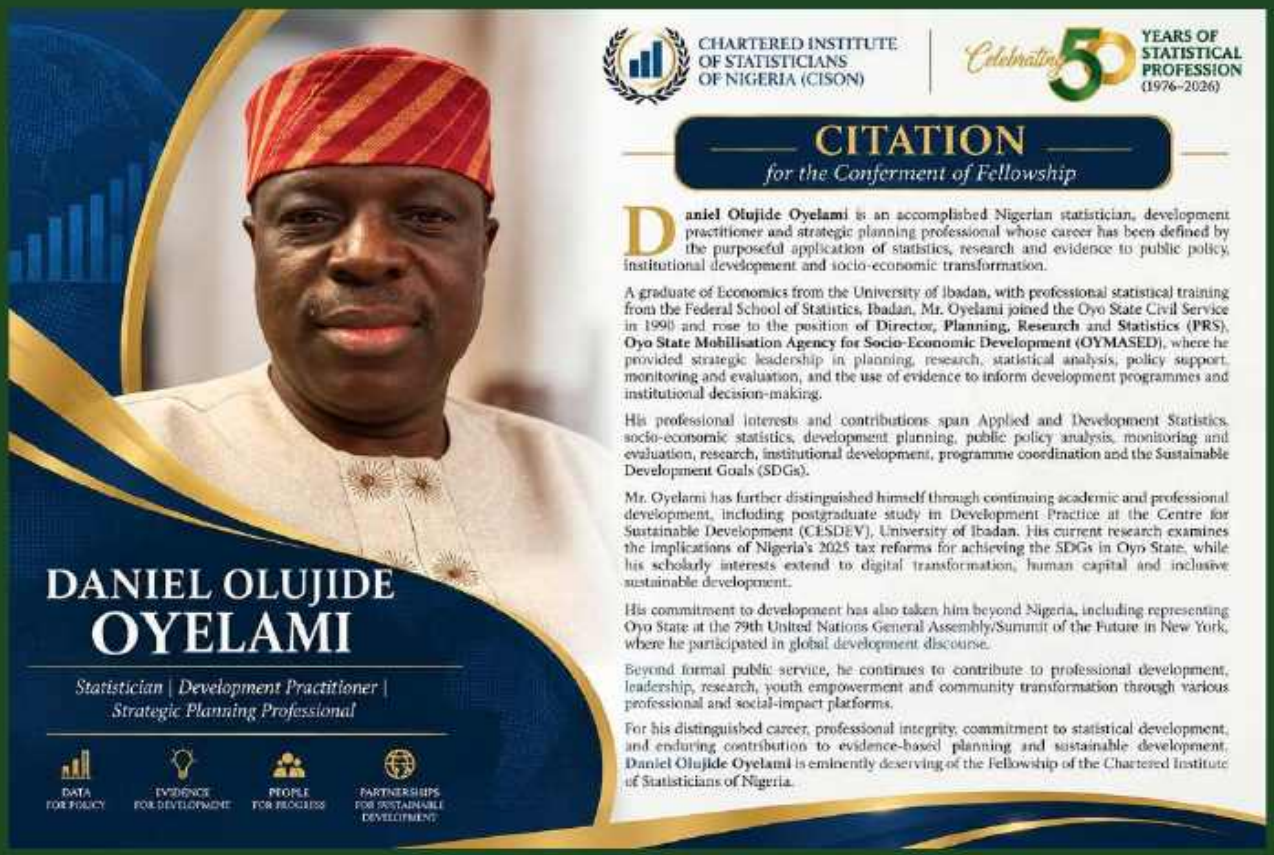

Professor Sarah Olanrewaju Anyanwu is a distinguished Professor of Development Economics (since 1999) and a former Lecturer in the Department of Economics, University of Abuja, Nigeria.

She previously served as **Dean**, School of Management and Information Technology, Federal University of Technology, Yola; **Director**, Centre for Entrepreneurship Development, University of Abuja; and **Head**, Department of Economics, University of Abuja. Professor Anyanwu is computer literate and possesses strong interpersonal, analytical, and technical skills.

A Fellow of the Nigerian Economic Society **(NES)**, Professor Anyanwu made history as the first female President of the NES and is also a Life Member. She was honoured as one of the Best Researchers at the University of Abuja, receiving Research Grant Medals in 2021 and 2022. She is a Fellow of the Association of Capital Market Academics of Nigeria **(ACMAN, 2024)** and a former Vice-Chairman of the Nigerian Statistical Association, Abuja Chapter (2019–2023). She is also a member of several other professional associations.

Professor Anyanwu has an impressive academic record with 91 publications in reputable national and international journals, 21 book chapters, 21 technical reports from various consultancies and commissioned papers, and over 120 conference, seminar, and workshop presentations. She has served as an External Examiner to nine universities and has assessed candidates for Readership and Professorship in 29 universities. She has successfully supervised 34 PhD theses, with several of her former students now serving as Professors, Vice-Chancellor, Associate Professors, Deans, Heads of Department, and Directors in various institutions. She contributed to the development of two Entrepreneurship textbooks for TETFund in 2014 and served as Coordinating Editor for a TETFund-sponsored book titled *Fundamentals of Public Finance* (2022). She also serves on the Editorial Advisory Boards of 21 academic journals.

Over the years, Professor Anyanwu has consulted extensively for notable organizations including the British Council, World Bank, UNDP, EU, ILO, DFID, National Bureau of Statistics (NBS), SUFEGOR, National Universities Commission (NUC), and various Federal and State Ministries. She has also contributed to the preparation of key national policy documents, including the National Employment Policy, National Youth Development Policy, and Nigeria's National Development Plan (NDP), (2021–2025). Professor Anyanwu is blessed with five children and grandchildren.

CITATION OF DR OLAOLUWA S. YAYA

Dr OlaOluwa S. Yaya holds a PhD in Time Series Econometrics from the University of Ibadan, Nigeria. He is a Reader/Associate Professor of Statistics at the University of Ibadan, Nigeria. He is a two-time winner of the Professor Adenike Osofisan Distinguished Science Faculty Scholar Awards (2019 & 2021). IDEAS/RePEc ranks him fourth among econometricians and time series econometricians in Nigeria. He holds several international and local research fellowships, including the Postgraduate Doctoral Research Fellowship at North-West University, South Africa, and the University of Economics Ho Chi Minh City, Vietnam. He is a senior research fellow and the Deputy Director at the Centre for Econometrics and Applied Research, Ibadan, Nigeria. He is a Statistician Consultant to the Central Bank of Nigeria, the West African Institute of Financial and Economic Management, and the National Mathematical Centre, Nigeria. He has published over 145 publications in reputable local and international journals (such as Oxford Bulletin of Economics and Statistics, Physica A: Statistical Mechanics and its Applications; Journal of Applied Statistics; Resources Policy, Energy Policy, Economic Modelling, International Journal of Finance & Economics) in the areas of Economic and Finance Statistics, Environmental Statistics, and Computational Statistics. Dr facilitated the conversion of the Journal of the NSA and CNB Journal of Applied Statistics to LaTeX typesetting. He is the Associate Editor of the Chartered Institute of Statisticians of Nigeria (CISON), and a member of the Editorial Board of the Modern Finance journal. Based on Dr OlaOluwa Yaya's achievements in relation to statistical practices in Nigeria and in global space, we hereby confer on him the Fellowship of the Chartered Institute of Statisticians of Nigeria (FCISON). Congratulations!

PROFESSOR CHINWENDU ALICE UZUKE, Ph.D.

Professor Chinwendu Alice Uzuke is a Nigerian Statistician, academic, researcher, consultant and university administrator with over 30 years of professional experience in statistical practice, teaching, research and academic leadership. She is currently a Professor of Biostatistics and Regression Analysis at Nnamdi Azikiwe University, Awka, where she has served since 1995 progressing through the ranks from Graduate Assistant to Professor.

Professor Uzuke obtained her B.Sc. In Statistics and Demography in 1992 M.Sc. In Statistics in 1999 and Ph.D. In Statistics specializing in Regression Analysis in 2016 from Nnamdi Azikiwe University, Awka. Her academic and professional interests include regression analysis, biostatistics, survival analysis, statistical modelling, demographic statistics, epidemiology, Bayesian modelling, forecasting and applications of machine-learning methods to health and socioeconomic problems.

She has a record of scholarly contributions having authored and co-authored numerous journal articles, conference papers and academic publications. Her research has addressed methodological and applied areas including regression modelling, multicollinearity, influential observations, fertility, survival analysis, forecasting, maternal and child health, cardiovascular disease, HIV/AIDS and under-five mortality. She is also a co-author of the textbook *An Introduction to Applied Statistical Methods*.

Professor Uzuke has made contributions to the training and mentorship of statisticians and researchers. She has supervised postgraduate students at the Ph.D., MSc and PGD levels covering contemporary areas such as Bayesian modelling, geospatial statistics, survival analysis, machine learning regression analysis, health-risk prediction and demographic modelling. She has also completely supervised than 80 undergraduate research projects.

Her academic leadership experience includes serving as Head of the Department of Statistics from January 2024 to July 2026. Postgraduate Coordinator from 2022 to 2024. She has also served as Departmental and Faculty Examination Officer, Level Adviser, postgraduate supervisor and member of university and faculty committees.

Beyond the university Professor Uzuke has contributed actively to the profession and national development. She has served as an Accreditation Team Lead representing the Nigerian Statistical Association. Is a member of the National Technical Committee on Multiple Indicator Cluster Survey (MICS7). She has also facilitated training programmes, including training for NAFDAC laboratory scientists in basic statistics quality-control charting and statistical reporting.

Professor Uzuke is a member of national and international professional bodies, including CISON, the International Statistical Institute, International Biometric Society, International Association for Statistical Education and the Organization for Women in Science for the Developing World. She has participated in international statistical conferences, including the World Statistics Congress and International Biometric Conference.

She has also served as an examiner and assessor at various Nigerian universities and currently contributes to scholarly publishing as Editor-in-Chief of the Journal of Applied Statistics and Integrated Modelling Systems. Her career reflects sustained commitment to excellence, professional service, research, mentorship and the advancement of statistics for national development.

Professor Chinwendu Alice Uzuke is from Igboukwu and she is married to Nze Umennanyelugo Kelvin Chukwudi Uzuke and they are blessed with 4 children (Bar Akachukwu, Dr Obinna , Engr Ogochukwu and Chukwunonyelum).

Fellowship Award Citation for

Dr Olaitan Abdulrafiu Olasunkanmi

Dr. Olaitan is a distinguished economist, statistician, and chartered accountant whose academic and professional achievements exemplify excellence, dedication, and leadership. He holds a **PhD in Economics with Distinction**, an **M.Sc. in Economics as Best Graduating Student**, and a B.Sc. (Hons) Economics with Second Class Upper Division from Nile (Honoris) University of Nigeria, the University of Jos, and the **University of Lagos, respectively**. He is both an Associate and Fellow of the **Institute of Chartered Accountants of Nigeria (ICAN) ACA & FCA)**. He has also attained the prestigious designation of **Chief Financial Officer (CFO)** of the **Chartered Institute of Statisticians of Nigeria (CISON)**.

Over a professional career spanning more than twenty-four years, Dr. Olaitan has distinguished himself through exceptional service in statistical compilation, forecasting, economic research, and policy analysis. His commitment to developing the statistical profession has had a lasting impact on institutional growth and professional practice in Nigeria.

As Treasurer of the **Nigerian Statistical Association (NSA)**, he spearheaded an unprecedented transformation of the Association's financial enterprise landscape, introducing innovative financial management practices that strengthened its stability, sustainability, and operational efficiency. His remarkable stewardship earned him the widely acclaimed nickname,**"Mr. Cashless,"** and contributed significantly to the emergence and success of the Chartered Institute of Statisticians of Nigeria (CISON).

In his role as Financial Secretary of the NSA, Dr. Olaitan pioneered the production of the Association's first standardised and professionally presented financial reports, setting a benchmark for accountability, transparency, and good governance. His service as Council Member, Treasurer, and Financial Secretary reflects a consistent record of dedication to professional excellence and institutional development.

A Fellow of both the **Institute of Chartered Accountants of Nigeria (ICAN)** and the **Nigerian Statistical Association (NSA)**, and a Full Member of the **Nigerian Economic Society (NES)**, Dr. Olaitan has combined professional competence with intellectual depth, contributing through research, leadership, mentorship, and the promotion of evidence-based decision-making. His scholarly work in monetary policy, credit management, inflation analysis, and econometric modelling further underscores his commitment to national development and academic advancement.

Today, we celebrate a consummate professional, an accomplished scholar, an innovative financial administrator, and a steadfast advocate for the statistical profession. His integrity, leadership, vision, and enduring contributions make him eminently deserving of this distinguished Fellowship Award.

The Governing Council of CISON is therefore pleased to confer its Fellowship Award upon Olaitan, Abdulafiu Olasunkanmi, PhD, FCA, in recognition of his outstanding contributions to advancing statistics, economics, financial management, and professional development. **Congratulations on this well-deserved honour and recognition.**

A Brief Profile of

Prof. Femi Barnabas Adebola

Professor Femi Barnabas Adebola is a distinguished Nigerian Statistician, academic, researcher, and university administrator. He is a Fellow, Royal Statistical Society (FRSS), UK and member, International Statistical Institute (ISI). He is currently the Dean of the School of Physical Sciences at the Federal University of Technology, Akure where he has built a career spanning over two decades in teaching, research, postgraduate supervision, and academic leadership. He holds Ph.D., M.Sc., and B.Sc. degrees in Statistics from the University of Ilorin, Ilorin, Nigeria. He is a Professor of Sample Survey Statistics and its Applications. His major research interests are in the areas of Randomised Response Techniques, Ratio and Regression Estimators, Time series Analysis, Design and Analysis of Experiments, Medical Statistics, Stochastic processes and Statistical modelling. He has published widely in high-impact national and international journals. He has won many awards and research grants through the application of statistical methods in solving national and health problems.

Professor Adebola has supervised numerous undergraduate and postgraduate students, including 6 doctoral Theses and 25 Masters Dissertation in Statistics, and has served as an External Examiner and Professorial Assessor to universities across Nigeria. He has held numerous leadership roles at FUTA, including Acting Head of the Department of Statistics, Undergraduate Project Coordinator, and IT Coordinator. Additionally, he served as the department's pioneer Postgraduate Coordinator. Furthermore, Prof. Adebola has served on the NUC Accreditation as Team leader to some Nigerian universities. He has as well functioned as a facilitator in the train the trainer exercise of National Population Commission (NPC).

Prof. Adebola delivered the Federal University of Technology Akure 181st Inaugural Lecture and the 1st from the department of Statistics on the 17th of June, 2025 titled: "Many are called, but few are Chosen: Understanding the hide and seek Game".

Professor Adebola's career mirrors a robust commitment to statistical scholarship, professional growth, academic leadership, and human capital development in the pursuit of Statistical excellence in Nigeria. He is an ordained Full Pastor in the Redeemed Christian Church of God (RCCG) and happily married to Dr. Olukemi Grace Adebola, an Associate Professor in the same University and they are blessed with wonderful and God- fearing children.

AYANLEKE, TUNDE JULIUS

Ayanleke, Tunde Julius is a seasoned public administrator and statistician, currently serving as the Permanent Secretary in the Ministry of Budget and Economic Planning, Oyo State.

He began his career in the Oyo State Civil Service in 2000 as Statistician II and has since accumulated extensive experience across several key government departments and agencies. Through consistent dedication and professional excellence, he rose through the ranks to become Permanent Secretary in January 2025.

Mr. Ayanleke holds a B.Sc. in Statistics from the University of Ilorin (1997) and a Master's degree from the University of Ibadan (2007). With a strong foundation in data analysis and policy formulation, he has played a pivotal role in shaping and implementing key government initiatives and development frameworks.

He has made significant contributions to the production of several important state publications and planning documents. Widely respected for his analytical acumen, integrity, and results-driven approach, Mr. Ayanleke continues to contribute meaningfully to Oyo State's socio-economic development through data-informed decision-making and strategic planning.

He is blessed with a loving wife, Mrs. Oyeyemi Ayanleke, and children.

CITATION OF

PROF. CHINELO MERCY IGWENAGU

Professor Chinelo Mercy Igwenagu is a trailblazing academic, an exemplary leader, and a distinguished statistician whose contributions to the discipline and society span over two decades.

A pioneer of immense historic significance, Professor Igwenagu holds the proud distinction of being the 2nd Female Professor of Statistics in Nigeria and the 1st Female Professor of Statistics in Enugu State. Demonstrating her scholarly depth and devotion to the field, she delivered the 36th Inaugural Lecture of Enugu State University of Science and Technology (ESUT), titled "Statistics: A Giant that is Everywhere Dense."

Within the realm of professional associations, Professor Igwenagu joined the Nigerian Statistical Association (NSA) in 2005 and successfully migrated to the Chartered Institute of Statisticians of Nigeria (CISON) in 2024. A steadfast pillar of CISON, she currently serves as the Chairperson Enugu State Chapter. A champion for gender representation, she served as Chairperson of the Planning Committee for the inauguration and commemoration of the maiden Women in Statistics Day in Nigeria. Internationally, she serves as the Country Representative for MERC DATA Consulting.

At Enugu State University of Science and Technology (ESUT), Professor Igwenagu has consistently stepped forward to lead across critical administrative portfolios. Her governance and executive footprint includes:

Pioneer Head, Department of Statistics (2024–Present)
Board Member, ESUT Open and Distance Learning Center (2023–Present)
Member, ESUT Governing Council (2022–2025)
Director of Admissions, ESUT (2021–2024)
Pioneer Director, Intellectual Property and Technology Transfer Office (IPTTO) (2018–2020)
Head, Department of Industrial Mathematics/Applied Statistics (2015–2020)

As a mentor and academic leader, she has shaped the next generation of scholars—having co-supervised over 15 Ph.D. candidates, seven of whom have risen to full Professorships. She continues to serve widely as an external examiner and professorial assessor across higher institutions.

Beyond academia, Professor Igwenagu's community impact and faith-based devotion are profound. She served as National Secretary (2017–2022) and National Treasurer (2022–2026) for the Pope's Worldwide Prayer Network (PWPN), alongside extensive leadership roles at the Diocesan and Parish levels. In her indigenous community, she serves as Director of Socials for the Agbaja Professors Association Worldwide and Secretary of the Committee on Enugu Okibe Prize, October Lectures. In recognition of her virtue and service, she was honored as "Golden Mother" by the Catholic Men Organization (CMO) and "Nnediorammna" by the Catholic Women Organization (CWO).

A devout Christian, Professor Igwenagu is happily married and blessed with children.

In recognition of her ground breaking achievements, exceptional administrative leadership, dedicated mentorship, and outstanding contributions to the advancement of statistical science in Nigeria and beyond, the Chartered Institute of Statisticians of Nigeria (CISON) hereby confers on Professor Chinelo Mercy Igwenagu its highest honour of FELLOWSHIP.

Dr. KJB Citation

Dr. Kufre John Bassey is a distinguished economic statistician, accomplished academic and strategic leader with more than two decades of professional experience spanning central banking, teaching and statistical research. He currently heads the Household and Socioeconomic Statistics Office in the Real Sector Statistics Division of the Statistics Department, Central Bank of Nigeria, Abuja. He holds a PhD in Statistics from the University of Nigeria and possesses specialised training in advanced econometrics, macroeconomic modelling and project management. His professional expertise encompasses survey methodology and design, price statistics, socioeconomic statistics, econometric research and the management of complex statistical projects. Before joining the Central Bank of Nigeria, Dr. Bassey served for over 5 years as a lecturer at the Federal University of Technology, Akure. He subsequently rendered pro bono teaching services in regression analysis and operations research at the University of Abuja while serving at the Bank. He has also published extensively in peer-reviewed journals in the areas of time-series econometrics, operations research and price statistics. Through his sustained contributions to official statistics, statistical education, research, capacity building and evidence-based policymaking, Dr. Bassey has demonstrated the professional distinction and commitment worthy of recognition as a **Fellow of the Chartered Institute of Statisticians of Nigeria (CISON)**, the Institute's highest professional membership category.

ABRIDGED CITATION OF DR. AWA OGBONNAYA DIKE BSc(Hons), MSc, PhD

Dr. Awa Ogbonnaya Dike is a Chief Lecturer in Statistics, Dean School of science (2018-2023) Head of Department, Mathematics/Statistics (2014-2018), Akanu Ibiam Federal Polytechnic Unwana, Nigeria. He holds a Bachelor's of Science degree (BSc) 1997 with honors, Master of Science degree (MSc) 2012 and Doctor of Philosophy degree (PhD) 2016 all in statistics from Abia State University Uturu, Nigeria. He also holds a post graduate diploma (PGD) in Business/Project management from Federal University of Technology Owerri (FUTO) and a certificate in computer science (Cert. Computer) from Akanu Ibiam Federal Nigeria.

Dr. Dike is a registered member of Nigerian Statistical Association (NSA) 2002-2023, Chartered Institute of Statisticians of Nigeria (CISON) 2024, Nigerian Mathematical Society (NMS), International Research and Development Institute (IRDI), Provisional member of International Union for the scientific study of population (IUSSP), International Statistical Institute (ISI), Reviewer Central Bank of Nigeria (CBN) journal of applied statistics, Reviewer, Asian journal of probability and statistics, journal of advances in mathematics and computer science.

He is as well a fellow of Institute of corporate administration of Nigeria, fellow institute of natural resources and human development and fellow institute of Industrial administration of Nigeria.

Dike was at different times the, assistant secretary and vice chairman, academic staff union of polytechnics (ASUP) Unwana chapter. President Rotary club of Afikpo (2015) He is a resource person with the National Board for Technical Education (NBTE) in accreditation of statistics programs, external examiner Federal polytechnic Nekede. He has presented and published papers both local and international journal / conferences.

Notably: he presented celebrated papers in person at the university of Nevada Las Vegas (UNLV) USA in 2016 sponsored by Tertiary Education Trust Fund (Tetfund), Harvard University Boston Massachusetts USA in 2017, and University of Texas at Houston Texas USA in 2018; he also attended the 12th international conference on computational and methodological statistics at Birkbeck University of London Uk14th – 16th December 2019. He equally attended a training workshop on grant management writing organized by Euro Horizon and sponsored by Tetfund at the University of Turku, Finland in 2022. Dr. Dike is happily married with children.

CITATION FOR THE AWARD OF FELLOWSHIP CHARTERED INSTITUTE OF STATISTICIANS

Mrs. Theresa Ulumma Ogike is a distinguished Statistician in the public sector with over **30 years of dedicated service** to Nigeria. A **member of the Governing Council of CISON, representing the Head of the Civil Service of the Federation**. She has served as **Deputy Director Statistics, in the Presidency, Office of the Head of the Civil Service of the Federation**, and as **Chief Statistician in the Federal Ministry of Finance**, where she collaborated with the National Bureau of Statistics in support of the **Electronic General Data Dissemination System** and contributed to the **National Strategy for the Development of Statistics**. She has also served in the Federal Ministries of Interior, Power, and Solid Minerals Development. Mrs. Ogike holds a **Bachelor's Degree in Statistics from Usmanu Danfodiyo University, Sokoto**, and a **Master's Degree in Financial Mathematics from the University of Abuja**. Her service for the growth of CISON includes serving as **Chairman, Anthem Committee; Vice Chairman, 2026 CISON 3rd International Conference National Organising Committee; Vice President, CISON FCT Abuja Chapter; Secretary, Capacity Development Committee; and member of the Projects and Salary Structure Committees**. In recognition of her **distinguished professional service, exemplary leadership, and sustained contribution to the advancement of statistics, CISON and national development**, the **Chartered Institute of Statisticians of Nigeria** is honoured to confer upon **Mrs. Theresa Ulumma Ogike** the **prestigious Fellowship of the Institute**

Congratulations.

Professional Citation – Dr. Oluwafemi Samson Balogun

Dr. Oluwafemi Samson Balogun is an accomplished statistician, academic and researcher with over a decade of experience in statistical modelling, biostatistics, research supervision and interdisciplinary data science. He holds a PhD in Statistics from the University of Ilorin, Nigeria, and currently serves as a Project Researcher at the University of Eastern Finland.

His extensive scholarly contributions include peer-reviewed publications in statistical methodology, survival analysis, reliability modelling, public health and machine learning. He is the Principal Investigator of a Finnish Cultural Foundation-funded osteoporosis research project and has previously secured TET Fund research funding in Nigeria.

Dr. Balogun contributes actively to the international statistical community through editorial responsibilities, postgraduate supervision, research collaboration and professional service. He is a member of CISON, the International Statistical Institute and the International Biometric Society, and serves on Finland's JUFO publication evaluation panel.

His career reflects a sustained commitment to advancing statistical science, mentoring emerging researchers and applying rigorous quantitative methods to challenges in healthcare and society.

DR. HOPE IFEYINWA MBACHU

Dr. Hope Ifeyinwa Mbachu is a distinguished Statistician, academic, researcher, statistical consultant, and university administrator. She is a Lecturer in the Department of Statistics, Faculty of Physical Sciences, Imo State University, Owerri, Nigeria, where she currently serves as Head of the Department of Statistics for a second tenure and as a Member of the University Senate.

Dr. Mbachu holds a Ph.D. in Statistics and has developed significant expertise in Experimental Design, Generalized Linear Models, Statistical Consulting, and Statistical Collaboration. She has authored a chapter on Statistical Consulting and Collaboration Techniques in the internationally acclaimed book Promoting Statistical Practice and Collaboration in Developing Countries, published by Chapman & Hall/CRC, USA. Her scholarly contributions include over 40 academic publications in reputable journals, with a strong research and professional presence on platforms such as Google Scholar and ResearchGate.

Dr. Mbachu has served in two higher institutions in Nigeria; Imo State Polytechnic, Umuagwo, and Imo State University, Owerri, where she has accumulated extensive experience in teaching, research, postgraduate supervision, academic administration, and professional service. She has successfully supervised numerous Ph.D., M.Sc., PGD, and B.Sc. research projects.

Her academic leadership and administrative experience are extensive. She has served as Associate Dean, Faculty of Physical Sciences, Postgraduate Representative for the Faculty, and Coordinator of the Imo State University Laboratory for Interdisciplinary Statistical Analysis (IMSU-LISA). She also served as Coordinator of the South-East LISA 2020 Network on Gender and has held other leadership positions, including Associate Editor of the IMSU CDS International Journal of Development, Coordinator of the International Biometric Society (IBS), Group Nigeria – Eastern Region, and Treasurer CISON, Owerri Chapter.

Dr. Mbachu is actively engaged with several national and international professional and academic organisations. Her affiliations include the International Biometric Society (IBS), International Statistical Institute (ISI), American Statistical Association (ASA), International Association for Official Statistics (IAOS), Women in Statistics and Data Science (WSDS), LISA 2020 Statistical Collaboration Laboratory Network, Association of African Universities (AAU), and the Organization for Women in Science for the Developing World (OWSD). She is also a Chartered Member of the Association of Ranking Professionals (ARP) and a Chartered Member of the Association of Cybersecurity Practitioners.

She currently serves as a committee member of NiTERAC, THE Sustainability Impact Ratings (THE SIR) Working Group 2026 for Nigerian University Rankings, contributing her expertise to initiatives aimed at strengthening institutional visibility, sustainability, and university ranking performance.

Dr. Mbachu has participated in national and international conferences, symposium and workshops. Notable among these are the Association of African Universities (AAU) Workshop on Positioning Your University for Global Visibility, Editions 2 and 3, held in Lusaka, Zambia, and Nairobi, Kenya, respectively, in 2026. She has also participated in VICBHE Modules 10, 11, and 12, a global Capacity- Building programme. Her international exposure includes academic and professional engagements in more than ten countries.

Her commitment to statistical education and professional development has earned her recognition, including the ICOTS II (2022) Award winner under the International Association for Statistical Education (IASE) held in Australia.

Beyond her academic and professional accomplishments, Dr. Mbachu is a committed mentor, educator, wife, homemaker, and mother. She is blessed with four children and ten grandchildren

PROF. UKAMAKA CYNTHIA ORUMIE

Associate Dean, Faculty of Science, University of Port Harcourt

Professor Ukamaka Cynthia Orumie is a Professor of Statistics in the Department of Mathematics and Statistics, Faculty of Science, University of Port Harcourt, Nigeria, where she also serves as Associate Dean of the Faculty of Science. She holds a Ph.D. in Statistics from the University of Port Harcourt, an M.Sc. in Statistics, and a B.Sc. in Statistics from the University of Nigeria, Nsukka.

Her research interests include Applied Statistics, Operations Research, Optimization Theory, and Modelling. She has extensive experience in university teaching, research, academic administration, and postgraduate supervision. She serves on the editorial boards of several scholarly journals, served as an external examiner and assessor for different institutions, a member of several national and international statistical associations and has participated in international scientific conferences, including the just concluded International Federation of Operational Research Societies (IFORS) conference in Vienna, Austria and Modelling and Simulation of Social-Behavioural Phenomena in Creative Societies (MSBC–2026) in Uzbekistan.

Professor Orumie is a Fellow of the Institute for Operations Research of Nigeria(ORIDSAN-FORI), and a Fellow of the Institute for Operations Research and Management Science of Nigeria (FIORMS). She is the First Vice President of ORIDSAN. She serves in leadership within the Operations Research Institute for Decision Sciences and Analytics of Nigeria (ORIDSAN) as the 1st Vice President and has held executive positions in other professional bodies. Her academic and professional contributions reflect a commitment to advancing statistical science, research, professional development, and evidence-based decision-making

Dr. Abubakar Babamasin Shebe is a teacher, public servant and banking & finance professional. Presently working with Central Bank of Nigeria in the area of Financial Policy and Regulation. Holds B.Sc. Statistics with First Class Honours, M.Sc. Statistics, Master of Business Administration and Doctor of Business Administration. Member of many professional organisations: Chartered Institute of Bankers of Nigeria, Chartered Institute of Stockbrokers, Chartered Institute of Directors, Chartered Institute of Securities and Investment, Nigerian Institute of Management (Chartered), etc. Happily married with children.

Usman Moses Okpanachi, Director, Statistics.

Dr. Okpanachi Usman Moses is the Director of the Statistics Department at the Central Bank of Nigeria (CBN). He holds a Bachelor of Science degree, a Master's, and a Ph.D. in Economics, which he completed in 2005. A distinguished Fulbright Scholar, Dr. Okpanachi is a seasoned economist and academician with specialization in monetary economics.

Before joining the CBN in 2005, his professional journey began at the University of Jos in 1995, where he taught economics and statistics to both undergraduate and graduate students in the Department of Economics. In 2009, he was appointed National Economist for Nigeria at the United Nations Development Programme (UNDP), where he played a key role in shaping national economic policy and development planning.
He returned to CBN in 2011, bringing with him a wealth of international experience.

Over the course of his career, Dr. Okpanachi has authored more than 20 peer-reviewed publications in reputable academic journals. His research has contributed to the advancement of monetary policy analysis and economic development in Nigeria and beyond. In recognition of his expertise and leadership, he was appointed Director of Statistics at the CBN in March 2025

CITATION IN HONOUR OF BENJAMIN SISIMA OFURU, CStat (RSS, UK)
For the Award of Fellow of the
Chartered Institute of Statistics of Nigeria (CISON)

Benjamin Sisima Ofuru, CStat (RSS, UK), is a distinguished statistician, public-sector professional, researcher, educator, and data science practitioner whose professional journey reflects a sustained commitment to advancing official statistics, evidence-based policymaking, institutional development, and professional capacity building.
With over thirteen years of professional experience at the National Bureau of Statistics (NBS), Nigeria, Mr. Ofuru has contributed to the coordination, management, development, and utilisation of statistical information for national development. In his capacity as Assistant Director of Statistics and Head of Corporate Planning Division, he has demonstrated leadership in strategic planning, performance management, monitoring and evaluation, statistical coordination, and organisational development.
Throughout his career, Mr. Ofuru has contributed to strengthening Nigeria's statistical system through initiatives involving the National Coordination of Statistical Systems, coordination with Ministries, Departments and Agencies (MDAs), and the development of strategic planning frameworks, annual work plans, key performance indicators, and monitoring and evaluation tools. His professional engagements have also included work relating to the African Statistical Yearbook and collaboration with regional and international statistical development partners, including STATAFRIC, the African Development Bank, and the United Nations Economic Commission for Africa.
His academic background reflects a broad and multidisciplinary foundation spanning statistics, mathematics, economics, and management. He is rounding off a PhD in Statistics and pursuing a second PhD in Economics. His other academic qualifications include a Master of Science in Economics, a Master of Science in Mathematics and Statistics, a Postgraduate Diploma in Economics, a Postgraduate Diploma in Management, and a Bachelor of Science in Mathematics and Statistics. This combination of academic training equips him to integrate statistical theory, economic analysis, quantitative research, and management practice in addressing complex development challenges.
In recognition of his professional experience, leadership, contributions to statistical coordination and institutional development, commitment to research and education, and dedication to evidence-based decision-making, **Benjamin Sisima Ofuru, CStat (RSS, UK), is commended for the Award of Fellow of the Chartered Institute of Statistics of Nigeria (CISON).** His professional journey exemplifies a commitment to competence, integrity, innovation, service, and the continued advancement of the statistical profession in Nigeria.

INCOMING FELLOW

Professional Profile for Conferment of Fellowship on CISON

Dr. Chioma Peace Nwosu,
Deputy Director, Central Bank of Nigeria

Dr Chioma Nwosu is a statistician with over twenty-five years of professional experience in the banking industry, statistical practice, economic research, and financial sector analysis. She began her career as a banker in a commercial bank, where she gained practical experience in banking operations and a strong understanding of the financial system. In 2002, she joined the Central Bank of Nigeria (CBN), where she has risen to Deputy Director. Over the years, she has built a career combining statistics, economics, finance, and public policy, with a strong focus on using data to support sound decisionmaking and national economic management. Dr Nwosu is also an active researcher and has authored several scholarly publications. Her work demonstrates how statistical and econometric methods can be applied to practical economic and financial policy issues. Beyond her official responsibilities, she is committed to promoting statistical literacy and strengthening Nigeria's statistical profession. She serves as one of the Country Coordinators of the International Statistical Literacy Project (ISLP), an initiative of the International Association for Statistical Education (IASE). In this role, she contributes to improving public understanding of statistics and encourages the responsible use of data and statistical evidence in decision-making. She is a member of the International Statistical Institute and remains actively engaged with the Nigerian Economic Society. Her professional interests include statistical capacity development, responsible data use, and applying statistical knowledge to national development. Chioma Nwosu holds a PhD in Economics from the University of Bradford, United Kingdom. She also holds a master's degree in economics from ESUT Business School, Enugu, and a bachelor's degree in Statistics from Nnamdi Azikiwe University, Awka, where she emerged as the best graduating student in Statistics. Her commitment to continuous learning is further reflected in her specialised training in Data Science and Machine Learning at the MIT Schwarzman College of Computing. These academic and professional experiences have strengthened her statistical foundation and enhanced her capacity to address complex economic and financial challenges. Through her professional practice, research, leadership, and service to the statistical community, Dr Chioma Nwosu has consistently promoted the importance of statistics in sound policy formulation and institutional development. Her career journey, together with her contributions to research and statistical literacy, reflects professional excellence, sustained commitment, and dedicated service to advancing statistics in Nigeria.

Mohammed Usman (PhD). He was a Chief Lecturer in the Department of Statistics, and a pioneer Head of the Department, Federal Polytechnic Bali, Taraba State. He has held several strategic academic and administrative leadership positions, including Deanship, Director Academic Planning, Deputy Rector, Acting Rector, and served three time on the Polytechnic Governing Council. He is the Substantive Rector of the Polytechnic. He wrote three textbooks "*Introduction to Descriptive Statistics*", "*Applied General Statistics for Intermediate Level*", and "*Probability and Distribution Theory: Concept and Application*"

Two Research projects on "Statistical Analysis, with a lot of National and International publications. He is a member of Committee of Federal Rector (COFER) and North East zonal coordinator of the Committee. A Fellow Member, Institute of Corporate Administration of Nigeria (FICA), and Association of Business Specialist and Entrepreneurs (FABSE), and member of several Professional Bodies including, CISON, PSSN, TRCN.

CITATION OF DR. PIUS UBARI SIBEATE

Dr. Pius Ubari Sibeate is an accomplished Applied Statistician, Researcher, Education Administrator, and Public Servant whose professional career reflects the enduring value of statistical knowledge in institutional development, evidence-based policy making, and national progress. His work bridges academic research and practical public sector administration, demonstrating how Statistics can be transformed from numerical analysis into a strategic instrument for planning, governance, and sustainable development.

Dr. Sibeate began his formal education at State School 1 and St Pius X College, both in Bodo City, Gokana Local Government Area of Rivers State where he obtained his First School Leaving Certificate and West African School Certificate in 1982 and 1987 respectively.

He proceeded to the Rivers State University of Science and Technology (now Rivers State University), Port Harcourt, where he obtained the Bachelor of Science (B.Sc) Mathematics in 1992. Driven by a strong passion for statistical education and research, which he has nurtured since studying Statistics as a subject in Secondary School, he subsequently obtained a Master of Science (M.Sc) and Ph.D in Applied Statistics from the Rivers State University in 2014 and 2022 respectively. He also holds a Post Graduate Diploma in Education from the University of Port Harcourt.

Dr. Sibeate began his career in the Rivers State Civil Service as a Mathematics Teacher before his conversion into the main stream service as a Statistician and Education Planning Executive. Over the course of more than two decades at the Rivers State Ministry of Education, he has served in several positions of significant responsibility, including Acting Permanent Secretary, Director Planning, Research & Statistics (PRS), Chief Statistician, and Head of the Education management Information System (EMIS). He has also contributed his expertise to various technical committees, supporting education planning, policy development, administration, and data-driven decision making.

As an applied Statistician. Sibeate specializes in Time Series Analysis and Econometric Modelling, with particular expertise and research interests in exchange-rate forecasting using ARIMA, GARCH, intervention analysis, and Markov-switching VAR models. He has authored or co-authored more than 19 Peer-Reviewed Journal articles and conference papers, contributing to the advancement of statistical knowledge and its applications. His professional interests also extend to National Statistical Policy, EMIS Development, and the application of Artificial Intelligence to public policy and development planning.

He is a dedicated member of the Rivers State Chapter of the Chartered Institute of Statisticians of Nigeria (CISON). Beyond his professional engagements, Dr. Sibeate is happily married and is a devoted Christian.

Citation for the Award of Fellowship:

Mrs. Titilayo T. Hammed

Mrs. Titilayo T. Hammed is an eminent statistician, visionary leader, and cornerstone of national demographic data architecture in Nigeria. With over two decades of profound expertise spanning census data analysis, complex demographic surveys, and advanced survey sampling, Mrs. Hammed has consistently driven excellence at the intersection of theoretical statistics and national development.

Currently advancing her academic scholarship through a Ph.D. in Statistics at Nasarawa State University, Keffi, she holds a Master of Science in Statistics (2023) and a Bachelor of Science in Statistics (2000). Her rigorous academic foundation is further augmented by specialized international certifications from prestigious institutions, including Johns Hopkins University and the U.S. Bureau of the Census.

Distinguished Public Service and National Leadership

As a stalwart of the National Population Commission (NPC), Mrs. Hammed has played a transformative role in shaping Nigeria's demographic landscapes. Her career milestones include strategic contributions to the 2006 National Census and the pivotal preparatory phases of the 2022–2023 census operations. Today, she serves with distinction as the Census Manager for Nigeria's forthcoming Population and Housing Census, overseeing critical dimensions of data processing, survey instrument design, and nationwide capacity-building initiatives.

Her technical acumen has been central to the execution of landmark national health and demographic studies, having held key leadership roles in both the Nigeria HIV/AIDS Indicator and Impact Survey (NAIIS) and the Nigeria Demographic and Health Survey (NDHS).

International Continental Influence

Beyond domestic borders, Mrs. Hammed is a respected voice in African statistics, contributing her expertise to cross-border peer-monitoring and evaluation. She has lent strategic oversight to global census initiatives, including the 2021 Ghana Census and Cameroon's 2026 Fourth General Population and Housing Census combined with the General Agriculture and Livestock Census).

A prominent representative of Nigeria on the global stage, she actively shapes continental policy, notably participating in the United Nations Regional Workshop on the 2030 World Programme on Population and Housing Censuses in Africa (Pretoria, South Africa, August 2025) and serving as a strategic contributor at the Population and Housing Censuses Guidelines Validation Workshop for West and Central Africa (Cotonou, Republic of Benin, September 2026).

Professional Governance and Mentorship

A dedicated mentor and educator, Mrs. Hammed has facilitated numerous high-level workshops, empowering the next generation of statisticians in survey sampling, census management, and demographic analytics. Her exceptional field leadership is evidenced by her frequent deployment as State Coordinator and Facilitator for major national surveys.

In recognition of her institutional authority, she serves as a distinguished Council Member of the Chartered Institute of Statisticians of Nigeria (CISON), where she holds the high-level responsibility of representing the Chairman of the National Population Commission.

Conclusion

Mrs. Titilayo T. Hammed embodies the highest standards of professional integrity, technical mastery, and patriotic dedication. Her profound contributions to statistical science, demographic frameworks, and national development planning make her exceptionally qualified for the highest honors of her peers. Behind her illustrious professional journey is a grounded personal life; she is happily married and blessed with a supportive, lovely family.

Mr. Chairman, distinguished fellows, and members of the Institute, it is an honor to present Mrs. Titilayo T. Hammed for the conferment of the Fellowship of the Chartered Institute of Statisticians of Nigeria (CISON).

DR ATOI NGOZI VICTOR (FRSS)
STATISTICS DEPARTMENT
CENTRAL BANK OF NIGERIA, ABUJA

Dr Atoi Ngozi Victor is a distinguished statistician, financial analyst and accomplished professional with extensive experience in statistical practice, monetary and financial statistics, econometrics and data science. He currently serves as Head of the Survey Management Division in the Statistics Department of the CBN, where he leads the design and implementation of nationwide economic surveys that provide critical evidence for monetary policy, economic monitoring and national development.

Dr Atoi served as Managing Editor of the *CBN Journal of Applied Statistics* from 2018 to 2025 and remains a member of its Editorial Committee and that of the Bank's *Economic and Financial Review*. He is the Managing Editor and Secretary of the Editorial Board of the *JCISON*, where he has strengthened publication processes, embedded international best practices and advanced the Journal's global visibility through its integration with scholarly indexation infrastructure, including Crossref.

He is a Fellow of the Royal Statistical Society (United Kingdom), a member of the International Statistical Institute, and a faculty member of the CBN International Training Institute, Abuja. He has undertaken advanced professional training in Monetary and Financial Statistics with the IMF in the USA, and specialised training in Big Data Analytics in Indonesia. He holds BSc (Statistics), MBA (Finance), and MSc/PhD (Finance) degrees, and has published extensively in reputable peer-reviewed journals.

His sustained commitment to statistical excellence, professional service, research and capacity development makes him a worthy recipient of the **Fellowship of the Chartered Institute of Statisticians of Nigeria (FCISON)**.

CHARTERED INSTITUTE OF STATISTICS OF NIGERIA (CISON) 50TH ANNIVERSARY CELEBRATION & GOLDEN JUBILEE AWARDS CITATION IN HONOR OF PROFESSOR HARUNA RANN BAKARI

B.Sc. (Hons), M.B.A., M.Sc., Ph.D. (Statistics) | FSS, RSS, NSA, CISON
Professor of Statistics & Director of Academic Planning, University of Maiduguri
Editor, Journal of the Chartered Institute of Statistics of Nigeria (CISON)

1. PREAMBLE & DEDICATION

On this historic milestone of the Golden Jubilee (50th Anniversary) of the Chartered Institute of Statistics of Nigeria (CISON), we proudly celebrate and honor an outstanding scholar, visionary leader, and exemplary statistical practitioner: Professor Haruna Rann Bakari. Professor Bakari embodies the highest standards of academic excellence, selfless public service, and professional integrity, contributing significantly to the advancement of statistical science, university governance, and national development in Nigeria.

2. ACADEMIC PEDIGREE & QUALIFICATIONS

Born on October 10, 1968, in Gamboru, Kala Balge Local Government Area of Borno State, Professor Bakari began his educational journey at Kasugula Primary School, Bama (1976–1982), followed by Government Comprehensive Secondary School, Bama (1982–1988), and the College of Education Science and Technology, Bama (1988–1991), where he earned his Nigeria Certificate of Education (NCE). Driven by an unyielding thirst for mathematical and statistical knowledge, he proceeded to the prestigious University of Maiduguri, graduating with a Bachelor of Science (B.Sc. Hons) degree in Statistics in 1995.

Demonstrating exceptional commitment to multidisciplinary expertise, Professor Bakari went on to obtain a Master of Business Administration (M.B.A. in Banking and Finance) from the University of Maiduguri in 2000, a Master of Science (M.Sc.) in Statistics from Ahmadu Bello University, Zaria in 2006, and capped his academic pursuit with a Doctor of Philosophy (Ph.D.) in Statistics from Usmanu Danfodiyo University, Sokoto in 2011.

3. SCHOLARLY CAREER & UNIVERSITY LEADERSHIP

Professor Bakari's illustrious teaching career spans over three decades, beginning as an Assistant Headmaster at Old-Bama Primary School (1991–1996), then as a Lecturer at Umar Ibn Ibrahim College of Education Science and Technology, Bama (1996–2002). In 2002, he joined the Department of Statistics, University of Maiduguri, as a Graduate Assistant and rapidly rose through the academic ranks—Lecturer II (2006), Lecturer I (2008), Senior Lecturer (2010), Reader (2012), to attaining the revered rank of Full Professor of Statistics in 2015.

In university governance, Professor Bakari has demonstrated extraordinary administrative acumen. He served as Head of the Department of Mathematical Sciences (2014–2019), Sub-Dean of the Faculty of Physical Sciences (2021–2023), University Coordinator for Examinations and Timetable (2020–2025), and currently serves as the Director of Academic Planning at the University of Maiduguri (2025–Date). Additionally, he serves as Desk Officer for the Diaspora Bridge and Focal Point Officer for the Nigeria Education Repository and Databank (NERD), while maintaining continuous membership in the University Senate since 2014.

4. EDITORIAL LEADERSHIP & SERVICE TO CISON

A stalwart of the statistical profession, Professor Bakari has rendered landmark service to professional statistical bodies in Nigeria and globally. He currently serves as the Editor of the Journal of the Chartered Institute of Statistics of Nigeria (CISON) (2026–Date), providing editorial foresight, promoting rigorous empirical research, and upholding international scholarly standards.

His editorial leadership extends across major statistical platforms, having served as Editor-in-Chief for the Royal Statistical Society (RSS) Nigerian Local Group (2022–2023) and Editor of the Journal of the Nigerian Statistical Association (JNSA, 2022–2023). He is an active professional member of the Nigerian Statistical Association (NSA), Royal Statistical Society (RSS), Teachers' Registration Council of Nigeria (TRCN), and the International Research and Development Institute.

5. RESEARCH ACHIEVEMENTS & MENTORSHIP

With over 25 years of dedicated research experience, Professor Bakari has authored over 60 high-impact scholarly publications in reputable national and international peer-reviewed journals, alongside an authoritative textbook entitled 'Introduction to the Techniques of Population Studies' (ABU Press Zaria, 2022). His research breakthroughs cut across stochastic modeling, time series analysis, VAR/VECM modeling, survival analysis, volatility modeling (GARCH processes), and applied statistical methodology in public health, agriculture, and macroeconomics.

As a passionate mentor and academic supervisor, Professor Bakari has successfully supervised 25 Master's degree students and 4 Ph.D. candidates, nurturing the next generation of statisticians, researchers, and data scientists across Nigeria. He has also served as Visiting Professor and External Examiner to numerous institutions, including Ahmadu Bello University Zaria, Modibbo Adama University Yola, Usmanu Danfodiyo University Sokoto, Abubakar Tafawa Balewa University Bauchi, International University of Africa Khartoum (Sudan), and Nasarawa State University Keffi, as well as leading NUC accreditation and resource verification teams across the nation.

6. CONCLAVE OF HONOR

For his unwavering dedication to statistical science, his scholarly rigor, exemplary leadership as Editor of the Journal of CISON, and his immense contributions to academic administration and national statistical development, the Chartered Institute of Statistics of Nigeria (CISON) is immensely proud to present and celebrate ***PROFESSOR HARUNA RANN BAKARI*** *on the momentous occasion of its 50th Golden Jubilee Anniversary.*

Congratulations to a distinguished academic, a stellar mentor, and a worthy ambassador of Statistics!

CITATION OF PROF. HARRISON OGHENEKEVWE ETAGA

Prof. Harrison Oghenekevwe Etaga is an Urhobo man who hails from Otor-Edo, Ughelli South LGA of Delta State. Born to the family of Mr and Mrs M. O. Akporido in the early 70's. He attended Ogbavweni Primary school for his primary education. Went to Usiefrun Grammar School and Uwheru Grammar School for secondary school and University of Nigeria Nsukka for his BSc in Statistics/Economics. He served the Nation in Anambra, did his MSc and PhD in Statistics at the Nnamdi Azikiwe University Awka. He is a season lecturer. He started his lecturing career in 2002 as a Graduate Assistant and rose through the ranks to become a professor in 2023. He has supervised many students both at the Post-Graduate and Undergraduate levels. He has lots of publications both in local and international journals. He has more than a 100 awards, and has held so many positions both in the University and the society. A one-time sub-dean of the faculty of Physical Sciences, Financial Secretary of ASUU, NAU, Vice-Chairperson of ASUU NAU, Deputy Director of Quality Assurance and Certificate Verification, Chairman, CMO St Patrick's Awka etc. He was a facilitator of more than five PRS during NSA years. He loves Statistics and hence dedicated his life to the growth of Statistics through grooming of young statistician. He was a Staff adviser of the students Association for more than fifteen years. He facilitated the inauguration of the students wing of CISON in Nnamdi Azikiwe University, Awka and environs this is in the spirit of catch them young. He loves farming and has some farms. He is married to Mrs. Njideka Cecilia Etaga and the marriage if blessed with five children (all boys).

Mrs Ben-Obi Onyewuchi Amaechi is a Deputy Director in the Research Department of the Central Bank of Nigeria with over 20 years of experience in research and central banking. She is a distinguished financial analyst and specializes in monetary and financial statistics. She has a BSc (Economics); PGD (Education); MSc (Economics) and PhD (Economics). Following her love for professionalism, she is a registered member of the Chartered Institute of Statisticians of Nigeria (CISON), Nigerian Economic Society (NES), Chartered Institute of Management Accountants (CIMA) and Congress for Sustainable Development of Nigeria (CSDN). Over the years she has authored and co-authored many research publications in both local and international Journals. Her hobbies include, Coaching & Mentoring, Cooking and Travelling. She is happily married with children.

PROFILE OF

OLORUNFEMI OLUTOPE

Olorunfemi Olutope is an accomplished professional in the fields of economics and statistics, with over two decades of experience in central banking, official statistics, survey methodology and management, and organisational leadership.

She commenced her professional career with United Bank for Africa (UBA) in 2001 and joined the Central Bank of Nigeria (CBN) in August 2002 as an Assistant Economist in the Research Department. In 2008, she transferred to the Statistics Department, where she served in various capacities, including Field Officer, Data Analyst and Head of the Survey Management Division. These roles provided her with extensive experience in survey design and implementation, data collection, statistical analysis and the coordination of statistical operations.

As Head of the Survey Management, Olorunfemi demonstrated strong technical and transformational leadership by leading a team that automated the analysis of survey returns, significantly improving operational efficiency and reducing the time required for processing survey data. She also spearheaded the transition from physical to online surveys, advancing the digitalisation of survey operations, reducing reliance on manual processes and supporting more efficient data collection.

In furtherance of inter-agency collaboration and the strengthening of Nigeria's statistical system, she led collaborative survey initiatives involving the National Bureau of Statistics (NBS), the National Population Commission (NPC) and State Bureau of Statistics (SBS). These engagements promoted institutional cooperation and supported the collection and production of relevant statistical information for economic analysis and policy formulation.

She currently serves as the Administrator of the Statistics Department of the Central Bank of Nigeria, where she provides administrative and operational leadership, coordinates departmental resources and supports the effective delivery of the Department's mandate. Her professional experience combines technical expertise in statistics and survey management with strategic administration, team leadership, stakeholder engagement and process improvement.

Olorunfemi Olutope's career is distinguished by her commitment to statistical innovation, institutional collaboration, operational excellence and the advancement of reliable statistics for evidence-based decision-making. Her contributions to the modernisation of survey processes and the strengthening of collaborative statistical activities reflect her dedication to the development of the statistical profession and national development.

CITATION FOR THE CONFERMENT OF FELLOWSHIP

ABUBAKAR INUWA TATA

Deputy Director and Head, Real Sector Statistics Division,
Statistics Department, Central Bank of Nigeria

Abubakar Inuwa Tata is a distinguished economist, statistical professional and public sector reformer with over 23 years of experience in economic statistics, research, public financial management and evidence-based policymaking. He currently serves as Deputy Director and Head of the Real Sector Statistics Division, Statistics Department, Central Bank of Nigeria (CBN).

He has made significant contributions to the development of Nigeria's National Statistical System, particularly in the compilation and methodological improvement of national accounts, consumer price statistics and external sector accounts. His work in CPI compilation and rebasing encompasses the development and refinement of analytical indices covering food and non-food inflation, goods, services, energy and imported food, enriching inflation analysis and the evidence available for monetary policy decisions.

In external sector statistics, he contributed to the compilation and analysis of the Balance of Payments (BOP) and International Investment Position (IIP). Notably, he served as Nigeria's focal point for the harmonisation of BOP and IIP statistics in the West African sub-region, supporting regional statistical comparability and contributing to the establishment of Nigeria's National Balance of Payments Technical Committee.

As Head of Real Sector Statistics, he provides leadership in the compilation and analysis of output, prices, industrial and agricultural performance and other economic indicators, while promoting high-frequency monitoring, statistical innovation and collaboration with national statistical institutions. Previously, as Head of the CBN Statistical Method Office and Managing Editor of the CBN Journal of Applied Statistics, he advanced methodological development, research dissemination and professional standards.

His commitment to data-driven leadership extends beyond central banking. As Executive Chairman of the Gombe State Internal Revenue Service and Chairman of the State Fiscal Responsibility Commission, he championed digital revenue administration, fiscal transparency and institutional reforms. Internally generated revenue rose from ₦6.8 billion in 2019 to ₦13.14 billion in 2022. He received the National Productivity Centre's 2021 Most Outstanding Chairman of Internal Revenue Service Award and recognition as a USAID State2State Reform Champion.

A World Bank Scholar and alumnus of Columbia University's School of International and Public Affairs, he exemplifies the use of statistical evidence to strengthen public institutions, inform policy and advance national development.

His conferment as a Fellow of the Chartered Institute of Statisticians of Nigeria is a fitting recognition of his outstanding contributions to statistical development, professional leadership and evidence-based policymaking in Nigeria and the West African sub-region.

Citation of Mr. Peter Nweke Okafor, fondly known as PN, is a distinguished statistician, economist, and retired Director of the Central Bank of Nigeria (CBN), whose career reflects sustained commitment to statistical practice, economic policy, institutional development, and national service.

He obtained a Professional Diploma in Statistics in 1988 and a Bachelor of Science degree in Statistics both from the University of Ibadan in 1992. He later completed the Master's in Economic Policy Management programme at Columbia University, New York, in 2002, graduating with honours. His professional development has also included courses and engagements involving leading international institutions, including the World Bank, the International Monetary Fund, the Bank of England, and the Federal Reserve Bank of New York.

Mr. Okafor began his public service career in the statistical cadre of the former Bendel State Civil Service and subsequently served in Delta State. In June 1993, he joined the Central Bank of Nigeria, where he spent about 25 years contributing to research, financial statistics, monetary policy, liquidity management, forecasting, and financial programming. He rose through the ranks to become a Director in 2018 and held key responsibilities, including Head of the Monetary Programme Office and service with the Monetary Policy Implementation Committee Secretariat.

Beyond his central banking career, he has served as a resource person for the CBN Learning Centre and the West African Institute for Financial and Economic Management (WAIFEM). He has published peer-reviewed articles, represented the Bank at local and international fora, and presented papers on monetary policy and central banking. He is currently the Chief Executive Officer and Team Lead of Pino-Rising Ventures Limited, a consultancy outfit specialising in data analytics and professional training.

A member of the Nigerian Statistical Association, now CISON, and other professional bodies, Mr. Okafor has demonstrated leadership, mentorship, and a strong commitment to human and community development. His professional record was also recognised through the CBN Monetary Policy Department Best Staff Award of the Quarter in 2014.In recognition of his academic grounding in statistics, distinguished public service, contributions to monetary policy and statistical practice, professional leadership, and commitment to capacity development, **Mr. Peter Nweke Okafor is eminently deserving of the conferment of Fellow of the Chartered Institute of Statisticians of Nigeria (CISON).**

CHARTERED INSTITUTE OF STATISTICANS OF NIGERIA
3rd International Conference - Abuja 2026

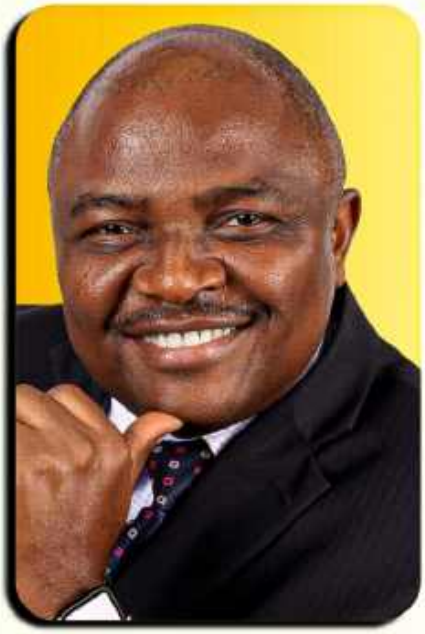

FELLOWSHIP CITATION - INCOMING MEMBER

Congratulations!

Michael Kalu Mba, PHD

Deputy Director, Central Bank of Nigeria

Economic-Statistican | Data Scientist | Policy Expert | Researcher

Incoming CISON Fellow 2026

Dr. Michael Kalu Mba is a distinguished economic-statistician, data scientist, policy expert, and researcher specializing in macroeconomic statistics, data management, and policy-driven research. He currently serves as a Deputy Director at the Central Bank of Nigeria (CBN), where he leads initiatives in big data analytics, statistical methodologies, monetary policy, and economic policy research.

Dr. Mba holds a PhD in Public Policy and Administration from Walden University USA, a Master of Engineering in Electronic Engineering (ICT), Post Graduate Diploma in Banking & Finance, and Bachelor of Science in Statistics all from the University of Nigeria, Nsukka. His expertise spans monetary policy design, econometrics modeling, impact evaluation, survey design, data analytics, business intelligence, information security, strategic planning, and risk management.

As a senior teaching fellow and mentor, Dr. Mba is actively involved in academia, mentoring doctoral students in quantitative analysis, statistics, and econometrics, including the Blavatnik School of Government, Oxford University in the UK. A recognized thought leader, he has facilitated professional workshops across Africa, including courses on GDP harmonization, macroeconomic statistics, gender and national accounts, and statistical process automation.

Dr. Mba has authored and co-authored several peer-reviewed journal articles, including publications on monetary and fiscal policy, data mining, and macroeconomic issues. He has also contributed to CBN's Working Paper Series and Journal of Applied Statistics as editor and reviewer. His research interests include macroeconomic policy analysis & forecasting, financial inclusion, housing policy, and impact evaluation.

His contributions to his professional fields have earned him memberships in prestigious organizations such as the Nigerian Economic Society (NES), Chartered Institute of Statisticians of Nigeria (CISON), International Statistical Institute (ISI), American Statistical Association (ASA), Association for Public Policy Analysis & Management (APPAM), and Society for Benefit-Cost Analysis (SBCA). He is an Honourary Senior Fellow of Chartered Institute of Bankers of Nigeria (HCIB) and serves as the CBN Representative in the CISON Governing Council and Board of the Irvin Fisher Committee (IFC) on Central Bank Statistics at Basel, Switzerland.

SERVICE TO CISON

- Secretary, Accreditation Committee
- Secretary, Certification Committee
- Chairman, 2025 NOC for 2nd International Conference at Asaba, Delta State
- State Chapters Governance Guideline and Structure Committee
- Chairman, 2026 NOC for 2nd International Conference at Abuja, FCT

MEMBERSHIP OF NATIONAL COMMITTEES RELATED TO STATISTICS

- Technical Committee: National Integrated Beneficiary Register (NIBR).
- Technical Committee: Small Firms Diary Project – Gates Foundation, NWU & NBS.
- TWG Geo-Referenced Infrastructure and Demographic Data for Development (GRID3).
- TWG Multiple Indicator Cluster Surveys (UNICEF, WHO & NBS).
- Inter-agency Household Finance, Consumption & Remittance Surveys (CBN, NBS, NPC).
- TWG Nigeria Real Estate Data Collation Programme (NREDCMP).

GOODWILL MESSAGE TO CISON @50

GOLDEN JUBILEE

It is with great pride that I congratulate the Chartered Institute of Statisticians of Nigeria (CISON) on its Golden Jubilee, celebrating fifty years of commitment to statistical excellence and national development.

Having been part of the profession's journey from the Nigerian Statistical Association (NSA) to CISON, I am delighted to witness this significant milestone. Statistics remains essential to evidence-based policymaking, effective governance and sustainable development.

As Permanent Secretary, Ministry of Economic Planning and Budget, Lagos State, I recognise the importance of strengthening statistical capacity, embracing digital innovation and promoting the professional growth of statisticians. I also commend CISON Lagos Chapter for its commitment to unity and the advancement of the profession.

As we celebrate this milestone, I urge CISON leadership and members to invest in the next generation of statisticians, embrace emerging technologies, uphold the highest professional standards and strengthen partnerships with government, academia and industry. Let us turn the achievements of the past fifty years into renewed action that makes statistics more relevant, accessible and impactful in Nigeria's development.

May this Golden Jubilee inspire us all to build a stronger, more innovative and influential Institute.

Happy Golden Jubilee to CISON!

Mrs. Olajinka Modupe Ojo
Permanent Secretary
Ministry of Economic Planning and Budget
Lagos State Government

Prof. Haruna R. Bakari

Prof. Haruna R. Bakari is a distinguished statistician, academic and professional leader with a longstanding commitment to the advancement of statistics and the development of the statistical profession in Nigeria.

His association with the **Chartered Institute of Statisticians of Nigeria (CISON)** reflects a sustained commitment to professional excellence and the growth of statistics. He has served as an **Editor of the Journal of the Nigerian Statistical Association (JNSA)** and continues to contribute to the profession as an **Editor of the Journal of the Chartered Institute of Statisticians of Nigeria (JCISON)**.

Prof. Bakari currently serves as **Chairman of the CISON Certification Committee**, where he contributes to the development, standardisation and strengthening of professional certification and assessment processes. He is also a member of both the **Accreditation Committee** and the **Electoral Committee**, contributing to the Institute's professional standards, governance and institutional development.

As an academic and researcher in Statistics, his interests span **Applied Statistics, Biostatistics, Sampling, Experimental Design, Time Series, Econometrics and Machine Learning**. Through his academic, editorial and professional engagements, he has consistently promoted the application of statistical knowledge, professional ethics and high standards in statistical education and practice.

His contributions to JNSA, JCISON and CISON demonstrate a career-long dedication to **preserving the heritage, strengthening the institutions and advancing the future of statistics in Nigeria**.

As CISON celebrates 50 years of statistics, Prof. Haruna R. Bakari is honoured as one of the professionals whose service and commitment continue to contribute to the growth and development of the statistical profession.

CONGRATULATIONS TO THE CHARTERED INSTITUTE OF STATISTICIANS OF NIGERIA

I warmly felicitate with all members of the Chartered Institute of Statisticians of Nigeria on the remarkable achievement of 50 years of existence.

This Golden Jubilee is a great milestone and a testimony to the dedication, commitment and contributions of past and present members. We also celebrate the successful transition from an Association to a Chartered Body in 2022, which has further strengthened the Institute's role and recognition in the statistics profession.

As we celebrate this significant achievement, I wish the Institute greater success, growth and more impactful years ahead. May we continue to uphold professionalism, integrity and excellence while using statistics to contribute meaningfully to the development of our nation.

To every statistician and professional in related fields who is not yet a member, this is the time to join the wagon! Let us come together, strengthen our profession and use our knowledge and expertise to help build a better Nigeria.

Congratulations to us all on 50 glorious years. More successful years ahead!

Long live Chartered Institute of Statisticians of Nigeria!!

Long live Nigeria!!!

Advancing Statistical Excellence for National Development

A Stewardship of Progress and a Vision for the Future

By Dr. Mohamed M Tumala, FNSS
Former Vice President and Two-Term President,
Nigerian Statistical Association (NSA)

As the Nigerian Statistical Association (NSA) marks its golden jubilee, a monumental 50 years of service to the statistical profession, it is with a profound sense of fulfillment and a deep well of hope that I extend my heartfelt congratulations to the entire membership and the governing council on this historic milestone. This anniversary is not merely a celebration of time; it is a celebration of resilience, intellectual rigor, and the unyielding pursuit of excellence. It is particularly poignant as this golden jubilee coincides with the inauguration of the Chartered Institute of Statisticians of Nigeria (CISON), a new dawn that elevates our profession to a status it has long deserved.

Having been privileged to serve first as Vice President and subsequently as President for two consecutive terms, I have witnessed firsthand the evolution of our Association. The journey from a learned society to a chartered professional body has been arduous, yet it has been navigated with collective resolve. I am deeply honoured by the trust reposed in me to lead the Association during a critical phase of its transformation, and it is with a sense of humility and gratitude that I reflect on the stewardship of my tenure.

My tenure at the helm of the NSA was guided by a three-pronged vision: to enhance the academic and professional output of our members, to solidify the financial foundation of the Association, and to ensure the legal and institutional framework necessary for our transition to CISON was secured. I am proud to state that significant progress was made across all these fronts.

Revitalizing the Journal of the Statistical Association of Nigeria

A professional body is only as strong as its intellectual contributions. Recognizing that our flagship Journal of the Statistical Association of Nigeria is the mirror of our scholarly identity, we prioritized its revitalization. We established a functional, robust, and globally conscious editorial board, bringing together seasoned academics and practitioners to ensure rigorous peer-review processes. Furthermore, we undertook a comprehensive overhaul of the Journal's printed presentation, enhancing its aesthetic quality, readability, and production standards. This effort was aimed at ensuring that our research outputs could compete favourably with international standards, thereby elevating the global visibility of Nigerian statisticians.

Strengthening Financial Integrity and Sustainability

Leadership is synonymous with stewardship, and stewardship demands financial accountability. Upon assuming office, we inherited a challenging financial landscape. Through prudent financial management, rigorous internal controls, and a strategic focus on diversifying revenue streams, we successfully turned our end-of-year balances from a deficit position to a robust surplus exceeding 30 million Naira. This financial turnaround was not just about figures on a balance sheet; it was about creating a sustainable financial structure that could support the Association's ambitions without compromising its independence. This solid financial footing laid the groundwork for the resources required to pursue the legislative agenda for the CISON Bill.

Spearheading the Transition to the Chartered Institute

The journey toward the establishment of CISON was a defining mission of my administration. We understood that for the statistical profession to achieve its full potential in Nigeria, it required the statutory backing and recognition afforded by a Chartered status. During my tenure, we made

When I joined the Governing Council in 2010, we had common determinations!

momentous strides in this regard. We finalized the draft Act, engaging with legal experts and stakeholders to ensure it captured the aspirations of all members. We presented this draft to the National Assembly and navigated the complex corridors of legislative processes. It is with immense joy and satisfaction that I recall the eventual passage of the Act by both the House of Representatives and the Senate, a legislative victory that stands as a crowning achievement of our collective efforts.

Representation on National and International Stages

A profession does not exist in a vacuum; it thrives on collaboration and visibility. I had the distinct honour of representing the Association on several critical platforms. Serving on the Board of the National Bureau of Statistics (NBS) provided a unique opportunity to bridge the gap between academic theory and governmental policy, ensuring that the voice of the statistician was heard at the highest levels of national data management. Similarly, my representation at the African Statistical Association allowed us to benchmark our progress against continental standards, fostering partnerships that have enriched our professional practice.

A Goodwill Message to CISON

As we celebrate 50 years of the NSA and the birth of CISON, I extend my most profound goodwill to the new Institute. To the inaugural Governing Council and the Registrar, I offer my unwavering support. You carry the torch of a profession that is indispensable to national development, economic planning, and democratic accountability.

My advice to the new leadership is simple: maintain the momentum. The transition from Association to Institute is a beginning, not an end. The Chartered status comes with greater responsibilities, responsibilities to uphold the highest standards of ethical practice, to enforce continuous professional development, and to protect the integrity of the profession. I urge CISON to be inclusive, to embrace innovation in statistical methods, and to remain a vocal advocate for evidence-based policy in Nigeria.

To the younger generation of statisticians, I say this: you are the inheritors of a proud legacy. The hard work of decades has secured your charter. It is now your duty to build upon this foundation, to take the profession to even greater heights, and to ensure that the Institute of Statisticians of Nigeria stands as a beacon of excellence in Africa and the world.

I wish CISON a future filled with outstanding achievements, growth, and service to the nation. Congratulations to us all on a golden 50 years, and a prosperous future as the Chartered Institute of Statisticians of Nigeria.

God bless the Chartered Institute of Statisticians of Nigeria.
God bless the Federal Republic of Nigeria.

International Conference

It is with great joy and honour that I join the Chartered Institute of Statisticians of Nigeria (CISON) in celebrating its remarkable 50th Anniversary. As a proud member of the Institute over the years, I am delighted to witness this significant milestone and to be part of its journey of growth, professionalism and excellence.

Over the past five decades, CISON has played a vital role in promoting the statistical profession and contributing to evidence-based decision-making and national development. I commend the leadership, members and pioneers of the Institute for their dedication and invaluable contributions.

As we celebrate this Golden Jubilee, I wish CISON greater accomplishments, increased professional recognition and a stronger impact in the years ahead.
Congratulations on 50 years of excellence and service. Here's to many more glorious years!!!!!!

From **Bassey Odey Obule (Mrs.)**
Senior Manager, Nigerian Midstream and
Downstream Petroleum Regulatory Authority (NMDPRA)

Celebrating 50 YEARS OF STATISTICAL PROFESSION

I extend my warmest congratulations to the Chartered Institute of Statisticians of Nigeria on its Golden Jubilee

As we celebrate this milestone, I pray the next 50 years bring greater impact as we harness data and statistics for a stronger and more prosperous Nigeria.

Cheers to Statisticians, CISON and Nigeria.

Dr. Yvonne Asikiye Da-Wariboko
Department of Mathematics, Rivers State University.
Member, CISON Rivers State Chapter.

ETHICAL USE OF AI IN STATISTICAL ANALYSIS

Artificial intelligence (AI) is rapidly transforming statistical practice by supporting data processing, modelling, interpretation and reporting. However, greater efficiency must not come at the expense of statistical integrity.

Ethical AI-assisted statistical analysis requires accuracy, transparency, privacy, fairness, reproducibility and human oversight. AI-generated outputs should be independently validated for statistical correctness, methodological suitability, errors, bias and misleading conclusions.

For example, an AI model may produce a technically impressive statistical result, but if the underlying data are biased, the model is poorly specified, or its assumptions are violated, the result may still be misleading. A statistically wrong conclusion does not become correct simply because it was produced by sophisticated technology.

Professional guidance from the National Institute of Standards and Technology (NIST) and the American Statistical Association (ASA) reinforces the importance of trustworthy and responsible AI. UNESCO also emphasises meaningful human oversight and accountability.

Statisticians and analysts must protect confidential data, document the role of AI in their analytical processes, and retain responsibility for the conclusions they publish.

Ultimately, AI should enhance statistical expertise, not replace it. The responsibility for sound methodology, professional judgement and ethical statistical conclusions remains with the human analyst.

Key References: NIST, Artificial Intelligence Risk Management Framework (AI RMF 1.0); American Statistical Association, Ethical Guidelines for Statistical Practice; UNESCO, Recommendation on the Ethics of Artificial Intelligence.

IBRAHIM BABANGIDA LAWAL.

CELEBRATING CISON AT 50: FIVE DECADES OF ADVANCING STATISTICAL EXCELLENCE IN NIGERIA

It is a great honour to join fellow statisticians, researchers, academics, data professionals and distinguished members in celebrating the Golden Jubilee of the Chartered Institute of Statisticians of Nigeria (CISON), formerly the Nigerian Statistical Association (NSA).

As a registered member of CISON, university academic, statistician, data scientist and researcher, my professional journey has been strongly shaped by the values that CISON represents: statistical excellence, professional integrity, evidence-based decision-making, innovation and service to society.

My contributions to the statistical profession and the ideals of CISON include:

i. Teaching and mentoring undergraduate and postgraduate students in Statistics, Data Science, Statistical Computing and Research Methodology.

ii. Supervising and supporting research addressing important national and societal challenges in public health, education, climate change, economic development, survey sampling and machine learning.

iii. Conducting advanced research in calibration estimation, survey sampling, non-response, measurement error, successive sampling and statistical modelling.

iv. Applying statistical and machine-learning techniques to real-world problems, including hypertension prediction, diabetes risk modelling, educational performance, climate variability and economic forecasting.

v. Promoting the effective use of statistical software and analytical tools, including R, Python, Julia, Nvivo, SPSS, Stata, SAS, Mapple, MATLAB and Power BI/Tableau, etc.

vi. Encouraging young researchers and students to embrace professional ethics, methodological rigour, reproducible research and evidence-based decision-making.

vii. Contributing to academic leadership, curriculum development, examination administration and the advancement of statistical education at Aliko Dangote University of Science and Technology, Wudil.

viii. Promoting the visibility and public understanding of Statistics through professional engagements, workshops, academic publications and educational content.

GOODWILL MESSAGE

On this historic occasion of CISON's 50th anniversary, I warmly congratulate the President, Council, Fellows, members, state chapters and the entire statistical community on five remarkable decades of professional service and national development.

From its foundation as the Nigerian Statistical Association to its present status as the Chartered Institute of Statisticians of Nigeria, the Institute has remained an important platform for advancing statistical knowledge, strengthening professional standards and promoting the responsible use of data in Nigeria.

As we celebrate this Golden Jubilee, I encourage CISON to continue championing statistical literacy, data integrity, professional certification, technological innovation and stronger collaboration among academia, government, industry and the international statistical community.

May the next fifty years usher in greater visibility, stronger institutional development and expanded opportunities for statisticians to contribute meaningfully to Nigeria's progress. May CISON continue to nurture a new generation of professionals equipped to transform data into knowledge, knowledge into policy and policy into sustainable development.

Congratulations to CISON at 50. This is our Institute, our profession, our legacy and our celebration.

Long live CISON!

Long live the statistical profession!

Long live the Federal Republic of Nigeria!

OLAWOYIN O. Ishaq, PhD
Senior Lecturer, Department of Statistics
Faculty of Computing and Mathematical Sciences
Aliko Dangote University of Science and Technology, Wudil
MCISON, MPSSN, MRSS, MSAN
Data Scientist | Statistician | Researcher | Educator

Congratulations

On the occasion of the Golden Jubilee, I heartily congratulate the Chartered Institute of Statisticians of Nigeria on 50 years of excellence in advancing statistical practice, research, and professional standards in Nigeria.

To CISON, your commitment to data integrity and national development has been unwavering.

I joined the Institute in 2009 during the NSA era and had the privilege to serve the Rivers State Chapter as Treasurer and Secretary. By God's grace, I was re-elected in 2026 and currently serve as General Secretary till date.

May this milestone usher in greater impact, relevance, and global recognition.
Congratulations and here's to 50 more years of distinction.

Hon. Daniels Blessing Derefaka (Mrs)
General Secretary, Rivers State Chapter - CISON
_Head, Economic Statistics,
Rivers State Statistical Agency, Ministry of Budget and Economic Planning

As a proud member,
I, Dr Awa Ogbonnaya Dike,
celebrate the Chartered Institute of Statisticians of Nigeria at 50 years of excellence.

Thank you CISON for 5 decades of promoting professionalism, credible data, and national development.
Cheers to more impact!

Congratulations CISON@50

It is with immense joy and profound gratitude that I join fellow members, distinguished statisticians, associates, and stakeholders in celebrating the Chartered Institute of Statisticians of Nigeria (CISON) at 50.

Five decades of existence is a remarkable milestone and a testament to the Institute's enduring commitment to the advancement of statistical science, professionalism, research, education, and evidence-based decision-making in Nigeria.

Before I joined CISON, I served as the Vice-President of the Nigerian Statistical Association (NSA), Abuja Chapter. It was a truly memorable and rewarding period, marked by meaningful capacity-building programmes for members and courtesy visits to NSA members across various Ministries, Departments and Agencies (MDAs). These activities provided valuable opportunities to strengthen professional relationships, promote the relevance of statistics, and foster collaboration among members and stakeholders.

As a member of CISON, I celebrate the leadership, past and present, for their vision, dedication, and invaluable contributions to the growth and development of the Institute. CISON has continued to play a significant role in promoting the relevance of statistics in national development, policy formulation, planning, governance, business, and socioeconomic transformation.The 50th Anniversary is not only a celebration of our achievements but also an opportunity to renew our commitment to excellence, innovation, integrity, and professionalism as statisticians. I am confident that CISON will continue to attain greater heights and remain a leading voice in the statistical profession in Nigeria and beyond.

May the Institute continue to flourish, attract greater recognition, empower future generations of statisticians, and contribute even more significantly to Nigeria's development.

Happy 50th Anniversary to the Chartered Institute of Statisticians of Nigeria.

Congratulations to CISON on 50 glorious years of excellence and impact.

Long live CISON.
Long live the statistical profession.
Long live the Federal Republic of Nigeria.

Best wishes.

Prof. Sarah Olanrewaju
Anyanwu (FNES, FCMA).

Felicitation

Pst. Prof. Joy Chioma Nwabueze

First Female Professor of Statistics in Nigeria. First Deputy Vice-Chancellor (Administration), Michael Okpara University of Agriculture, Umudike (MOUAU). 2nd Vice- President of NSA

Warmly congratulates the Chartered Institute of Statisticians of Nigeria (CISON) on the celebration of its Golden Jubilee — 50 Years of Excellence, Service and Impact.

I commend CISON for its enduring commitment to promoting professional excellence, advancing statistical standards, and strengthening the role of statistics in Nigeria's development. Fifty years of impact is indeed worthy of celebration.

May the future of CISON continue to rise to greater heights, with its influence extending across Nigeria and beyond. May its standards remain a beacon of excellence, its contributions shape evidence-based development, and its legacy inspire generations of statisticians to come.

Happy Golden Jubilee, CISON!
Congratulations on Your 50 Years of Excellence and Service!

#CISON@50

FROM ASPIRATION TO MEMBERSHIP: CELEBRATING CISON AT 50

It is with immense joy and profound gratitude that I join fellow statisticians, professionals, and well-wishers in celebrating the **50th Anniversary of the Chartered Institute of Statisticians of Nigeria (CISON)**.

This celebration is particularly meaningful to me because of my long-standing interest in the professional statistical body. About two decades ago, when the association was known as the **Nigerian Statistical Association (NSA)**, I had the desire and aspiration to identify with the association and contribute to the advancement of the statistical profession in Nigeria. Although I could not join at that time, I am deeply delighted that today, that long-standing aspiration has become a reality.

Becoming a member of CISON at this significant stage of my professional career gives me a profound sense of fulfilment. As a professional Statistician, I am happy to be part of an institution that has remained committed to promoting statistical development, professionalism, capacity building, and the effective application of statistics to national development. For me, joining CISON is not merely an accomplishment; it is an opportunity to contribute meaningfully to the Institute's mission and to the continued growth of the statistical profession in Nigeria.

I sincerely appreciate **the Director-General/CEO of the Industrial Training Fund, Dr. Afiz Oluwatoyin Ogun, and the Management Team of ITF** for their invaluable support and unwavering commitment to staff development and professional growth.

As CISON celebrates 50 years of service and impact, I wish the Institute many more decades of excellence, greater professional influence, and continued contributions to statistical development in Nigeria.

Happy 50th Anniversary to CISON!
LIKOLO OLUFEMI MICHEL
Chief Training Development Officer, Training Department, Industrial Training Fund
Member/Financial Secretary, CISON Lagos State Chapter

GOODWILL MESSAGE ON CISON'S 50TH ANNIVERSARY

It is with great pride that I congratulate the Chartered Institute of Statisticians of Nigeria
(CISON) on its historic 50th Anniversary, it's Golden Jubilee.
Five decades of CISON represent an enduring commitment to advancing statistical science, professional excellence, capacity development, and evidence-based decision- making in Nigeria.

As a statistician and doctoral researcher, this milestone is particularly meaningful to me. My research continues to reinforce a fundamental truth of our profession: data attain their greatest value when sound statistical methods transform them into evidence for better decisions and improved human outcomes.

As statistics evolves through advanced modelling, data science, artificial intelligence, and emerging analytical methods, CISON has an important role in preparing professionals who can transform increasingly complex data into meaningful knowledge while upholding statistical rigour and ethical standards. This Golden Jubilee should therefore celebrate not only 50 years of remarkable achievements, but also the beginning of a more innovative and impactful future for the statistical profession in Nigeria.

I congratulate the leadership, Fellows, past leaders, chapters, and entire membership of CISON for sustaining this great professional institution.
Happy 50th Anniversary, CISON!

May the next fifty years bring greater innovation, global relevance, professional recognition, and impact on national development.

Long live CISON!
Long live the statistical profession!
Long live the Federal Republic of Nigeria!
Yusuf Akintunde Azeez
Public Relations Officer (PRO)
CISON, Lagos Chapter

PROF. U. C. ORUMIE

Brief Profile
Prof. U. C. Orumie is a Professor of Statistics and the Associate Dean of Faculty of science at the University of Port Harcourt, Nigeria, specialising in Operations Research. Fellow ORIDSAN, Fellow IORMS. Her contributions span teaching, research, academic leadership and professional service, with a strong commitment to mentoring young statisticians, promoting women in quantitative disciplines, and advancing Statistics and Operations Research.

Goodwill Message
I warmly congratulate the Chartered Institute of Statisticians of Nigeria (CISON) on the celebration of 50 Years of the Statistical Profession. This remarkable milestone reflects decades of professional excellence and impactful contributions to national development. May the Institute continue to advance statistical excellence, innovation and professional growth in Nigeria and beyond.

Congratulations, CISON, on 50 years of excellence!

Prof. U. C. Orumie

Good will message (Quarter page)

My Journey with the Nigerian Statistical Association (NSA)
I joined the Nigerian Statistical Association (NSA) in 1983 with Registration Number 1983002. From that time, I have made it a point of duty to attend the Association's annual conferences and faithfully pay my annual dues. Whenever circumstances made it impossible for me to attend a conference, I ensured that my dues were paid through Pastor O. B. Ijomone.
In my early years in the Association, I was closely associated with the late Dr. T. E. Agbovia and S. E. Okoh. I also had the privilege of working closely with distinguished members of the Association, including Prof. B. A. O. Oyejola, Alh. Adeyinka, Prof. Peter A. Osanaiye, Alh. Usman Liman, Prof. S. I. Oyeagu, and Prof. O. E. Asiribo, among others. These relationships and experiences contributed greatly to my growth and deepened my commitment to the Association.
A major turning point in my NSA journey came in 2004, when I was elected Business Manager at the Kaduna Annual Conference. That election opened a new chapter in my career and gave me the opportunity to serve the Association at a higher level. I subsequently served on the NSA Executive for over 12 years, in various capacities as Business Manager, Financial Secretary, and Vice President.
One of the significant reforms introduced during my tenure was the cashless payment policy in 2008, when I served as Financial Secretary under the leadership of Chief B. O. Amobi, the then President of the Association. Under my close supervision, the Association introduced a system whereby payments were made directly into the bank, while members obtained their receipts from the Financial Secretary at Ado-Ekiti. This initiative greatly reduced the risks associated with handling cash and helped the Association save considerable time and resources.
At the 2009 Annual Conference in Zamfara, I was able to declare a net surplus of over ₦1 million. This was subsequently confirmed by Mrs. Ngozi Agbuegbulem, the then Auditor of the Association, in her audit report. For me, this was not just a financial achievement but a reflection of the trust and responsibility entrusted to me by the Association.
On 6th September 2012, I was honoured to as a Fellow of the Nigerian Statistical Association, with Registration Number NSA/FNSA/2012011. This recognition remains one of the memorable milestones of my journey with the Association.
Between 2012 and 2016, while serving as Vice President, I organised several successful Planning ,Research and Statistics (PRS) workshops across the country. These workshops provided valuable opportunities for professional development, knowledge sharing, and interaction among Statisticians and other professionals.
Over the years, I have also had the privilege of chairing several annual conferences and committees of the Association.One of the committees that remains particularly memorable to me was the one that worked towards the establishment of CISON.
It on record that Hon Leo Ugor who was Isoko Nation was the committee chairman in House of Representative in 2014 and to us to consider it done my CHIEF.
In 2023, I also served as a member of the committee responsible for writing the History of the Nigerian Statistical Association and the NSA Directory 2023, under the chairmanship of C. M. Okafor. Being part of this important project gave me another opportunity to contribute to documenting the history and legacy of the Association to which I have devoted many years of service.
Today, I am a member of the CISON College of Fellows and also serve as a member of the Fellows Screening Committee.
Looking back, my journey with the Nigerian Statistical Association has been one of commitment, service, friendship, growth, and memorable experiences. From my humble beginning as a member in 1983 to serving in various leadership capacities and becoming a Fellow of the Association.
I remain grateful for the opportunities the NSA has given me to serve, learn, contribute, and build lasting relationships with friends.
I am proud to have been part of the growth and development of the Nigerian Statistical Association, and I look forward to seeing the Association continue to grow stronger and remain a leading professional body for statisticians in Nigeria.
In this epic event of 50 years Statistical journey in Nigeria, I wish you all happy celebrations.
Chief Dr Fidelis E Aduka (FNSA, FCIA, JP)

DR. YAHAYA BABA USMAN

Rector, Federal Polytechnic,
Idah, Kogi state.
Immediate Past Chairman,
CISON Nasarawa State Chapter.

Congratulations to the Chartered Institute of Statistician of Nigeria at 50. It is a Golden Jubilee Celebration with remarkable achievements and a great milestone. May CISON continue to inspire, innovate and shape the future of statistics in Nigeria.

Once again, congratulations to CISON @ 50. Long live Chartered Institute of Statistician of Nigeria, Long live the Federal Republic of Nigeria

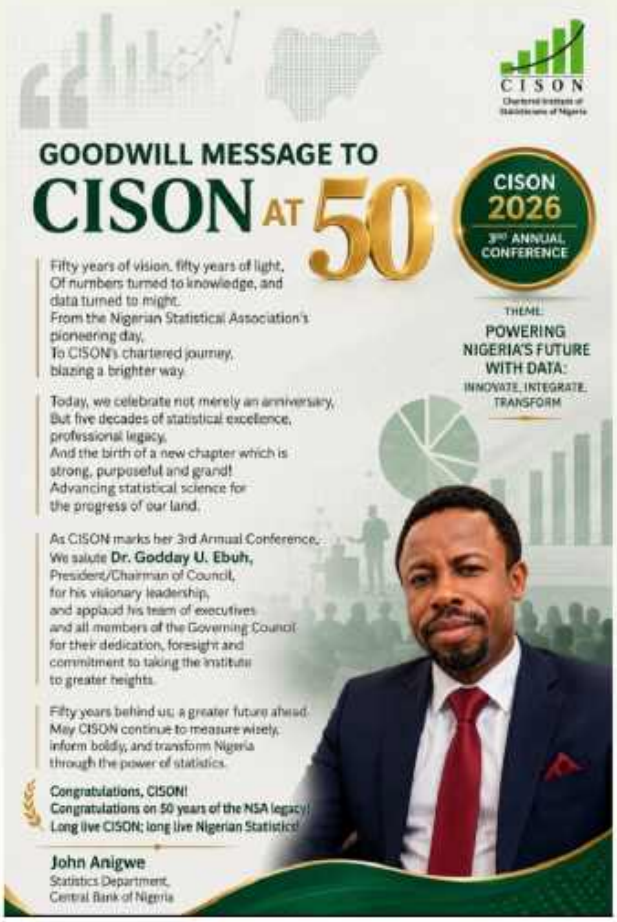

Felicitation

As CISON marks its 50th Anniversary, I extend heartfelt congratulations to the Institute and its leadership. I particularly salute my mentor and President of CISON, Dr. Ebuh Godday for his remarkable contributions to statistical practice in Nigeria. May this milestone usher in even greater accomplishments for the Institute.

Chidimma Ejiofor
Department of Statistics Federal Polytechnic
Oko, Anambra State

Goodwill Message to CISON @ 50

On behalf of the entire staff and students of the Department of Statistics, University of Lagos (UNILAG), I congratulate the president of CISON, Dr. Godday Ebuh, the council members and all registered members on the occasion of their 50th anniversary and 3rd International Conference.

Reaching this remarkable milestone highlights five decades of dedication to advancing statistical science, evidence-based decision-making, capacity building and impactful contributions to national development.

May this Golden Jubilee be a time to celebrate past achievements and inspire even greater professional excellence, innovation in data analytics, AI, and strategic insights for decades to come. Wishing the Institute continued success, growth, and impact!

Dr. Eno Akarawak
Ag. Head of Department of Statistics
UNILAG

Congratulations CISON@50

It is with great pleasure and a deep sense of pride that I extend my warmest goodwill greetings to the Chartered Institute of Statisticians of Nigeria (CISON) on the occasion of its 50th Year of the Statistical Profession International Conference, 2026.

This remarkable milestone is a celebration of five decades of excellence, dedication, and invaluable contributions to the advancement of statistics in Nigeria and beyond. It is also a moment to appreciate the pioneers, professionals, and institutions whose commitment has strengthened the statistical profession and its role in national development.

As a proud member of CISON, I am honoured to be part of this historic celebration. I commend the Institute for its continued efforts in promoting professional excellence, ethical practice, capacity development, and the effective use of statistics for evidence-based decision-making.

I wish the Institute, its leadership, members, and all participants a successful and memorable conference. May this golden jubilee inspire renewed commitment, foster meaningful collaborations, and open new frontiers for the growth and development of the statistical profession.

Congratulations to CISON on 50 years of distinguished service to the statistical profession. May the Institute continue to shine and achieve even greater milestones in the years ahead.

Happy 50th Anniversary and a successful International Conference 2026!

Dr. Virginia Ifeyinwa Onuorah
ID: 20250796
Member, Chartered Institute of Statisticians of Nigeria (CISON

The celebration of CISON at 50 is to some of us moments of reflection on our milestones. I registered as a member of NSA in 1985 as a graduate student, No. 1985018. In these years, I have in my modest ways been involved in its activities unobstrusively. I have served in various capacities: chaired scientific sessions, presented papers, member of editorial board of JNSA, facilitated PRS Workshops at University of Port Harcourt (2012, 2024), was part of the team that saw through the establishment of CISON, represented NSA at NBTE Accreditation panel and National Consultative Committee on Statistics, etc,. I became a fellow in 2012, No. NSA/ FNSA/2012001 and subsequently appointed a Pioneer Provost, College of Fellows before our transition to CISON. I have maintained active membership of CISON as registered Statistician, No.20240199. I wish CISON continuous professional growth and contributions to the development of our National Statistical System as we mark this turning point.

Prof. Ethelbert C. Nduka
Dean, Faculty of Science (2008-2010),
Deputy Vice Chancellor, Administration (2011-2015)
University of Port Harcourt, Nigeria

A GOLDEN JUBILEE CONGRATULATION TO CISON

Felicitations & Milestone Celebration
It is with immense joy, pride, and professional fulfillment that I congratulate the Chartered Institute of Statisticians of Nigeria (CISON) on the historic occasion of its 50th Anniversary (Golden Jubilee) and the hosting of its 3rd International Conference (October 12th–16th, 2026).

Celebrating five decades of advancing statistical practice, evidence-based decision-making, and national development is a momentous milestone.

CISON has evolved into a premier professional institute, continually empowering practitioners and shaping the future of data science and policy modeling across Nigeria and beyond.

Personal Journey & Professional Contributions

I have been part of this journey since joining the defunct Nigerian Statistical Association (NSA) in 2010.

I was privileged to be conferred as a Fellow of the Nigerian Statistical Association (FNSA) in 2022 before our transition into CISON.

I am deeply honored to have served our professional family across various capacities, including:

* Scientific paper presentations and session chairing.
* Serving as Secretary of Women in Statistics.
* Serving as Council Member.
* Active participation as an organizer within our National Committees.

Watching our institute transition into a chartered entity and host global statistical discourses reinforces the power of our shared vision.

As we deliberate on critical advancements during this 3rd International Conference, I applaud the leadership and entire fellowship of CISON for their steadfast commitment to excellence, mentorship, and gender inclusion.

May this Golden Jubilee usher in an era of even greater impact, innovation, and global leadership for our institute.

Happy 50th Anniversary, CISON!!!
Long live the Chartered Institute of Statisticians of Nigeria!!!

Uchenna Petronilla Ogoke
Associate Professor of Statistics, University of Port Harcourt
Council Member, CISON
Secretary, Women in Statistics (CISON)
Fellow, Nigerian Malaria Modelling (FNMM)

International Conference

Congratulations CISON @ 50 years

It is with great joy, profound gratitude, and immense pride that I extend my warmest congratulations and goodwill to the **Chartered Institute of Statisticians of Nigeria (CISON)** on the remarkable occasion of it's **50 years Anniversary**.

Fifty years of existence is a significant milestone worthy of celebration. It represents five decades of commitment, professionalism, excellence, and invaluable contributions to the advancement of statistics in Nigeria. Over the years, CISON has played a vital role in promoting the statistical profession, strengthening professional standards, developing competent statisticians, and advancing the use of statistical knowledge in decision-making and national development.

As CISON celebrates this remarkable achievement, I commend the founding members, past leaders, fellows, members, associates, staff, and all stakeholders whose dedication and sacrifices have contributed to the growth and sustainability of the Institute over the past five decades. Your collective efforts have helped to build a professional institution whose contributions will continue to influence generations of statisticians.

Congratulations on 50 years of excellence, service, and contribution to the advancement of statistics in Nigeria.

Happy Golden Jubilee to CISON!

Prof Chinwendu A. Uzuke
Immediate Past Head,
Department of Statistics,
Nnamdi Azikiwe University, Awka.

Celebrating 50 YEARS OF STATISTICAL PROFESSION

Celebrating 50 years of Excellence, Professionalism and Impact.

It gives me immense joy and gratitude to felicitate with the Chartered Institute of Statisticians of Nigeria (CISON) on the momentous occasion of its 50th Anniversary.

As a committed member of the Institute for nearly two decades, I have had the privilege of witnessing and contributing to its remarkable journey of growth, professional excellence and service to the statistical community and our nation. My participation in the Institute's activities, including serving on several occasions as a rapporteur at conferences, has deepened my appreciation of CISON's invaluable role in advancing the statistical profession in Nigeria.

I warmly commend the leadership of the Institute, under the distinguished President, Dr. Ebuh Godday and his team, for steering CISON towards greater visibility, relevance and professional impact.

As we celebrate this golden milestone, may CISON continue to inspire excellence, uphold the highest standards of statistical practice, and remain a formidable force in national development.

Congratulations, CISON, on 50 remarkable years!

Hope Ifeyinwa Mbachu (Ass Prof).
Head of Department of Statistics. Faculty of Physical Sciences.
Imo State University Owerri.
Coordinator IMSU-LISA 2020 Network, Colarado Boulder USA.

Congratulations to CISON on 50 glorious years of statistical excellence!

As a newly inducted member, I am deeply honored to celebrate this historic Golden Jubilee and be part of an institute that champions evidence-based national progress.

Working at the Rural Electrification Agency, I see firsthand how reliable statistics power sustainable energy projects and rural development. Data is the bedrock of effective planning, driving impactful decisions that electrify communities and transform lives.

I am proud to contribute to CISON's legacy of innovation and excellence. Here's to 50 years of remarkable impact, and to a future where data continues to power Nigeria's growth!

FELICITATION MESSAGE

The Executive Committee and members of CISON Plateau State Chapter warmly congratulate the Institute on its historic 50th Anniversary and 3rd International Conference. Wishing CISON continued growth and excellence.

Chief Pamson Dagyat
Chairman

ABRIDGED CONTRIBUTIONS OF CHRISTOPHER MADUABUCHI OKAFOR TO THE NIGERIAN STATISTICAL ASSOCIATION

Mr. Christopher Maduabuchi Okafor had a meritorious and meteoric career at the Central Bank of Nigeria (CBN), where he retired voluntarily as a Deputy Director in June, 2011 after 30 years of service. His professional contributions to the Nigerian Statistical Association (NSA) started shortly after his employment with the CBN in 1981. Having settled in CBN, he joined NSA in 1983 and in the process made outstanding contributions to the growth and development of the association. Mr. Okafor is a two-term Financial Secretary (1993 – 1997), two-term National Secretary (1997 – 2001) and a two-term President of NSA (2003-2008). He was also conferred with the prestigious Fellowship award of the NSA in 2009. In the same year he became an elected member of the International Statistical Institute (ISI).

As a financial secretary of the NSA, he introduced the triplicate payment voucher of the NSA that facilitated easy auditing of NSA accounts. As the National Secretary of NSA, he composed the words of the NSA Anthem which elevates the spirit of members at conferences and helped to create a nostalgic feeling for NSA's conferences. Also as National Secretary, he designed NSA Certificates for Members and Fellows and introduced the seven-digit numbering system which assigns the first four digits to the year of registration and the last three digits according to the sequence of the registration of the new member. This numbering system preserves the seniority of members between and within years. He also wrote a memo to the Governing Council of NSA on the need to acquire a piece of land for CISON in Abuja and in the process commissioned a Chartered Architect, late Mr. Anthony Anidu, to produce the first architectural design for CISON's headquarters. He also initiated the registration of NSA with the Corporate Affairs Commission (CAC) and galvanized the support of the CBN through the Deputy Governor, Economic Policy; the DG, National Bureau of Statistics (NBS) and the Director of Census at the National Population Commission, all of which wrote to CAC to support the registration and retention of the acronym NSA which was purportedly said to be conflicting with the acronym of a security position in Nigeria.

As President, Mr. Okafor acquired a temporary office of CISON at the Department of Statistics, University of Nigeria, Nsukka (UNN) in 2004 as this condition was given as a prerequisite for the establishment of CISON. He also organized the first sensitization workshop on the proposed Act of CISON, on August 20, 2007, at Hill Station Hotel, Jos, Plateau State to engender the buy-in of the general public and the members of the National Assembly. That opened up the way for the consideration of CISON's Bill, as it was made a precondition for the actualization of CISON. Furthermore, he introduced the rendering of Presidential Addresses at NSA conferences and produced four well researched addresses during his tenure. He commissioned the design of the first Website of NSA and introduced the computerization of NSA's registration and payment of dues at conferences. This was anchored by Prof. B. A. Oyejola and his team. Mr. Okafor also secured from CBN the very first substantial subvention that enabled the NSA conduct its conferences without too much financial dislocations. His presidency threw NSA to limelight and generally created an inviting environment for NSA activities.

As President, he represented the NSA on a number of national statistical policy platforms, such as the design of the National Statistical Master Plan and was among the Federal Government's committee that merge the FOS and the National Data Bank to form the present NBS. On retirement, under the Presidency of Dr. M. Tumala, he was commissioned to write a proposal for the transition of NSA to CISON as a professional body. In 2024, he was appointed the first Registrar of CISON and he created the content of the Website, the 8-digit registration number, crafted the motto, mission, and vision statements in conjunction with his team and the first President, Dr. G. U. Ebuh. We are, therefore, proud to be associated with NSA, as we mark this anniversary of 50 years of professional statistical activities in Nigeria.

CISON
LAGOS STATE CHAPTER
Data | Knowledge | Excellence

A GOLDEN JUBILEE GOODWILL MESSAGE

TO THE CHARTERED INSTITUTE OF STATISTICIANS OF NIGERIA (CISON)

On behalf of the Executive Committee and entire members of CISON Lagos State Chapter, we warmly congratulate the Chartered Institute of Statisticians of Nigeria (CISON) on the celebration of its Golden Jubilee.

Fifty years of professional service is a remarkable milestone. We celebrate the vision of the pioneers, the contributions of past leaders, and the commitment of every statistician who has strengthened the profession and advanced the use of statistics in Nigeria.

As statistics enters a new era shaped by Big Data, Artificial Intelligence, digital transformation and evidence-based decision making, CISON Lagos State Chapter remains committed to professionalism, collaboration, innovation and impact.

We look forward to a future where statisticians are at the center of credible data, sound policy, effective planning and national development.

HAPPY GOLDEN JUBILEE, CISON!

FELICITATION MESSAGE

The executive and the members of the Enugu State Chapter of the Chartered Institute of Statisticians of Nigeria (CISON), heartily felicitate with the members of the governing council, planning subcommittees and the Chartered Institute of Statisticians of Nigeria (CISON) on this historic milestone achievement: The 50th (Fiftieth) year anniversary, (Golden Jubilee celebration), of statistical development and excellence in Nigeria (1976-2026) and The 3rd (Third) International Conference and Workshop.

Indeed, the impact of statistics towards nation building, economic and political development, efficient planning and informed decision taking can never be overemphasized especially in a developing economy like ours.

We are delighted to be part of this noble profession in our country. Many more factful, truthful and successful years ahead to the Chartered Institute of Statisticians of Nigeria. Together we soar to greater heights in the development of statistical excellence in our nation.

LONG LIVE THE CHARTERED INSTITUTE OF STATISTICIANS OF NIGERIA (CISON).

LONG LIVE THE FEDERAL REPUBLIC OF NIGERIA.

Congratulations CISON @ 50 years by

Professor Biyi Afonja (Rtd.)

As one of the oldest, if not the oldest surviving founding members of the NSA-CISON, it is a matter of exceptional joy and privilege for me to be alive to witness this unique and historic occasion of the 50th anniversary of the association. While I extend my warm congratulations to all of us for being part of the celebrations, let me share, in a nutshell, with all of us, my statistical journey which predates the founding of the association.

-The journey started in 1961 as a Research Officer (Statistics), Federal Department of Agricultural Research, Moore Plantation, Ibadan; continued as Lecturer, University of Ife, Ile-Ife, now called Obafemi Awolowo University; and moved to the Department of Statistics, University of Ibadan where I became the first Nigerian Professor of Statistics in that department and also delivered the first inaugural lecture in statistics in Nigeria on May 30, 1985; the department achieve international reputation during my tenure as the head. Other activities included: supervision of many undergraduate and postgraduate students up to the Ph-D Level; external examiner to various universities both within and outside Nigeria; securement of fellowships and external consulting assignments for members of staff, etc.
- Chairman, National Advisory Council on Statistics

Services to NSA-CISON
- Chairperson, Editorial Task Force (NSA), to clear the backlog of all the hitherto unpublished papers, and later, Editor -in- chief of the journal of NSA, firmly establishing the journal, and producing the first set of guidelines for its regular publications; as President of NSA, I succeeded in organizing a most successful tenth anniversary conference which was attended by the federal minister for Economic Development Dr Kalu Idika Kalu, this being the first time that a federal minister attended a conference of the association; member, committee on the history of NSA; participated in the House of Representatives public hearing on the bill to establish CISON;
- Elected a Fellow of the Nigerian Statistical Association in 2001.

Services/Awards/Recognitions at regional and international levels
- President African Statistical Association; organized the first scientific conference of the association held in Abuja in 1989 and declared open by President Ibrahim Babangida. Succeeded in getting the Federal office of Statistics to be the secretariat of the association for some years; Vice-president, International Statistical Institute (ISI), the highest professional statistical body in the world, the first and the only Nigerian to have so far held such a high position in the Institute which was established in 1885 (over 120 years ago); Chief Statistical Training Adviser UNECA, Addis-Ababa; Senior Statistician UNDP, New York, USA.
Some activities carried out include: preparation of guide syllabus and the strategy for the implementation of Addis-Ababa plan of action for Statistical Development in Africa

Member Committee on International Relations of the American Statistical Association

- African Statistics Award in recognition of lifelong service to the development of statistics and nurturing of the statistics profession in Africa, UNECA; Honorary Fellow, Royal Statistical Society, London, in recognition of services to statistics, with the privilege of free life subscription to three of the Society's journals; the only Nigerian to have enjoyed such privilege; Medal of Honour *Ville de Paris,* as a vice-president of ISI.

Publications An author of many books and scholarly articles in some of the most prestigious international journals. A compendium of his statistical work is contained in the just-published book, *Contributions to Statistical Development in Honour of Professor Biyi Afonja.* More information about the book will appear in the Social Platform of CISON

Nonstatistical contributions to knowledge and humanity in general
Contributions have been made in education, community and church development for which many awards and recognitions have been made. Books have also been published in these areas.

Rivers State Chapter

GOLDEN JUBILEE
To STATISTICAL PROFESSION

On behalf of the Executive and members of the Chartered Institute of Statisticians of Nigeria (CISON), Rivers State Chapter, I felicitate with the National President and Governing Council of CISON as we mark Fifty (50) Years of Statistical Professionalism in Nigeria. Within these years, a lot had been achieved and more achievements are being expected.

50 Cheers to CISON @

Ucheawaji
JAMES PETER
CISON Chairman,
Rivers State

International Conference

Congratulations CISON @ 50 years

The celebration of CISON at 50 is a celebration of greatness in Statistical development in Nigeria and a moments of reflection on our milestones and development. I registered as a member of NSA and now a transition member of CISON. In these years, I have in my modest ways been involved in its activities and development. I have served in various capacities: Chaired scientific sessions, presented papers, etc,. I have maintained active membership of CISON as a registered Statistician.. I congratulate and wish CISON continuous professional growth and contributions to the development of Our National Statistical System and Professionalisation as we mark this 50th years anniversary and celebrate Our Statistics practices development in Nigeria.

GOODWILL MESSAGE TO CISON @ 50

FIFTY YEARS OF EXCELLENCE, PROFESSIONALISM AND SERVICE

The Executive and entire membership of the **Chartered Institute of Statisticians of Nigeria, Akwa Ibom State Chapter (CISON-AKC)** warmly felicitate with **CISON** on its **Golden Jubilee: 50 years of distinguished service and contribution to the statistical profession in Nigeria**.

Over five decades, CISON has built a remarkable legacy through **professionalism, integrity, resilience, and commitment to excellence**, while promoting statistical capacity, competence, and the responsible use of statistics for informed decision-making and national development.

We honour the **founding fathers, past and present leaders, Fellows, members, and stakeholders** whose dedication and sacrifices have sustained the Institute to this historic milestone.

CISON-AKC is proud to identify with this landmark celebration and reaffirms its commitment to advancing the Institute's vision and strengthening the statistical profession for the benefit of our State and nation.

As CISON enters its next chapter, we look forward to **greater professional partnerships, enhanced opportunities and capacity development and increased contributions to evidence-based development in Nigeria and beyond.**

Congratulations to CISON on 50 glorious years of excellence and service!

Long live CISON! Long live CISON-AKC! Long live the Statistical Profession!

Warmly felicitates with the President and members of CISON on the occasion of the 3rd International Conference and Celebration of 50 years of promoting statistical development in Nigeria.
Congratulations and better years ahead.
From CISON-DELTA.

50th Anniversary

Statistical Humour and Statistics Jokes for CISON @50

The 50% Rule

Joke: What do CISON and a 50th Golden Jubilee have in common?

The Insight: In statistics, there is a 50% chance you are right above the median—meaning 50 years of data collection officially puts us in the top percentile of excellence!

The Outlier Exception

- ***Joke:*** Why don't statisticians eliminate their 50-year-old colleagues during data cleaning?
- ***The Insight:*** Because after 50 years of dedication to accuracy, they aren't errors—they are significant high-leverage points driving the whole trend line.

Confidence Intervals

- ***Joke:*** A statistician walks into the 50th Anniversary Gala and orders a drink, stating, "I am 95% confident this party is statistically significant."
- ***The Insight:*** $p < 0.05$ that anyone here isn't having a great time celebrating 50 years of data-driven leadership.

Standard Deviations

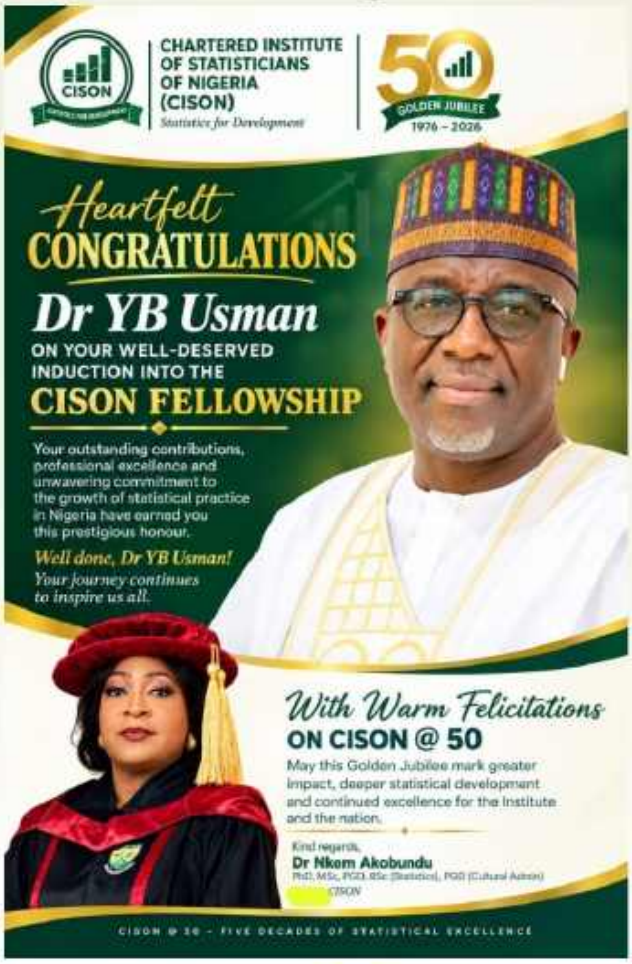

- ***Joke:*** Why is celebrating CISON @ 50 normal?
- ***The Insight:*** Because after 50 years, we've smoothed out the noise, controlled the variance, and set the standard for national statistical excellence!

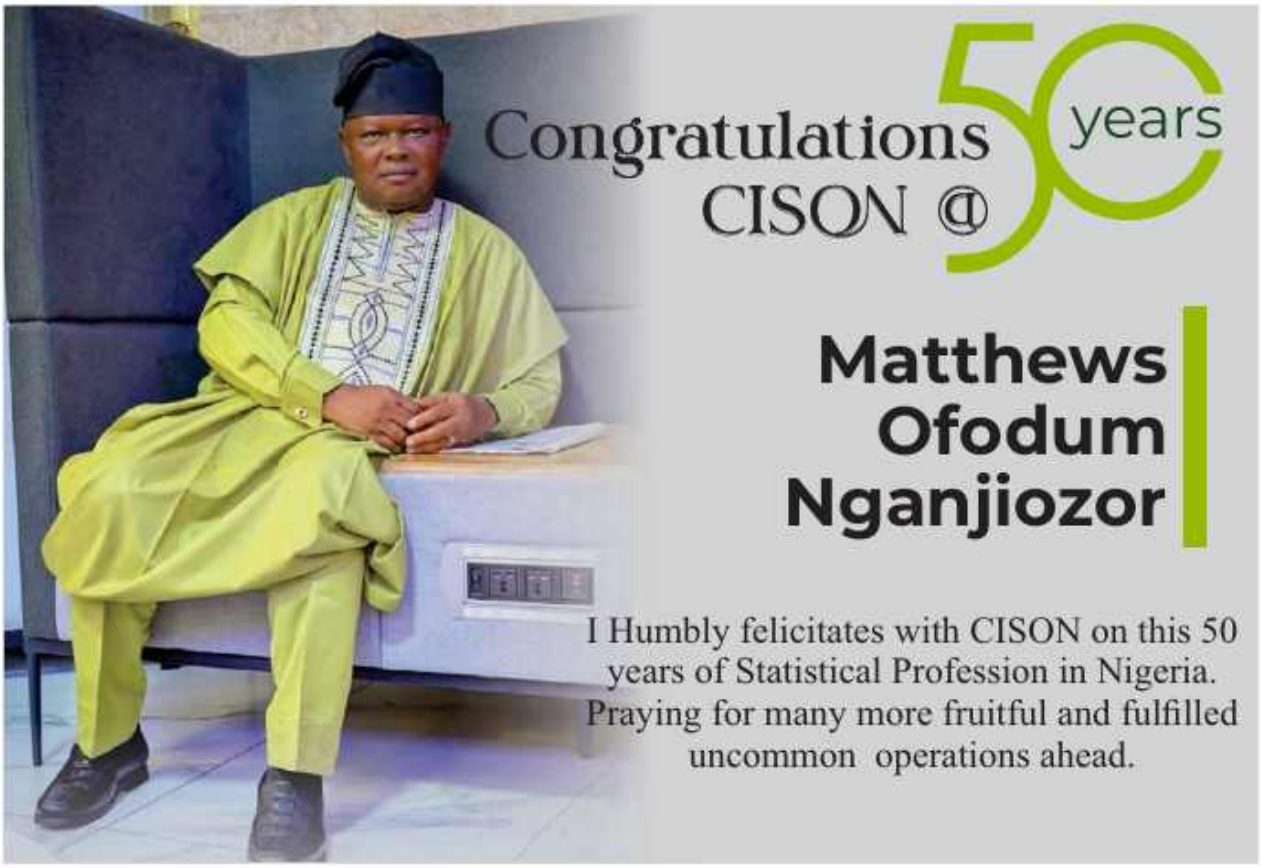

CISON @50 Special

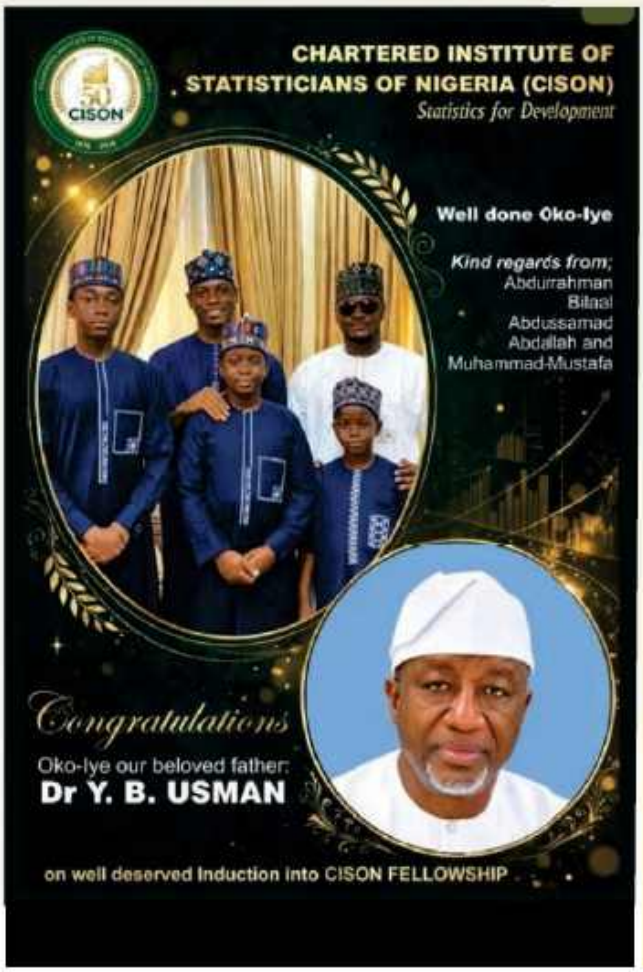

1. **50 years of CISON:**
   50 years of collecting data, analysing evidence, reducing uncertainty—and proving that numbers can tell very interesting stories!
2. **Why is CISON celebrating 50 years?** Because **50 is not just a number—it is a statistically significant milestone!**
3. **After 50 years, CISON has learned one important lesson:**
   Never argue with a statistician… unless you have the data!
4. **CISON @50:**
   From NSA to CISON, the name changed, but the love for data remained statistically significant!
5. **A statistician looks at 50 years and says:**

"That's a very good sample size for a celebration!"

Heartiest
congratulations to
Dr. Emeka Okafor

On behalf of myself, leadership and entire members of Neo Black Movement Of Africa, Anambra Zone we felicitate with you on your well deserved induction as fellow of the Chartered Institute Of Statisticians Of Nigeria(CISON)

Reaching this cadre marks the highest peak of professional distinction and technical excellence in the field of statistics.

This prestigious recognition is a testament to your dedication, analytical brilliance and remarkable contribution to the growth of statistical science and data driven decision making in Nigeria.

Congratulations once again brother, may this honour open greater doors of leadership opportunity.

Prince Oforbuike Okoli-Egbo
President, NBM Of Africa, Anambra Zone

Mr. Emmanuel Dudu
Congratulates
Prof. Harrison Oghenekevwe Etaga.
On his installation as FELLOW of Chartered Institute of Statistician (CISON)

On behalf of the Government and the good people of Rivers State, I extend our warmest congratulations to the Chartered Institute of Statisticians of Nigeria (CISON) on the historic occasion of your 50th Golden Jubilee Anniversary.

For half a century, CISON has served as a cornerstone of statistical excellence, promoting data-driven governance, evidence-based planning, and strategic policy development across our nation. Your unwavering commitment to professional standards and accuracy continues to be vital to Nigeria's sustainable socio-economic growth.

As you celebrate 50 years of invaluable contributions, we applaud your leadership, council, and entire membership. May this landmark milestone inspire greater innovations, deeper partnerships, and continued excellence in data management for national development.

We wish CISON a memorable Golden Jubilee celebration and many more decades of impactful service to our country.

Congratulations!

Dr. Dagogo S.A. Wokoma

Ministry of Economic Planning and Budget, Lagos State Government

Professor Sidney Iheanyi Onyeagu

My name is Professor Sidney Iheanyi Onyeagu. I joined the Nigerian Statistical Association (NSA) in 1987 at the 1987 conference at Concord Hotel. The President of NSA that time was Professor Biyi Afonja. After that I attended some conferences especially the 1999 conference at Kwara Hotels Ilorin. The President at that time was Mr Ajayi who handed over to Professor O S Adegboye after an election held at that conference. Professor Adegboye was there till 2003 when he handed over to Chief C.M. Okafor. Chief Okafor was President from 2003 to 2008 when he handed over to Chief B.O. Amobi at an election held at the Ekiti Conference. In 2009 I was appointed Editor-In-Chief of the Association. My first journal publication was volume 21 of 2009. My editorial board was made up of Prof.P E Chigbu, Prof. B. L. Adeleke, Prof. I. S. Iwueze, Prof. G. E. Nworuh and Prof. E C Nduka. I published four volumes of NSA journal namely volumes 21 , 22, 23 and 24 before I left the office in 2012.I was elected 1st Vice-President in Makurdi conference of 2012.

I also got the NSA fellowship Award during that conference. I did not attend the Katsina Conference of 2014 where Dr Bamanga was elected as 1st Vice-President. I started planning to contest for President of NSA at the 2015 conference at Oshogbo. I registered over 90 new members of NSA from Anambra State chapter and that was the highest at that conference. In 2016 I contested for the President of NSA in a conference held at the international conference center Abuja. I won the election with 135 votes as against 111 votes polled by Prof Peter Osanaiye. In 2017 we had our first international conference in Lagos. The National Organizing Committee Chairman was Dr Olubusoye. The conference was successful.

In 2018 there was a meeting in Owerri called Joint Consultative committee on Education. We presented the problem of making Statistics a teaching subject in the secondary schools. Before we presented it, we started with presenting it with the Federal Ministry of Education in preparation to the JCCE held in Owerri but they objected to it. In 1988 Statistics was removed from the curriculum and NSA has been fighting to put it back. If Statistics is taught in the secondary school, it is possible to involve SSS holders as enumerators.

We have been planning and executing the African Statistics Day with the National Bureau of Statistics (NBS) since I became the President of NSA. We paid a courtesy visit on the Statistician General, Dr Yemi Kale at the beginning of my tenure as President NSA and we agreed among other things that members of NSA should be involved in surveys organized by the NBS. For an agency like NBS to collect, organize, present, analyze and interpret data, they must be adequately funded. If enumerators are adequately paid and monitored, they cannot falsify information they are asked to collect. Funding is important for collecting accurate, reliable and timely data. During my time as the NSA President we inaugurated many chapters. Included in the list are Kogi, Bayelsa, Port Harcourt, Cross River and Abuja. Infact Abuja chapter Started with over 400 members with Dr Arinze as Chairman. We introduced so many programmes. Included in the list are:

(1) Free Statistical workshop for Postgraduate students.

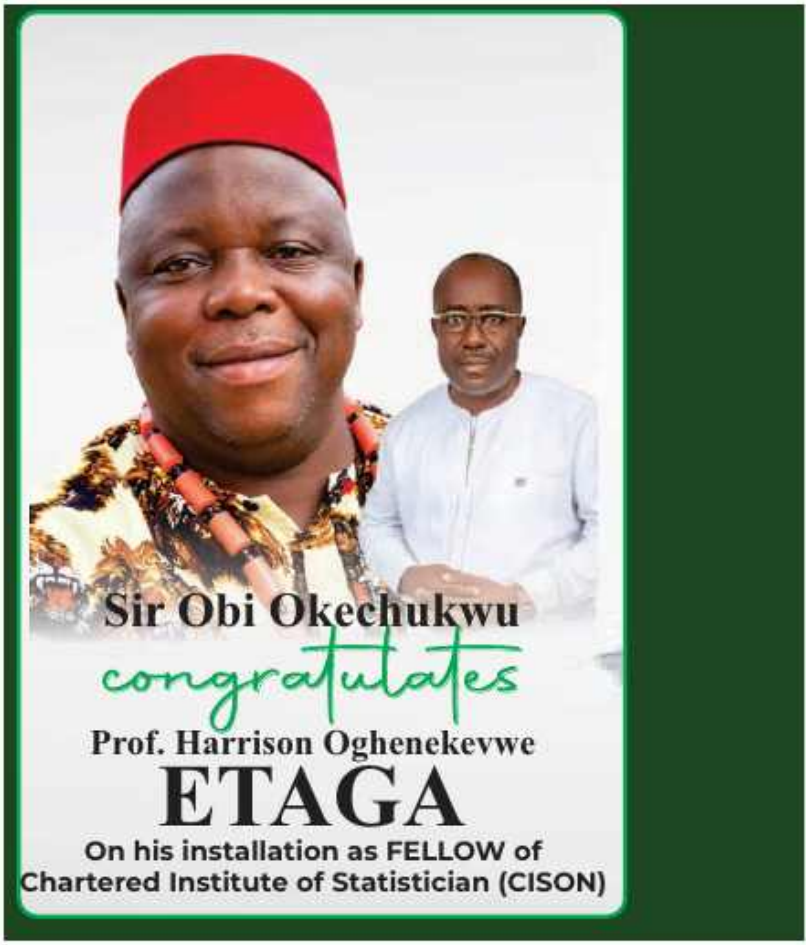

(2) Customized planning, Research and Statistics Workshop for industries and organizations (PRS).

We organized PRS for NAICOM staff on the topic: Computation of Insurance Regulatory ratios using R programming language. It came up from 28 September to 2nd October in Kaduna with 12 participants. The second batch of participants had their own in Lagos.

(3) Undergraduate Statistics competition for all Universities and Polytechnics in the country. The 2020 competition would have been the third in the series but it was canceled because of covid-19 pandemic. Due to these programmes the CBN increased our subvention from 7 million naira to 10 million naira yearly.

During the webinar organized by NBS I said that it is important for all hands to be on deck for the chartered Institute of Statisticians of Nigeria bill to be signed by the President. There was a study that stated that only 30 countries in the world are data driven. Only one country in Africa is among the list. The country is South Africa. What has South Africa done that we have not done in data collection. The list put USA as number one and UK as number two. What is common with all these countries is that they all have chartered Institute of Statisticians. That of UK, is more than 100 years old. I want to give a small history of how we got CISON. It was one of our presidents, Mr Ajayi who started it when he was President NSA. He passed it over to Prof O .S. Adegboye who was NSA president from 1999 to 2003. Prof Adegboye passed it to Chief C M Okafor who was president from 2003 to 2008.In 2008 Chief B O Amobi became President of NSA, did his best on CISON before Dr M M Tumala took over from him in 2012.Dr Tumala did a lot to have CISON. In fact the bill was among the 46 bills sent to President Muhammad Buhari for assent in his first tenure. Dr Tumala moved the bill from the National Assembly to the Presidency.

I was Dr Tumala's Vice President from 2012 to 2014. When I took over from him in 2016 we believed that we need not go through the process again and we were hoping the President 's special adviser on House of Assembly will help us send the bill to the new President to sign but that was not possible. When my term finished, I had to stay one more year because of the outbreak of COVID-19. It was during this my extra one year that we started the process all over again from the beginning but there were things that we didn't do twice. When I was leaving office it remained to push the bill from the Senate to the Presidency. The person that took over from me, Dr Godday Ebuh then completed the remaining and pushed it to the Presidency who signed it in February 2023.

CONGRATULATIONS ON YOUR SELECTION INTO THE 2026 COHORT OF CISON FELLOWS

On behalf of the 13th Governing Council, Academic Board, Management Committee, Staff and Students of the Federal Polytechnic Idah, we warmly and heartily congratulate our esteemed Rector, Dr. Y. B. Usman, on his distinguished selection into the 2026 Cohort of Fellows of the Chartered Institute of Statisticians of Nigeria (CISON).

This prestigious recognition is a remarkable testament to your professional excellence, exemplary leadership, outstanding contributions and commitment to the advancement of statistical knowledge and development in Nigeria. Your elevation to the Fellowship of CISON is not only a significant personal achievement but also a source of immense pride to the entire Federal Polytechnic Idah community.

The honour reflects the confidence reposed in your professional accomplishments and your distinguished standing within the statistical and academic community. It further underscores your remarkable contributions to institutional growth, capacity development, and the advancement of knowledge.

Sir, this well-deserved honour is a reflection of your dedication, intellectual leadership and service to humanity. We are proud to celebrate this remarkable milestone with you and wish you continued success, greater accomplishments and many more distinguished honours in your service to the Polytechnic and the nation.

Once again, congratulations, Sir, on this well-deserved professional honour.

Long live Dr. Y. B. Usman!
Long live the Federal Polytechnic Idah!
Long live the Chartered Institute of Statisticians of Nigeria!

Rt. Hon. Adetope Ademiluyi,
Chairman, 13th Governing Council, Federal Polytechnic Idah

YAHAYA BABA, USMAN, Ph. D.

Yahaya Baba, USMAN was born on 5th August 1968 to the humble family of Alhaji Usman Adejo. He hails from Olamabolo Local Government Area of Kogi State.

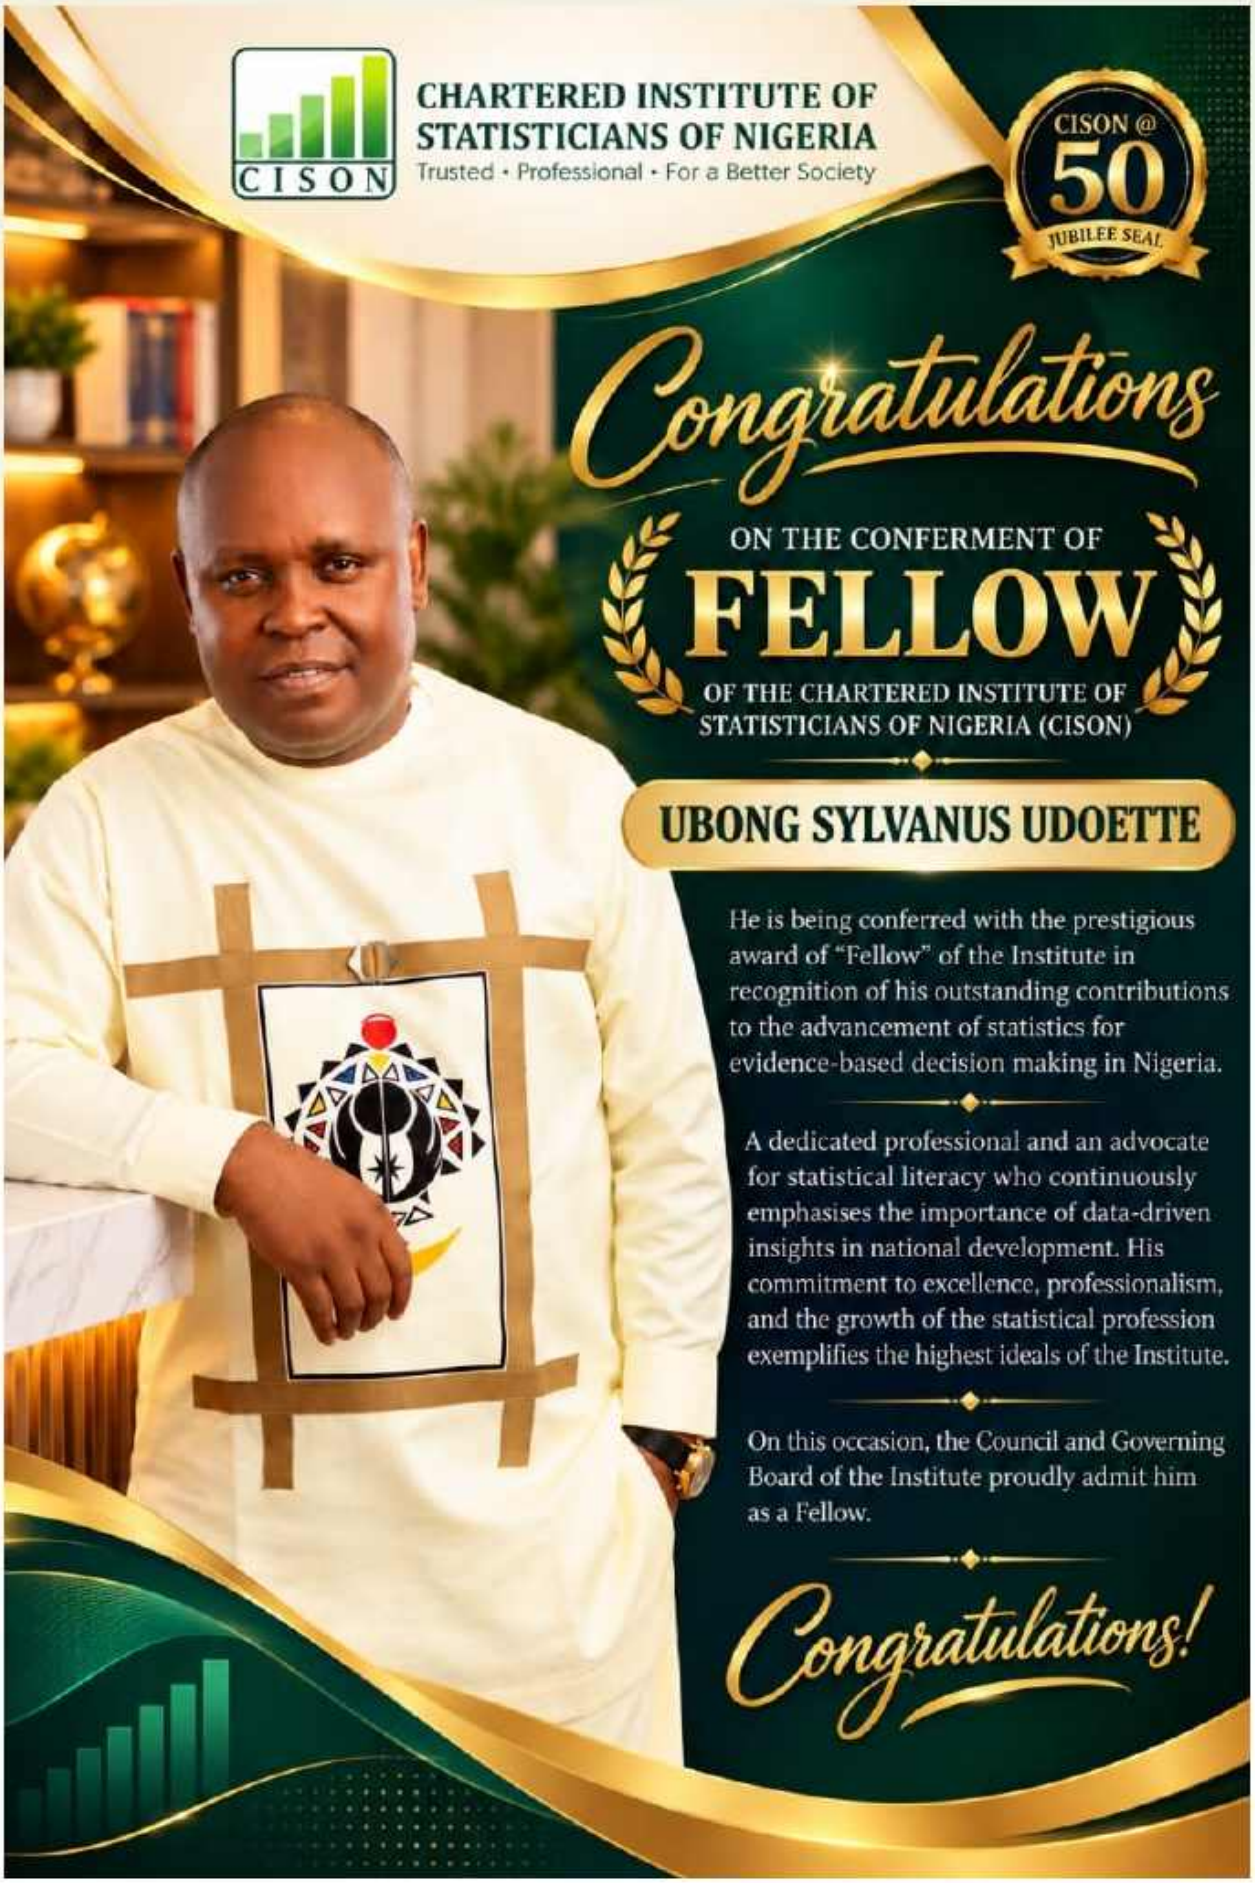

Dr. Y. B. Usman attended Army Children School, Abakpa, Ogoja in Cross Rivers State and Community Secondary School, Onicha Igo and the prestigious Ochaja Boys Secondary School in Kogi State for his Primary and Secondary education respectively. On successful completion of his secondary education in the year 1983, he joined the Nigerian Navy in 1985 and in 1989 he proceeded to the prestigious premier University of Ibadan where he bagged his B.Sc. (Hons) in Statistics in 1994.
On completion of his first-Degree programme, the young Usman performed his one-year compulsory National Youth Service [NYSC] at Kaduna; Ministry of Finance and Economic Planning.
Having finished his National Service, he returned to the Nigerian Navy and discharged honourably in 1997. In the same year he gained employment with the Federal Polytechnic, Idah, Kogi State, to start his full "teaching" career as an Assistant Lecturer and later transferred his service to Federal Polytechnic, Nasarawa where he grew through the ranks.
Dr. Y. B Usman went back to his Alma-Mata, the famous Premier University of Ibadan, to further his studies, where he obtained his M. Sc. in Statistics in 2005 and Ph. D in Statistics in 2015, having obtained Postgraduate Diploma in Computer Science from the Federal University of Technology, Minna in 1998.
At the Federal Polytechnic, Nasarawa, he grew to the rank of a Chief Lecturer, served as a Head of Department, Mathematics and Statistics department, Dean, School of Applied Sciences, Director of Academic Planning, until his present appointment as the Rector, Federal Polytechnic, Idah on 23rd December, 2022 by the Commander in chief of the Armed forces, President Muhammadu Buhari.
Dr. Y. B Usman has served in different capacities which includes among others, LOC Chairman, NIPOGA 2017, Chairman of several committees, a one-time Chairman of the Academic Staff Union of Polytechnics (ASUP), Federal Polytechnic, Nasarawa Chapter and a one-time National Assistant Secretary General and member, Council of National officers (CNO), ASUP, One-time Treasurer, Zonal Executive Council, ASUP (North East Zone).
Dr. Y. B Usman belongs to several Professional bodies, among which are the Nigerian Statistical Association (NSA), International Biometric Society (IBS) and Professional Statistician of Nigeria (PSSN), just to mention but a few. He is currently the Chairman, Nigerian Statistical Association (NSA), Nasarawa State Chapter. He has equally attended several National and international conferences and workshops and has several published Journal articles and conference papers to his credit.
Since appointed as the Rector, Federal Polytechnic, Idah, Dr. Y. B. USMAN has being recognized by several reputable local and International organizations with awards of excellence. He bags the award of:

- Pan African Icon of Educational Transformation, Thomas Sankara prize for Excellence by the Youth Partnership for Africa's Development. (YOUPAD)
- Award of Service – NAPS ICON OF HOPE 2023 by National Association of Polytechnic Students (NAPS)
- Leadership Award of Excellence by Democracy Newspaper
- The Polytechnic Rector of the year 2023 and induction into the 16th Stardom Global Hall of Fame by Stardom Global Digital Communication
- Astute Administrator, Observer News Watch Magazine Rector of the Year; 2023. By Observer News Watch Magazine
- Noble Price of Excellence "Vanguard of Educational and Societal Transformation in Nigeria by Youth Coalition for Education in Nigeria
- 2024 Meritorious Service Award (MSA) as Kogi Youth Ambassador of the year by Kogi Youth Development Association (KYDA)
- Outstanding Leadership Award: In recognition of this selfless services and unwavering commitment to advancing the polytechnic and for championing the implementation of student – friendly policies in the polytechnic by the Student Union Government.
- Award of Excellence for his Outstanding Contributions to Human and Social Development by School of Business Studies, the Federal Polytechnic, Idah.
- Platinum Leadership Award: As ICON of Nation Building by Northern Youth for Good Leadership and Governance 2025.
- Advocacy for Youth Leadership in Governance Award of Excellence as the Resourceful, Outstanding, Competent, Quintessential, Experience, Renowned, Digital best performing Rector in the 21st Century.
- Award of Excellence: In recognition of his steady strides towards the development of the Federal Polytechnic, Idah by School of General and Administrative Studies (SOGAS)
- Award as Ambassador of Ethics and Conscience

He is married and blessed with children, and takes to football, gymnasium and community development as his hobbies.

HIS ACHIEVEMENTS2023 - DATE AS RECTOR

1. Renovation and upgrading of existing academic facilities, classrooms, studios, workshops, repairs of broken classrooms furniture.
2. Boreholes at female and male Hostels upgraded to solar powered and installation of borehole at the new Administrative complex.
3. The National Information Technology Development Agency (NITDA) centre as a resource centre in the polytechnic.
4. Renovation of one apartment in the Staff Quarters as official residence of the Rector in 2023 since the establishment of the Polytechnic in 1977
5. Creation of new Directorates
   (a) Directorate of SERVICOM
   (b) Directorate of sports
   © Directorate of Legal Services
   (d) Directorate of WITED
6. Expansion of Academic Programmes - Eleven programmes added since he came on board as the Rector.
7. Under his Administration, the Federal Polytechnic Idah has been granted the hosting right of the 23rd edition of Nigeria Polytechnics Games Association (NIPOGA).
8. Construction and Furnishing of Modern Auditorium. Named - Ahmed Bola Tinubu Auditorium
9. Construction of Medical centre phase 2. Ongoing.
10. Construction of Fire Lube bay services. Ongoing.
11. Establishment of Career service centre.
12. Recovery of the abandoned SOGAS Lecture theatre, Repairs/ re - enforcement and complete fabrication of seats in SOGAS Lecture Halls.
13. Installation of Solar Power at the Medical centre, EDC and Administrative Block.
14. The Federal Polytechnic Idah selected as one of the participating Polytechnics to host the investment in Digital and Creative Enterprises - A Hub of centre of excellence for North Central Region.
15. Construction of E-Library with facilities
16. Modern Solar Power Systems in not less than twenty-three (23) locations across the campus
17. Provision of Solar Street lights.
18. Reviving the Injection Moulding Machine at step-B Workshop.
19. The Central Library Stocks with books, furniture and equipment.
20. Purchase of Guest House for FPI ventures.
21. Thirty five programmes accredited.
22. Coconut Legacy Endorsement Plantation.
23. Establishment of Green House Project.
24. Renovation of Information and Communication Technology (ICT), Petroleum Technology Development Funds(PTDF). Stocked with 200 and 72 wireless computer system respectively. Aliyu Obaje Lecture Theatre, School of Environmental studies.
25. Furnishing the new student Hostels with 148 double 8- spring bed.
26. Rehabilitation of the Civil Engineering Workshop for the NITDA Training centre.
27. Collaboration for the establishment of Radiography, Laboratory and Electronic Medical Record unit under Public Private Partnership (PPP).
28. Establishment of the first Green House Project in the federal Polytechnic Idah.
29. Construction of 750 seating capacity sport pavilion (on - going)

ABUBAKAR INUWA TATA
Your conferment as a Fellow of the Chartered Institute of Statisticians of Nigeria (CISON) is a well-deserved recognition of your exceptional professionalism, dedication and outstanding contributions to the development of Nigeria's national statistical system.
Through your leadership roles, you have championed the use of data and evidence in policy formulation, strengthening economic analysis and decision-making in areas such as monetary policy, financial stability and macroeconomic management, with significant impact on Nigeria's economic development.
Your commitment to excellence, mentorship of colleagues and advocacy for statistical literacy continue to inspire many and contribute to the growth of the statistical profession in Nigeria.
We are immensely proud of you and celebrate this remarkable milestone in your professional journey.
WARMEST CONGRATULATIONS FROM
